September 12, 2025

For the safety and security of all students, the State of New Jersey has mandated public schools to practice safety and security drills one time per month. Much like a fire drill, all safety and security drills are a safety precaution for the students and staff.

As per an amendment to the School Security Drill Law: 18:41-1, we are required to provide notification to parents and guardians following the completion of a school safety drill. Grandview Elementary School conducted a successful school safety and security drill on September 12, 2025.

Thank you for your continued support and cooperation in the best interest of the safety of our students and staff.

Respectfully,

Francesco Bifulco

Principal
Grandview Elementary School
