

Calendars are available on both the [website](#) and the [My 91st Street Parent Portal](#). While both platforms display the same events and filtering options, they have slightly different functionality. You can filter calendars to show only the specific calendars you want, and iCal feeds are available for easy integration with your preferred calendar software. Below are detailed instructions on how to manage the calendar from each access point.

Subscribing to iCal feeds

iCal feeds are similar to RSS feeds – they both allow you to use an external program to keep track of dynamic content. In the case of the iCal file though, the content being tracked is calendar data: event start times, end times and other relevant details.

Calendar pages will display an iCal feed button. See examples below:

The screenshot shows a calendar for September 2025. At the top, there are navigation arrows and the text "SEPTEMBER 2025". In the top right corner, there are three icons: a calendar, a RSS feed icon, and a notification bell. A red arrow points to the RSS feed icon. Below the navigation bar, the calendar is organized by day of the week: WEDNESDAY, THURSDAY, FRIDAY, and SATURDAY. Each day has a list of events with colored dots indicating the event type. For example, on Wednesday, September 3rd, there are events for "Day 6", "Gr. 10-12 Classes Begin/Gr. 9 Orientation continues", "Grade 5 Students Orientation", and "Grades 6-8 New Student Orientation". On Thursday, September 4th, there are events for "Day 1", "Grade 9 Classes Begin", "Grades 1-4 Classes Begin", "Grades 5-8 Classes Begin", "Pre-K, Jr. K, & K Classroom Visits (9/4-9/5)", and "Pre-K, Jr. K, & K Classroom Visits (9/4-9/5)". On Friday, September 5th, there are events for "Day 2", "Pre-K, Jr. K, & K Classroom Visits (9/4-9/5)", "Pre-K, Jr. K, & K Classroom Visits (9/4-9/5)", "Parents of 2026 Coffee (Building #1)", and "Grade 1 Dismissal 12:15 p.m.". On Saturday, September 6th, there are events for "ACT", "Kindergarten Family Fun Day", and "Kindergarten Family Fun Day".

****Website Calendar Only:** Select the one that most closely matches the calendar management software that you have. (There are slight differences in how various calendar management software programs handle iCal feeds, which is why you need to make this choice.)

- Use the “Get Standard iCal URL” option if you’re using an iPad, iPhone or other Apple device
- Use “Get Google iCal URL” if you’re on an Android phone or tablet or if you are putting it into calendar.google.com or the google calendar app
- If you already use a Calendar app on your computer, use “Add to Default Calendar App...”. Use if you have a non-standard type calendar that requires the webcal URL

2. Copy the provided URL into your calendar software

Additional Info:

iCal feeds are generally updated hourly, meaning changes made to the calendar on the website may take up to an hour to reach your own device (there may be an additional delay, depending on how frequently your calendar software checks the iCal feed for updates). Note that following an iCal feed from a particular calendar will NOT automatically subscribe you to alerts for events on that calendar.
