§ 2.1 The Architect shall provide professional services as set forth in this Agreement and in Exhibit A, the Project Authorization for the Project. The Architect represents that it is properly licensed in the jurisdiction where the Project is located to provide the services required by this Agreement, or shall cause such services to be performed by appropriately licensed design professionals within the scope of Basic Services. The scope of Basic Services to be provided by the Architect includes those services and other deliverables as specified in Exhibit A, the Project

Authorization for the Project which is incorporated into this Agreement by this reference. To the extent the Project Authorization conflicts with this Agreement, this Agreement controls.

§ 2.2 The Architect shall perform its services consistent with the professional skill and care ordinarily provided by architects performing similar services for educational institutions with facilities of like size and kind, including but not limited to the skill and care necessary to cause all final Construction Documents prepared by Architect or consultants of Architect to be in compliance with all applicable laws, statutes, codes, ordinances, orders, rules and regulations of the governmental authority or authorities having jurisdiction over the Project; to be complete, detailed, and ready for bidding and construction, and to be free of errors or omissions. The Architect shall perform its services as expeditiously as is consistent with such professional skill and care and the orderly progress of the Project.

§ 2.3 The Architect shall identify a representative authorized to act on behalf of the Architect with respect to the Project.

§ 2.4 Except with the Owner's knowledge and consent, the Architect shall not engage in any activity, or accept any employment, interest or contribution that would reasonably appear to compromise the Architect's professional judgment with respect to this Project.

If any of the requirements set forth below are in addition to the types and limits the Architect normally maintains, upon notice by the Architect and the subsequent written agreement of the parties, the Owner shall pay the Architect as set forth in Section 11.9. Unless otherwise required by Owner, the Architect's insurance shall be as follows

§ 2.5.1 Commercial General Liability with policy limits of not less than one million dollars (\$ 1,000,000.00) for each occurrence and two million dollars (\$ 2,000,000.00) in the aggregate for bodily injury and property damage.

§ 2.5.3 The Architect may achieve the required limits and coverage for Commercial General Liability and Automobile Liability through a combination of primary and excess or umbrella liability insurance, provided such primary and excess or umbrella liability insurance policies result in the same or greater coverage as the coverages required under Sections 2.5.1 and 2.5.2, and in no event shall any excess or umbrella liability insurance provide narrower coverage than the primary policy. The Schematic Design Documents shall consist of drawings and other documents including a site plan, if appropriate, and preliminary building plans, sections and elevations; and may include some combination of study models, perspective sketches, or digital representations. Preliminary selections of major building systems and construction materials shall be noted on the drawings or described in writing.

§ 3.2.5.1 The Architect shall consider sustainable design alternatives, such as material choices and building orientation, together with other considerations based on program and aesthetics, in developing a design that is consistent with the Owner's program, schedule and budget for the Cost of the Work. The Owner may obtain more advanced sustainable design services as a Supplemental Service under Section 4.1.1.

§ 3.2.5.2 The Architect shall consider the value of alternative materials, building systems and equipment, together with other considerations based on program and aesthetics, in developing a design for the Project that is consistent with the Owner's program, schedule, and budget for the Cost of the Work.

§ 3.2.6 The Architect shall submit to the Owner an estimate of the Cost of the Work prepared in accordance with Section 6.3.

§ 3.2.7 The Architect shall submit the Schematic Design Documents to the Owner, meet with the Owner to review Schematic Design Documents, and request the Owner's approval.

§ 3.3 Design Development Phase Services

§ 3.3.1 Based on the Owner's approval of the Schematic Design Documents, and on the Owner's authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, the Architect shall prepare Design Development Documents for the Owner's approval. The Design Development Documents shall illustrate and describe the development of the approved Schematic Design Documents and shall consist of drawings and other documents including plans, sections, elevations, typical construction details, and diagrammatic layouts of building systems to fix and describe the size and character of the Project as to architectural, structural, mechanical, plumbing, fire protection and electrical systems, and other appropriate elements. The Design Development Documents shall also include outline specifications that identify major materials and systems and establish, in general, their quality levels.

§ 3.3.2 The Architect shall update the estimate of the Cost of the Work prepared in accordance with Section 6.3.

§ 3.3.3 The Architect shall submit the Design Development Documents to the Owner, meet with the Owner to review the Design Development Documents, advise the Owner of any adjustments to the estimate of the Cost of the Work, and request the Owner's approval.

§ 3.4 Construction Documents Phase Services

§ 3.4.1 Based on the Owner's approval of the Design Development Documents, and on the Owner's authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, the Architect shall prepare Construction Documents for the Owner's approval. The Construction Documents shall illustrate and describe the further development of the approved Design Development Documents and shall consist of Drawings and Specifications setting forth in detail the quality levels and performance criteria of materials and systems and other requirements for the construction of the Work. The Construction Documents shall include all Drawings and Specifications required to obtain the construction permits and approvals of the governmental authority or authorities having jurisdiction over the Project. The Owner and Architect acknowledge that, in order to perform the Work, the Contractor will provide additional information, including Shop Drawings, Product Data, Samples and other similar submittals, which the Architect shall review in accordance with Section 3.6.4.

§ 3.4.2 The Architect shall incorporate the design requirements of governmental authorities having jurisdiction over the Project into the Construction Documents.

§ 3.4.3 During the development of the Construction Documents, the Architect shall assist the Owner in the development and preparation of (1) procurement information that describes the time, place, and conditions of bidding, including bidding or proposal forms, with alternate bid requirements; (2) the form of agreement between the Owner and Contractor; and (3) the General Conditions of the Contract for Construction as modified by the Owner or the Owner's attorney. The Architect shall also compile a project manual that includes the Owner-modified General Conditions of the Contract for Construction and Specifications, and may include bidding requirements and sample forms.

§ 3.5.2.3 The Architect shall submit to Owner's attorneys for review and approval of all template front end specifications including agreements and template general conditions for review and approval at the commencement

of the first Project under this Agreement. Thereafter only non-standard front end specifications and general conditions will require Owner approval before issuance.

§ 3.5.2.4 If the Bidding Documents permit substitutions, upon the Owner's written authorization, the Architect shall, as a Basic Service, consider requests for substitutions and prepare and distribute addenda identifying approved substitutions to all prospective bidders.

§ 3.5.2.5 The Architect shall review and evaluate each bid, and shall recommend to the Owner the lowest responsive bidder. If requested by the Owner, the Architect shall notify all prospective bidders of the bid results. If the Architect recommends that the Owner disqualify or reject a bidder, the Architect shall provide a written recommendation to the Owner setting forth with specificity the basis of the proposed disqualification or rejection and providing evidence necessary to establish that the subject bidder is not responsive. The Owner, upon the advice of the Architect, will make any and all determinations as to the responsiveness of bidders.

§ 3.5.3 Negotiated Proposals

§ 3.5.3.0 Section 3.5.3 and its subparts shall only apply if and to the extent Owner directs the Architect that the Work, or portions thereof, may be procured by negotiated proposals instead of competitive bidding as otherwise required by law. Architect shall follow the Owner's directions regarding the method of procurement for all portions of the Work.

§ 3.5.3.1 Proposal Documents shall consist of proposal requirements and proposed Contract Documents.

§ 3.5.3.2 The Architect shall assist the Owner in obtaining proposals by:

§ 3.5.4 If the Architect recommends that the Owner disqualify or reject a bidder or proposer, as the case may be, based upon a lack of responsiveness and/or responsibility, the Architect shall provide a written recommendation to the Owner setting forth with specificity the basis of the proposed disqualification or rejection and providing all evidence necessary to establish that the subject is not responsive and/or responsible. The Owner, upon the advice of the Architect, will make any and all determinations as to the responsiveness and/or responsibility of bidders.

§ 3.6 Construction Phase Services

§ 3.6.1 General

§ 3.6.1.1 The Architect shall provide administration of the Contract between the Owner and the Contractor as set forth below and in AIA Document A201™-2017, General Conditions of the Contract for Construction, as amended by the Owner or the Owner's attorney and included in the Project Manual. If the Owner and Contractor modify AIA Document A201-2017, those modifications shall not affect the Architect's services under this Agreement unless the Owner and the Architect amend this Agreement.

§ 3.6.1.2 The Architect shall advise and consult with the Owner during the Construction Phase Services. The Architect shall have authority to act on behalf of the Owner only to the extent provided in this Agreement. The Architect shall not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, nor shall the Architect be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents, except if the Architect fails to provide written notice as required in this Agreement and such failure causes specific damages to the Owner beyond those damages caused by the Contractor's failure to properly perform the Work. The

Architect shall be responsible for the Architect's negligent acts or omissions, but shall not have control over or charge of, and shall not be responsible for, acts or omissions of the Contractor or of any other persons or entities performing portions of the Work. During the Project, the Architect shall promptly report in writing to Owner any known defects or deficiencies in the Project or the Work of the Contractor or any of its Subcontractors, or their agents or employees, or any other person performing any of the Work. Drawings or Specifications furnished by the Architect that are found to contain any error or omission shall be promptly corrected by the Architect at no cost to the Owner. These provisions shall not limit the Owner's remedies under this Agreement.

§ 3.6.1.3 Subject to Section 4.2 and except as provided in Section 3.6.6.5, the Architect's responsibility to provide Construction Phase Services commences with the award of the Contract for Construction and terminates on the date the Architect properly issues the final Certificate for Payment.

§ 3.6.1.4 The Architect shall promptly make corrections to the Construction Documents, at no cost to the Owner, if any errors, omissions, or ambiguities by the Architect or its consultants are discovered during the Construction Phase.

§ 3.6.1.5 The Architect shall, as appropriate for the state of construction, attend and conduct periodic progress meetings which shall include the Owner, the Architect, and appropriate prime contractors. Unless otherwise stated in the Project Authorization, the Architect shall record the meetings in written meeting minutes, which shall be distributed for review. Comments on the published meeting minutes shall be discussed as part of the following progress meeting. Each progress meeting shall cover, at a minimum, progress, new and old business, and quality. Notwithstanding, it is anticipated that the Contractor shall have separate meetings for its own purposes of planning and coordinating its own work.

§ 3.6.2 Evaluations of the Work

§ 3.6.2.1 The Architect shall visit the site at intervals appropriate to the stage of construction, or as otherwise required in Section 4.2.3, to become familiar with the progress and quality of the portion of the Work completed, and to determine if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect shall keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner in writing (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work.

The Architect shall, as appropriate for the stage of construction, attend construction meetings with the Contractor and Subcontractors. The Architect shall on a weekly basis observe the site for the duration reasonably necessary to assure the Architect that the Work is proceeding in accordance with the Contract Documents. The Architect shall perform such site observations only with competent personnel and consultants who are experienced in such tasks and acceptable to the Owner.

On the basis of such on-site construction observation, the Architect shall keep the Owner informed of the progress and quality of the Work and shall exercise due care and diligence to advise Owner against defects and deficiencies in the Work of the Contractor and the Subcontractors, and shall promptly report to the Owner any defects or deficiencies in any Work known to the Architect. The Architect shall submit a written field report to the Owner for each field visit. The Architect during critical phases of construction shall have its consultants provide on-site observation to verify construction is in accordance with the Contract Documents. In such instances, the Architect's consultants shall prepare a field report of the conditions observed and any recommendations to be acted upon by Owner. The Architect and its specialty engineers, consultants, agents and officers shall promptly upon notice or discovery during the Construction Phase or thereafter make necessary revisions or corrections of errors, ambiguities or omissions in its Drawings and Specifications without additional costs to the Owner. The Architect shall, at no additional cost to the Owner, provide project representation beyond Basic Services when required due to the Architect's failure to exercise the standard of care applicable to Architect's services.

§ 3.6.2.2 The Architect has the authority and responsibility to the Owner to reject Work that does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable, the Architect shall have the authority to require inspection or testing of the Work in accordance with the provisions of the Contract Documents,

Init.

whether or not the Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 3.6.2.3 The Architect shall interpret and make recommendations to the Owner concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect's response to such requests shall be made in writing within any time limits agreed upon or otherwise with reasonable promptness.

§ 3.6.2.4 Interpretations and recommendations of the Architect shall be consistent with the intent of, and reasonably inferable from, the Contract Documents and shall be in writing or in the form of drawings. When making such interpretations and decisions, the Architect shall endeavor to secure faithful performance by both Owner and Contractor, and shall not be liable for results of interpretations or decisions rendered in good faith.

§ 3.6.2.5 To the extent required by the Contract Documents, the Architect shall render initial decisions on Claims between the Owner and Contractor as provided in the Contract Documents.

§ 3.6.3 Certificates for Payment to Contractor

§ 3.6.3.1 The Architect shall review and certify the amounts due the Contractor and shall issue certificates in such amounts. The Architect's certification for payment shall constitute a representation to the Owner, based on the Architect's evaluation of the Work as provided in Section 3.6.2 and on the data comprising the Contractor's Application for Payment, and based on the Architect's exercise of professional care and skill that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and that the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to (1) an evaluation of the Work for conformance with the Contract Documents, (2) results of subsequent tests and inspections, (3) correction of minor deviations from the Contract Documents prior to completion, and (4) specific qualifications expressed by the Architect.

§3.6.3.1.1 The Construction Documents shall provide that each Contractor submit a schedule of values prior to commencing its Work. The schedule of values, among other things, shall be used by the Architect as a basis for evaluating the applications for payment.

§3.6.3.1.2 The Architect shall determine whether Contractor's contractual prerequisites to payment have been satisfied for each Application for Payment; such as submission of Certified Payrolls, submission of Schedule of Values and submission of Lien Waivers properly executed by Subcontractors.

§ 3.6.3.2 The issuance of a Certificate for Payment shall not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment, or (4) ascertained how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ 3.6.3.3 The Architect shall maintain a record of the Applications and Certificates for Payment.

§ 3.6.4 Submittals

§ 3.6.4.1 The Architect shall review and approve the Contractor's submittal schedule and shall not unreasonably delay or withhold approval of the schedule. The Architect's action in reviewing submittals shall be taken in accordance with the approved submittal schedule or, in the absence of an approved submittal schedule, with reasonable promptness while allowing sufficient time, in the Architect's professional judgment, to permit adequate review.

§ 3.6.4.2 The Architect shall review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data and Samples, to determine if the submittals conform to and are consistent with the Contract Documents. Where appropriate, the Architect's consultants shall review and approve submittals. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as

dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. Unless otherwise indicated in such review, the Architect's review shall not constitute approval of safety precautions or construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 3.6.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials, or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review and take appropriate action on Shop Drawings and other submittals related to the Work designed or certified by the Contractor's design professional, provided the submittals bear such professional's seal and signature when submitted to the Architect. The Architect's review shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect shall be entitled to rely upon, and shall not be responsible for, the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals, unless the Architect knows or reasonably should know that such submittals contain errors or omissions or do not conform to the Contract Documents.

§ 3.6.4.4 Subject to Section 4.2, the Architect shall review and respond to requests for information about the Contract Documents. The Architect shall set forth, in the Contract Documents, the requirements for requests for information. Requests for information shall be made in a form approved by the Architect and shall include, at a minimum, a detailed written statement that indicates the specific Drawings or Specifications in need of clarification and the nature of the clarification requested. The Architect's response to such requests shall be made in writing within any time limits agreed upon, or otherwise with reasonable promptness. If deemed appropriate by the Architect, the Architect shall prepare and issue supplemental Drawings and Specifications in response to the requests for information.

§ 3.6.4.5 The Architect shall maintain a record of submittals and copies of submittals supplied by the Contractor in accordance with the requirements of the Contract Documents and shall regularly notify the Owner of same at progress meetings.

§ 3.6.5 Changes in the Work

§ 3.6.5.1 The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. The Architect shall maintain a complete written record of such minor changes and shall regularly notify the Owner of same at the progress meetings. Subject to Section 4.2, the Architect shall prepare Change Orders and Construction Change Directives for the Owner's approval and execution in accordance with the Contract Documents.

§ 3.6.5.1.1 The Architect shall review requests by the Owner or Contractor for changes in the Work, including adjustments to the Contract Sum or Contract Time. A properly prepared request for a change in the Work shall be accompanied by sufficient supporting data and information to permit the Architect to make a reasonable determination without extensive investigation. If necessary, the Architect shall prepare additional Drawings and Specifications to accompany the changes in the Work. If the Architect determines that requested changes in the Work are not materially different from the requirements of the Contract Documents, the Architect may, at the Owner's option, issue an order for a minor change in the Work or recommend to the Owner that the requested change be denied.

§ 3.6.5.2 The Architect shall maintain records relative to changes in the Work and shall regularly notify the Owner of same at the construction progress meetings. The Architect shall, at appropriate intervals, update the Construction Documents to incorporate all approved changes in the Work, and to create Record Drawings.

§ 3.6.6 Project Completion

§ 3.6.6.1 The Architect shall:

- .1 conduct inspections to determine the date or dates of Substantial Completion and the date of final completion;
- .2 if when deemed appropriate by the Architect, issue Certificates of Substantial Completion;
- .3 review and approve, and forward to the Owner, for the Owner's review and records, written warranties and related documents required by the Contract Documents and received from the Contractor; and,

- 4 if and when deemed appropriate by the Architect, issue a final Certificate for Payment based upon a final inspection indicating that, to the best of the Architect’s knowledge, information, and belief, the Work complies with the requirements of the Contract Documents.

§ 3.6.6.2 The Architect’s inspections shall be conducted with the Owner to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Contractor of Work to be completed or corrected.

§ 3.6.6.3 When Substantial Completion has been achieved, the Architect shall inform the Owner about the balance of the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.

§ 3.6.6.4 The Architect shall forward to the Owner the following information received from the Contractor: (1) consent of surety or sureties, if any, to reduction in or partial release of retainage or the making of final payment; (2) affidavits, receipts, releases and waivers of liens, or bonds indemnifying the Owner against liens; and (3) any other documentation required of the Contractor under the Contract Documents.

§ 3.6.6.5 Prior to the expiration of one year from the date of Substantial Completion, the Architect shall, without additional compensation, schedule and conduct a meeting with the Owner to review the facility operations and performance.

ARTICLE 5 OWNER'S RESPONSIBILITIES

§ 5.1 Unless otherwise provided for under this Agreement, the Owner shall consult with the Architect and provide information in a timely manner regarding requirements for and limitations on the Project, as requested by the Architect in writing and reasonably necessary for the Architect to perform its services.

§ 5.2 The Owner shall establish and consult with the Architect to periodically update the Owner's budget for the Project, including (1) the budget for the Cost of the Work as defined in Section 6.1; (2) the Owner's other costs; and, (3) reasonable contingencies related to all of these costs. The Owner shall update the Owner's budget for the Project as necessary throughout the duration of the Project until final completion. If the Owner significantly increases or decreases the Owner's budget for the Cost of the Work, the Owner shall notify the Architect. The Owner and the Architect shall thereafter agree to a corresponding change in the Project's scope and quality.

§ 5.3 The Owner shall identify a representative authorized to act on the Owner's behalf with respect to the Project, subject to the extent expressly permitted by applicable law and the Owner's rules, policies, and practices. The Owner shall render decisions and approve the Architect's properly submitted submittals in a timely manner in order to avoid unreasonable delay in the orderly and sequential progress of the Architect's services.

§ 5.4 The Owner shall furnish surveys, as requested by the Architect, to describe physical characteristics, legal limitations and utility locations for the site of the Project, and a written legal description of the site. The surveys and legal information shall include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; designated wetlands; adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the site; locations, dimensions, and other necessary data with respect to existing buildings, other improvements and trees; and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths. All the information on the survey shall be referenced to a Project benchmark.

§ 5.5 The Owner shall upon reasonable advance written request of the Architect directly contract for geotechnical, surveying, construction material testing, and fixture, furnishing and equipment design services, or authorize and direct the Architect to furnish them as Additional Services, when such services are reasonably required by the scope of the Project and to the extent not included in Architect's services hereunder. The Architect shall assist with soliciting proposals and provide recommendations for the terms of such agreements as necessary.

§ 5.6 The Owner shall provide the Supplemental Services designated as the Owner's responsibility in Section 4.1.1.

§ 5.7 If the Owner identified a Sustainable Objective in Article 1, the Owner shall fulfill its responsibilities as required in AIA Document E204™–2017, Sustainable Projects Exhibit, attached to this Agreement.

§ 5.8 The Owner shall coordinate the services of its own consultants with those services provided by the Architect. Upon the Architect's request, the Owner shall furnish copies of the scope of services in the contracts between the Owner and the Owner's consultants. The Owner shall furnish the services of consultants other than those designated as the responsibility of the Architect in this Agreement, or authorize the Architect to furnish them as an Additional Service, when the Architect requests such services and demonstrates that they are reasonably required by the scope of the Project.

§ 5.9 The Owner shall, upon the Architect's request, furnish tests, inspections and reports required by law or the Contract Documents, such as structural, mechanical, and chemical tests, tests for air and water pollution, and tests for hazardous materials.

§ 5.10 The Owner shall furnish all legal, insurance and accounting services, including auditing services, that may be reasonably necessary at any time for the Project to meet the Owner's needs and interests.

§ 5.11 The Owner shall use reasonable efforts to provide prompt written notice to the Architect if the Owner becomes aware of any fault or defect in the Project, including errors, omissions or inconsistencies in the Architect's Instruments of Service; provided that the failure of the Owner to provide such notice shall not waive any of Owner's rights or remedies under this Agreement or otherwise.

§ 5.12 The Owner may include the Architect in all communications with the Contractor that relate to or affect the Architect's services or professional responsibilities. The Owner may promptly notify the Architect of the substance of any direct communications between the Owner and the Contractor otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect.

§ 5.13 Before executing the Contract for Construction, the Owner shall coordinate the Architect's duties and responsibilities set forth in the Contract for Construction with the Architect's services set forth in this Agreement. The Owner shall provide the Architect a copy of the executed agreement between the Owner and Contractor, including the General Conditions of the Contract for Construction, as amended.

§ 5.14 The Owner shall provide the Architect access to the Project site prior to commencement of the Work and shall obligate the Contractor to provide the Architect access to the Work wherever it is in preparation or progress.

§ 5.15 Within 15 days after receipt of a written request from the Architect, the Owner shall furnish the requested information as necessary and relevant for the Architect to evaluate, give notice of, or enforce lien rights.

ARTICLE 6 COST OF THE WORK

§ 6.1 For purposes of this Agreement, the Cost of the Work shall be the total actual cost to the Owner to construct all elements of the Project designed or specified by the Architect and shall include contractors' general conditions costs, overhead and profit. To the extent the Project is not completed, the Cost of the Work shall be the Contractor's bid price, as modified by any Change Orders then executed. The Cost of the Work also includes the reasonable value of labor, materials, and equipment, donated to, or otherwise furnished by, the Owner. The Cost of the Work does not include the compensation of the Architect; the costs of the land, rights-of-way, financing, or contingencies for changes in the Work; or other costs that are the responsibility of the Owner. The Cost of the Work does not include Work for which the Architect has performed designs, specifications or drawings designs as an Additional Service. Instead, the Architect's sole compensation for Additional Services shall be the hourly rates or agreed upon fixed fee agreed in writing by the parties.

§ 6.2 The Owner's budget for the Cost of the Work is provided in Initial Information, and shall be adjusted throughout the Project as required under Sections 5.2, 6.4 and 6.5. Evaluations of the Owner's budget for the Cost of the Work, and the preliminary estimate of the Cost of the Work and updated estimates of the Cost of the Work, prepared by the Architect, represent the Architect's judgment as a design professional. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials, or equipment; the Contractor's methods of determining bid prices; or competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's budget for the Cost of the Work, or from any estimate of the Cost of the Work, or evaluation, prepared or agreed to by the Architect.

§ 6.3 In preparing estimates of the Cost of Work, the Architect shall be permitted to include contingencies for design, bidding, and price escalation; to determine what materials, equipment, component systems, and types of construction are to be included in the Contract Documents; to recommend reasonable adjustments in the program and scope of the Project; and to include design alternates as may be necessary to adjust the estimated Cost of the Work to meet the Owner's budget. The Architect's estimate of the Cost of the Work shall be based on current area, volume or similar conceptual estimating techniques.

§ 6.4 If, through no fault of the Architect, the Procurement Phase has not commenced within 90 days after the Architect submits the Construction Documents to the Owner, the Owner's budget for the Cost of the Work shall be adjusted to reflect changes in the general level of prices in the applicable construction market.

§ 6.5 If at any time the Architect's estimate of the Cost of the Work exceeds the Owner's budget for the Cost of the Work, the Architect shall make appropriate recommendations to the Owner to adjust the Project's size, quality, or budget for the Cost of the Work, and the Owner shall cooperate with the Architect in making such adjustments.

§ 6.6 If the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services is exceeded by the lowest bona fide bid or negotiated proposal, the Owner shall

- .1 give written approval of an increase in the budget for the Cost of the Work;
- .2 authorize rebidding or renegotiating of the Project within a reasonable time;
- .3 terminate in accordance with Section 9.5;
- .4 in consultation with the Architect, revise the Project program, scope, or quality as required to reduce the Cost of the Work and rebid the Project; or,
- .5 implement any other mutually acceptable alternative.

§ 6.7 If the Owner chooses to proceed under Section 6.6.4, the Architect shall, without additional compensation and as a part of Basic Services, modify the Construction Documents as necessary to comply with the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services, or the budget as adjusted under Section 6.6.1. If the Owner requires the Architect to modify the Construction Documents and rebid the Project because the lowest bona fide bid or negotiated proposal exceeds the Owner's budget for the Cost of the Work, the Architect's services for modifying the Construction Documents and rebidding the Project shall be without additional compensation.

ARTICLE 7 COPYRIGHTS AND LICENSES

§ 7.01 Drawings, specifications and other documents, including those in electronic form, prepared by the Architect and the Architect's consultants are Instruments of Service for use solely with respect to this Project. Provided the Owner is not in default under this Agreement, the Owner owns the Instruments of Service and shall retain all common law, statutory and other reserved rights, including copyrights, and the Architect hereby waives all common law, statutory and other reserved rights, including copyrights, in and to the Instruments of Service. Provided the Owner is not in default under this Agreement, the Owner may use the Instruments of Service for future additions or alterations to this Project or for other projects, which use shall be at the Owner's sole risk and without liability to the Architect and the Architect's consultants.

§ 7.1 The Architect and the Owner warrant that in transmitting Instruments of Service, or any other information, the transmitting party is the copyright owner of such information or has permission from the copyright owner to transmit such information for its use on the Project.

§ 10.9 The invalidity of any provision of the Agreement shall not invalidate the Agreement or its remaining provisions. If it is determined that any provision of the Agreement violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Agreement shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Agreement.

§ 10.10 The Architect shall indemnify and hold the Owner, its Board of Education, individual board members, officers, directors, agents, and employees (collectively, "Indemnitees") harmless from all losses, claims, liabilities, injuries, damages and expenses, including reasonable attorneys' fees and court costs, that one or more of the Indemnitees may incur, to the extent caused by the Architect's negligence or breach of this Agreement.
