**Richmond County School System will continue PowerUp Asynchronous Learning for Jan. 22**

(AUGUSTA, GEORGIA) – The Richmond County School System (RCSS) will continue with a PowerUp Asynchronous Learning Day schedule on Wednesday, Jan. 22, due to forecasted inclement weather. This decision follows continued monitoring of updates from the National Weather Service and collaboration with emergency management officials.

All extracurricular activities scheduled for Wednesday are canceled. Teachers will continue to provide assignments through Canvas for older students or SeeSaw for younger students, and communication with families will take place via Remind or Class Dojo.

Richmond County Schools are closely monitoring weather conditions for Thursday and will provide updates by Wednesday evening.

Additional updates will be shared through the district's inclement weather landing page at [www.rcboe.org/weatherupdates](http://www.rcboe.org/weatherupdates), the Infinite Campus Parent Portal, social media channels, and local news outlets.
