

# Use appropriate tools strategically.

## MP. 5

I decide when and how to use math tools, pictures, and models to help solve problems.

I know when I can estimate and when I need to find the exact answer.

I use tools like rulers and meter sticks to compare units of measure.

I represent and explain data with graphs.

I use one model to solve a problem and a different model to check my answer.

I determine whether the tool I selected makes sense.
