

Diman Special Education Parent Advisory Council (SEPAC)

Diman Regional Vocational Technical High School
251 Stonehaven Rd
Fall River, MA 02723

Hello Diman Families!

We are the Special Education Parent Advisory Council (SEPAC). We are a parent group working in tandem with the Special Education Department. Our mission here at Diman is to promote a network of information-sharing and open communication for parents and guardians of special education students.

We are open to all parents, stepparents, guardians and educational advocates of students receiving special education services and would be honored if you joined our SEPAC! We welcome special education-related questions, experiences, and would like to be your point-of-contact.

The school does offer **translation services** in preferred languages for those who may require it. This allows any person who wants to participate the ability to participate. We do ask for notification prior to the meeting so we can ensure the need is fulfilled.

Meeting dates and notices will be sent out by the Special Education Department, school calendar, and also available on the SEPAC page of the Diman website:

<https://www.dimanregional.org/community/sepac>.

Additionally, we are always looking for more parent involvement. This could be as simple as attending meetings or making suggestions for meeting presentations, or a more in depth participation and becoming a part of the advisory board helping to address the growing changes of special education within a vocational setting.

Please feel free to reach out to the SEPAC team anytime at sepac@dimanregional.org and we will assist you as best we can.

Warm Regards,
Your Diman SEPAC
