

Make sense of problems and persevere in solving them. MP.1

I can choose strategies for solving a problem and checking my answers.

To get started I...

How many flowers did they pick?

Describe the problem in my own words.

Decide what information I need.

Select a strategy.

Flowers	Friends
Lisa	8
Imani	8
Carla	8
	↓
	24

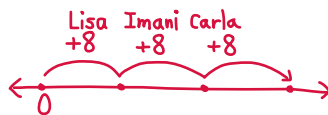

While I'm working I...

Follow my plan to solve the problem.

Try another strategy if I get stuck.

Lisa Imani Carla
+8 +8 +8

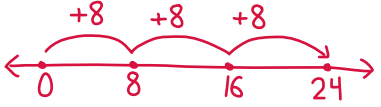

Keep working until I find an answer.

+8 +8 +8

0 8 16 24

$8 + 8 + 8 = 24$ Flowers

When I have an answer I...

Does $8 + 8 + 8$ equal 24?

Ask if it makes sense.

Check my work using another strategy.

8

3

$3 \times 8 = 24$
 $8 \times 3 = 24$
 $24 \div 8 = 3$
 $24 \div 3 = 8$

Check with a partner. If our answers differ, I figure out why.
