Subtotal				4,400		

- A detailed document that outlines the specific needs, requirements and functions of a building or space. It serves as a blueprint for the design process, acting as a foundation for architects and designers, allowing them to translate functional requirements into a cohesive architectural design.

DMS TEACHERS + STAFF INPUT MEETING

•Spatial Needs and Classroom Enhancements
Larger classrooms with upgraded infrastructure

•Music and Performing Arts:
Separate music wing with enhanced soundproofing, instrument storage, preserved auditorium space

•Counseling and Support Facilities
Expanded counseling suite with more privacy, expanded nurse suite with external access

•Physical Education and Athletic Facilities
Full size gym, auxiliary gym, upgraded outdoor amenities

•Teacher Support and Workspaces
Larger, better-equipped workroom

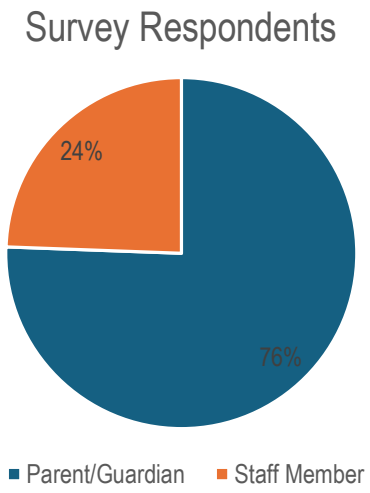

SURVEY QUESTIONNAIRE

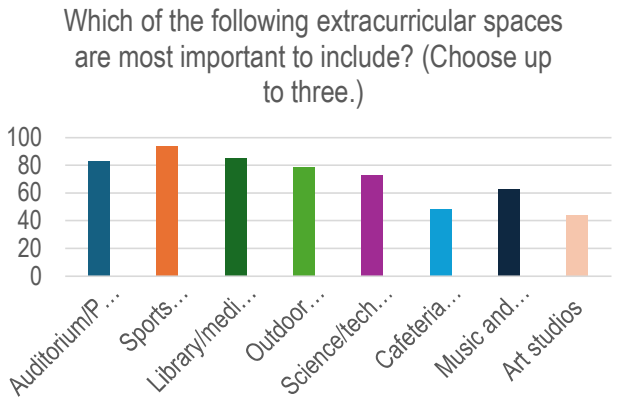

- **Classroom Space Preference**
  Mix of traditional and flexible classroom spaces

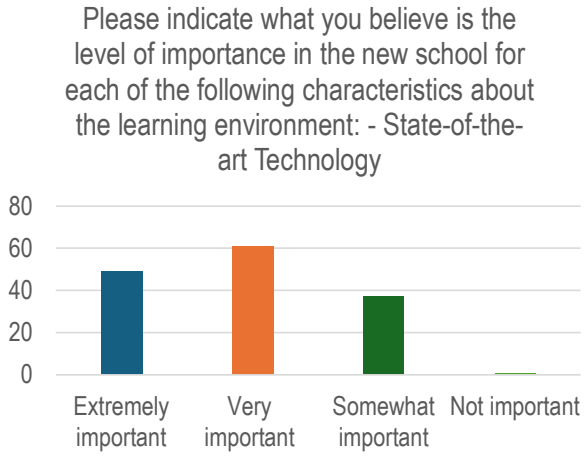

- **High Priority on Technology and Safety**
  State-of-the-art technology and comprehensive security measures

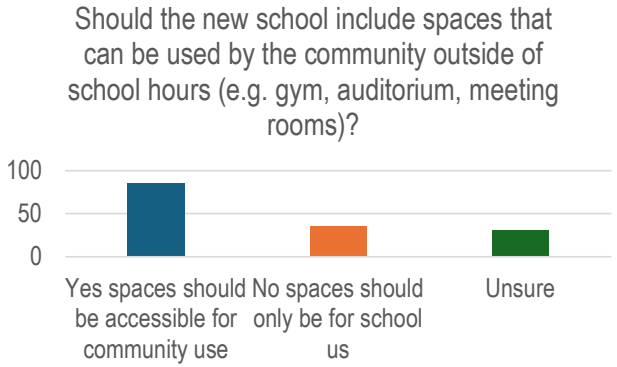

- **Interest in Extracurricular Facilities**
  Full size gym, multi-use sports fields

- **Community Accessibility**
  School spaces accessible for community use

- **What do you see as the priorities for Drew Middle School?**
- **Place a sticker beside your top priorities**
- **Write your idea if it is not shown in the "Other" box**

INTERACTIVE EXERCISE

THANK YOU
