

Graphic Design Technology IV

Second Semester

Fairfield Ludlowe High School - Fairfield Warde High School

COURSE DESCRIPTION

This second semester course provides students with an advanced understanding of the processes and systems common to careers in graphic design technology. The course is set up as an on-site production facility with students participating in its entire operation. Students will be a part of a team assuming varied responsibilities to gain insight and experience in the graphic design and production setting, with a focus on collaboration. Representative topics include but are not limited to graphic design concepts; art and copy preparation; image generation and editing; desktop and/or internet publishing; on-demand publishing; book and magazine layout; advertising and promotion; printing technology; binding and finishing; and screen printing. Students will predominantly use the Adobe Creative Cloud suite.

COURSE OBJECTIVES

Students will be able to:

- transform 2-D shapes into animations using available software.
- apply animation principles to create motions that realistically convey physical and emotional characteristics of an object or character.
- produce sketches, rough layouts, and comprehensive layouts using design principles to guide the process.
- evaluate designs, and layouts for proper grammar, punctuation, and adherence to specifications.
- design and produce graphic design products.
- collect, refine, and organize prior graphic design projects to create a professional portfolio.

UNITS OF STUDY

Unit 1: Applied Motion Graphics and Animation (10 Weeks)

Unit 2: Advanced Graphic Design and Production (10 Weeks)

COURSE POLICIES AND REQUIREMENTS

GRADING: Generally...See district policy ([Policy 6146.1AR](#))

Grading Communication

- Specific grading expectations and practices will be communicated to all students and families at the start of the school year via a consistent format.
- If students or parents have questions about grading practices, they should follow the district's established chain of command structure (see district website) with the first contact being to the teacher and then to the school administration.
- Buildings will send out reminders of the importance of checking students' grades in the Grading Portal with directions.
- Teachers will notify guardians when students fall into the F range after October 1st.

Grade Reporting

- For a processed piece or "chunked" assignment that is part of a larger task, feedback and the grade shall be shared before the next step in the process, so long as students have submitted their work at those checkpoints, on time.
- Grades for summative assessments shall be entered within 10 school days from the date of submission or the date it was due, whichever is later.
- Grades for formative assessments shall be entered within 5 school days from the date of submission or the date it was due, whichever is later, and prior to any subsequent assessment.

Guidelines for Late Work :

- Teachers will accept late work for both summative and formative tasks beyond the due date.
- Teachers will not accept late work beyond the deadline for late work. The deadline is defined as the next class period from the due date of the assignment or the alternative date that the teacher and student may agree upon depending on individual circumstances.
- Teachers may reduce the total points students can achieve as a penalty for late work up to the deadline. Students will earn a zero (0) if the assignment is not submitted or is submitted after the deadline.
- Late work only consists of assignments with an expected due date. Assessments, such as tests, quizzes and in class assignments, must be taken on the scheduled date except in cases of make-up assessments due to an excused absence.

REASSESSMENT GUIDELINES:

Eligibility of assessments	Teachers of the same course will determine which summative assessments are eligible. Students can select any part of a project to reassess. Reassessments may not be allowed one week before the end of a term.
Process	Students have two class periods in which to indicate they would like to take a reassessment. Teachers will make clear to students their preferred method for students to request reassessment (<i>e.g.</i> email or filling out a simple form/spreadsheet).
Frequency	Students will have the opportunity to reassess on two summatives per year but not more than one per term (quarter).
Assessment Format	Based on discussion between the student and teacher, students will revise portions of the original assessment in which they did not show proficiency.
Gradebook impact	Original and reassessment scores will be averaged in the gradebook.

MATERIALS:

- As provided by the course.

EXPECTATIONS OF STUDENTS:

- Be Tech and Learning Ready: Come prepared with all necessary materials, including your charged device and any required software.
- Prioritize Safety: Follow all safety guidelines and procedures, especially when working with tools, equipment, or hazardous materials.
- Participate Actively: Engage in class discussions, ask questions, and contribute to group projects. Actively participate in lab activities by following instructions, working collaboratively, and cleaning up your workspace.
- Respect the Digital Realm: Treat all digital resources and equipment with care. Avoid actions that could harm or disrupt the learning environment.
- Embrace Digital Citizenship: Use technology ethically and responsibly. Be mindful of copyright laws and online etiquette.

EXTRA HELP:

- Students should seek out extra help when needed. The teacher is available for extra help before and after school as well as during prep periods.
