

Component	What it Measures	Data Used to Calculate	Weight Toward Overall Rating
Achievement	Student performance on state tests (Performance Index & Indicators)	Previous School Year	20%
Progress	Year-to-year student growth (value-added)	Up to 3 years of state test data	20%
Gap Closing	How well schools serve all student groups (achievement, growth, graduation, absenteeism, English learners, and gifted)	Previous year's state & district data	15%
Graduation	4-year and 5-year graduation rates	Cohorts from 1-2 years prior	15%
Early Literacy	K-3 reading improvement, 3rd grade reading proficiency & promotion	Previous year's K-3 assessments	15%
College, Career, Workforce, and Military Readiness (CCWMR)	Post-graduation outcomes (college, military, job training, employment, FAFSA)	Data lag of 1-2 years after graduation	15%

Overall Rating: Each component receives 1-5 stars. The weighted average of all six components is then converted into the district's Overall Star Rating.
