Chris Dryer
Athletic Director

Dear Parent/ Guardian,

We understand you would like your child to carry and self-administer their asthma medication while at school. In order to accommodate these wishes please be aware of the following:

1. You must complete the attached Self-Administration of Asthma Medication Authorization Form. Please note: If you are requesting that your child be allowed to carry and self administer their reliever/rescue inhaler, a current prescription label may be submitted instead of a written order from your child's health care provider. The prescribed label must contain the name of medication, the prescribed dosage, and the time at which or circumstances under which the medication is to be given.
2. We recommend an additional dose of asthma medication be kept at school for your child's protection in case it is needed and he/she has forgotten or misplaced their medication.
3. It will be your responsibility to remind your child to make sure they have their asthma medication when attending before and after school activities, or when leaving the school campus for any reason, including field trips.

We appreciate your cooperation in helping us to provide for the safety and health of your child while in school. Please feel free to contact me Ph# 892-6123 if you have any questions or concerns.

Sincerely,

April Jones R.N.
