WHAT IS THE HEALTH SCIENCE PROGRAM?

The health science program is designed to introduce you to a variety of health-related material. The courses are designed to be a sequence beginning in the sophomore year and ending in the senior year. You will learn if healthcare is the right place for you. Various credentials are available, including Certified Vet Tech, Certified Medical Assistant, Pharmacy Tech, and healthcare provider CPR. If you complete the 5-course sequence in the spring of your senior year, you are eligible to intern in various healthcare settings. You will learn how to perform various health science skills on lifelike simulation models and will learn various aspects of the healthcare setting, including client communication, documentation, and accountability.

HOSA-Future Health Professionals is an international student-led organization dedicated to preparing students for careers in healthcare. Through hands-on learning, leadership development, and competitive events, HOSA empowers future health professionals to gain the skills, confidence, and experiences they need to succeed in the medical field and beyond.

You have all the information on our website and our social networks.

The Winston County Board of Education does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities. It provides equal access to the Boy Scouts and other designated groups.

The following person has been designated to handle inquiries regarding the non-discrimination policies:
