KENEVIE BRYAN

TECHNOLOGY APPLICATIONS

BIOGRAPHY

My name is Kenevie Bryan, and I am very proud to be a part of the RSA family and your 6th grade Technology Applications teacher this school year. This is the beginning of my 8th year in education, with the majority of my time spent in middle school—a place I've grown to truly enjoy and feel passionate about. I am a proud graduate of UT-Brownsville (Go Scorpions!) and UT- Rio Grande Valley (V's Up!), where I earned an Associate of Arts, a Bachelor of Science in Criminal Justice, and a Master of Education in Educational Technology.

Outside of the classroom, I am a wife and proud mom to three amazing kids. My daughter Alitzah is currently in college studying sports medicine, while my sons Mason and Jacob are in middle school and active in all kinds of sports. In my free time, I love spending time with my family, cheering on my kids at their games, shopping, and enjoying a good cup of coffee.

As an educator, I believe that every student has the potential to succeed when given a supportive and engaging learning environment. My goal is to inspire curiosity, foster creativity, and equip students with the digital skills they need to thrive in an ever-changing world. I strive to make learning both meaningful and fun, while encouraging students to become confident, responsible digital citizens.
