Supporting the Whole Student

Student Services works to ensure that every student has a voice and the support they need to navigate challenges. Whether through counseling, health resources, or collaboration with families, our staff advocates for the individual needs of students and connects them with appropriate resources. From addressing academic barriers to supporting social-emotional growth, the focus is always on building strong pathways to success for every learner.

Student Services

Virginia Tiered Systems of Support (VTSS)

Poquoson Schools uses the Virginia Tiered Systems of Supports (VTSS) to ensure that every student has the tools they need to succeed academically, socially, and behaviorally. By providing different levels of support, our staff can intervene early, offer targeted help, and celebrate student growth. This framework helps create positive learning environments where all students are able to thrive. Look for your building's 3 R's!

Get Involved

Join our Special Education Advisory Committee (SEAC) - next meeting is Sept. 25th @ 6pm at Poquoson Elementary.

Have a younger child who isn't in Kindergarten yet? Join our Child Find event which offers free screenings! Share with anyone in the community - participants do not have to be from Poquoson. September 18th, 1-7pm at Poquoson Primary.
