

As a student safety company, keeping student data safe and secure is a top priority. We have implemented a security program to protect the information we collect from loss, misuse, and unauthorized access, disclosure, alteration, and destruction. Our security measures are designed to protect personal information, to limit the dissemination of personal information to only designated staff or third party vendors as is reasonably necessary to the provision of Services. You can find our COPPA Privacy Policy [here](#)

Securly is SOC 2 Type 1 and Type 2 compliant, and our Filter is also certified by iKeepSafe. For more than a decade, schools and parents have relied on iKeepSafe, a 501(c)(3) non-profit, for balanced information about using technology safely. iKeepSafe's reviews are conducted by some of the most qualified professionals in the field. For full details about the rigorous certification process Securly undergoes each year, please see <https://ikeepSAFE.org/our-process/>

Securly is also a signatory of the Future of Privacy Forum Student Privacy Pledge (<https://fpf.org/about/>). To be a signatory, Securly has to meet their standards for protecting student data and privacy.
