

Pre-Algebra Syllabus Fall 2025

Instructor

Mrs. Cabahug

Email

SCABAHUG@west-fargo.k12.nd.us

Course Overview

In this course, you will learn about different aspects of algebra through direct instruction and inquiry-based learning. There will be times you will work collaboratively with classmates or independently. This is a learning environment, which means that we are respectful to others throughout the learning process. Everyone learns in their own way, in their own time.

Course Materials

- Paper Notes Provided by the teacher.
- iPad charged and ready to go for class activities
- Writing Utensil/ iPad Pen

Office Location

Rm. 220H

Classroom

Rm. 202H

Rm. 201K

Resources – If you need extra help or have questions.

- Class Notes are important resources. Make sure you get those completed.
- Email Me (Mrs. Cabahug)
- WIN Sessions

Course Schedule

| Quarter 1 | Subject |
|-----------|---------------------------|
| Unit 1 | Expressions and Integers |
| Unit 2 | Expressions and Fractions |
| Unit 3 | Expressions and Decimals |

| Quarter 2 | Subject |
|-----------|---------------------------|
| Unit 5 | Introduction to Equations |
| Unit 6 | Solving Equations |
| Unit 7 | Equations and Statistics |

Course Logistics:

Everything you will need for this class will be linked in SCHOOLGY.

OneNote is the application that will hold all of our notes, homework, and review materials (link to get to this will be in Schoology).

Every week will be organized by folders with dates included (the current week will always be located at the top of the list).

Daily performance can be affected by:

1. Attendance. Tardiness and bathroom trips reflect your willingness to stay in the classroom and work.
2. Work performance DURING class. (Stay on task.)
3. Accurate completion of homework.

4. Willingness to ask questions.
5. Participation in class discussions, group work, and enrichment activities.
6. Cooperation with teachers and classmates.

Homework Policy

Most work will be completed in class. There are IXL assignments that, if you do not reach a smart score of 80, you will need to complete outside of class. No late work will be accepted after the unit test.

Turn In: To turn in your homework, everyone will need to upload a picture of their work to the corresponding Schoology assignment.

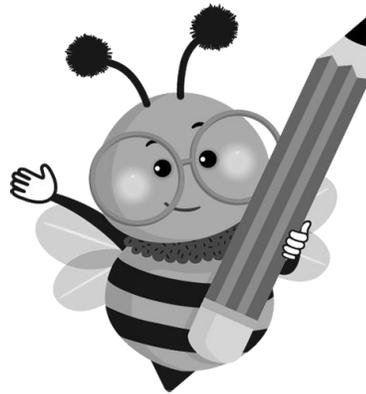

Due Dates: Every assignment will have a due date the next class day at midnight. What if you miss the due date? That is okay. I understand sometimes you won't have time after school to get all your homework done or you will have questions. I will still accept assignments up to the day of the test. This doesn't mean you should wait till the night before the test to complete your homework. That wouldn't benefit you. The sooner you turn in your homework, the sooner I can grade it and give you feedback. Feedback is what you need to improve your math skills and will help you be successful in class.

Additional Information

Grades: The time to work on improving your grade is during class throughout the quarter and semester. The last week of the quarter is not the time to come and ask how to fix your grade. Each day is when you should be working towards learning and achieving your goal for the class. Below is the breakdown of how your grades are calculated each quarter:

| | |
|-------------------------------------|------------|
| Tests | 70% |
| Quizzes/Classwork/Board work | 25% |
| Homework | 5% |

I am looking forward to a great semester with you! Feel free to reach out with any questions.
