PROFESSIONAL DEVELOPMENT

# Set An Automatic Start/Stop Time on a Video

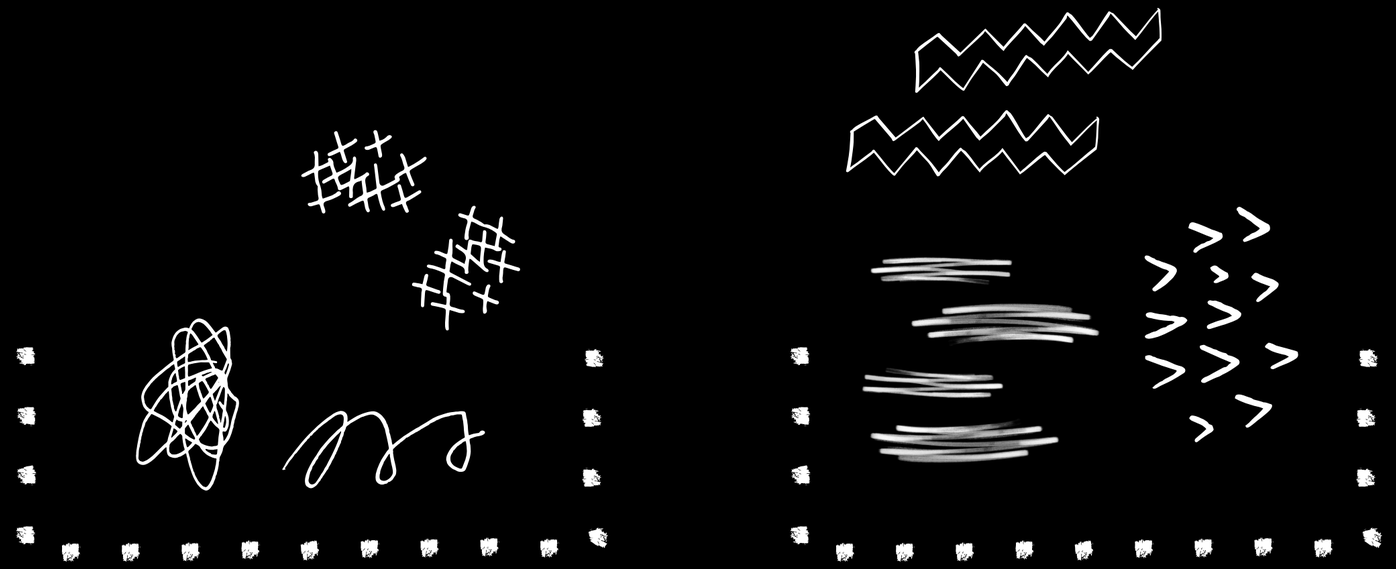

Upload a video, then right-click to bring up the Format Options. Then, set the start and stop time under Video Playback.

# Add a Countdown Timer

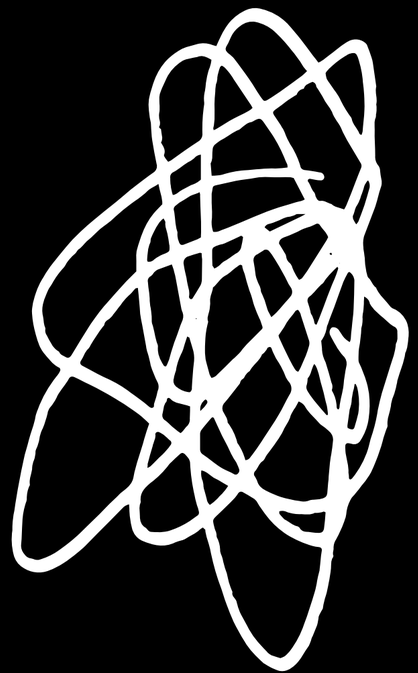

Click Insert —> Video, then search for a video on YouTube in the timed increment you want.

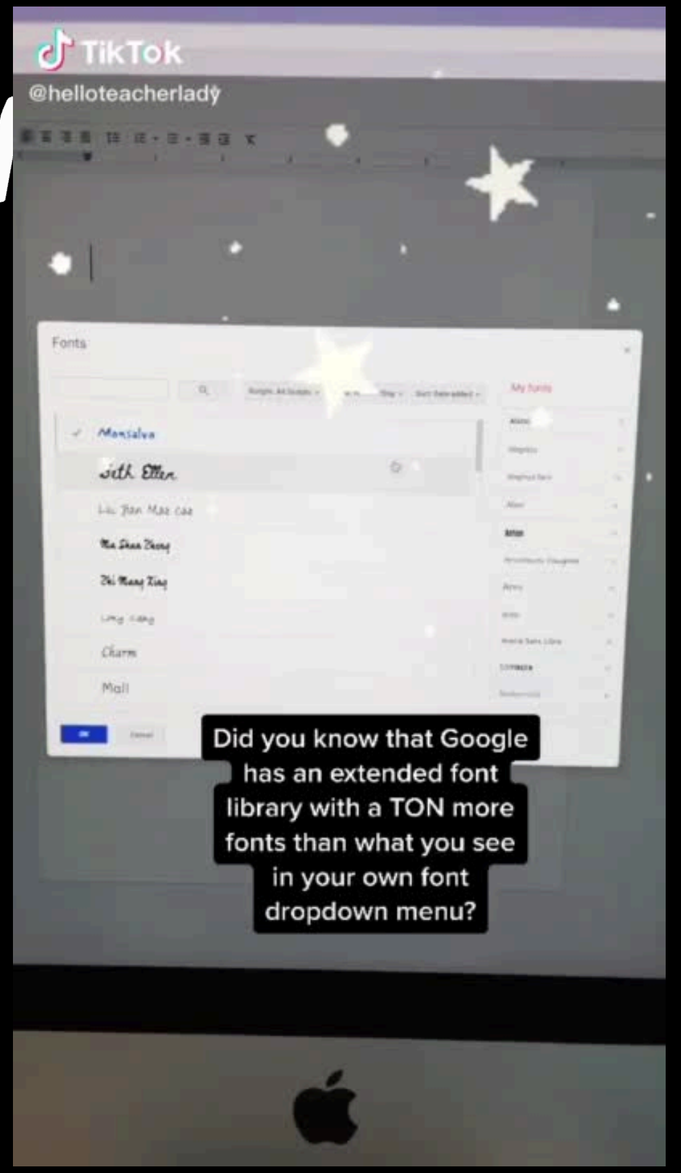

# Find More Google Fonts

Click the font dropdown and select “More Fonts.”

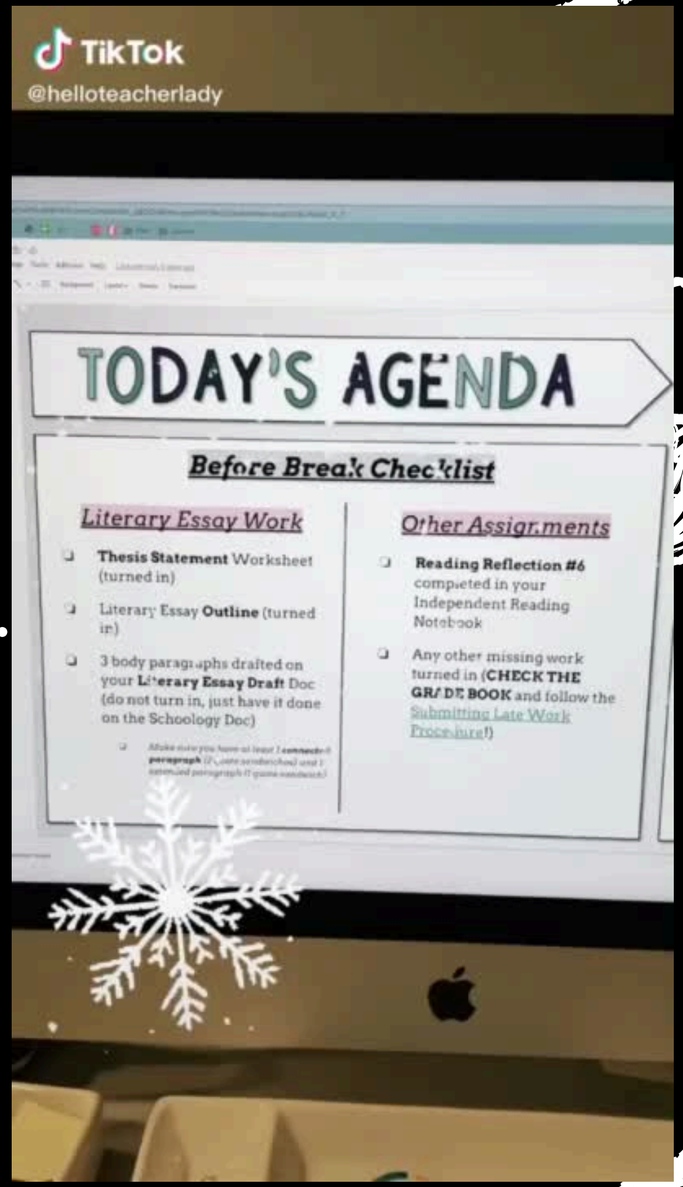

# Add Animated Snow

Do a Google search for “snow GIF transparent”, then save the GIF to your device and upload it as an image.

# Adding a PDF to Google Slides

Add a PDF securely - kids cannot change it! You can still add text boxes on top of the PDF for students to write in.

# Adding Audio to Google Slides

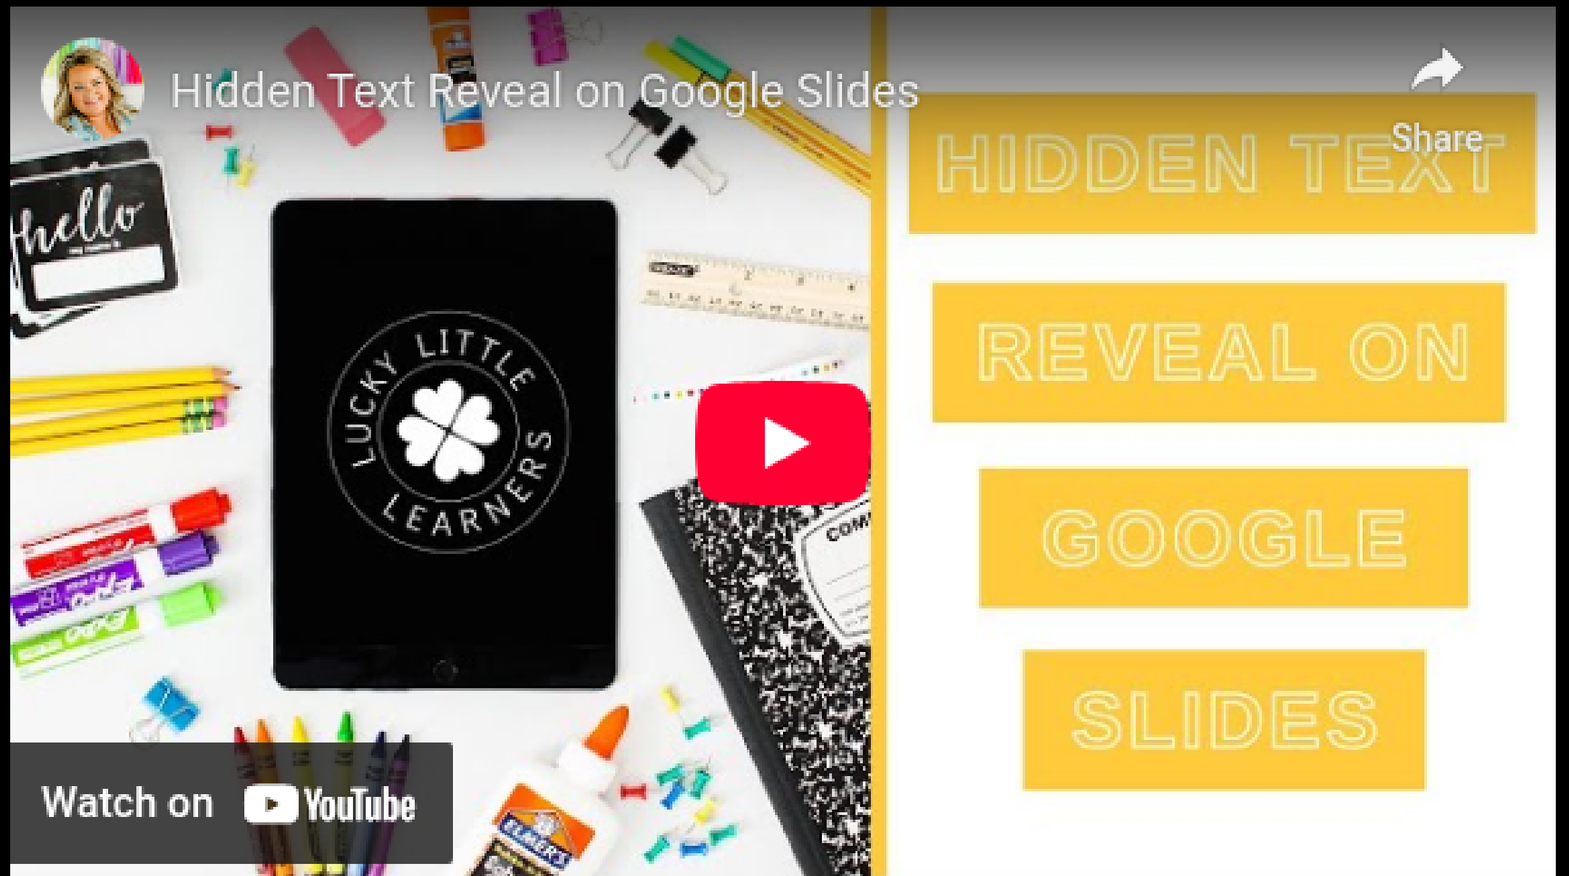

Add audio to Google Slides.

Have directions ready to go for students to listen to!

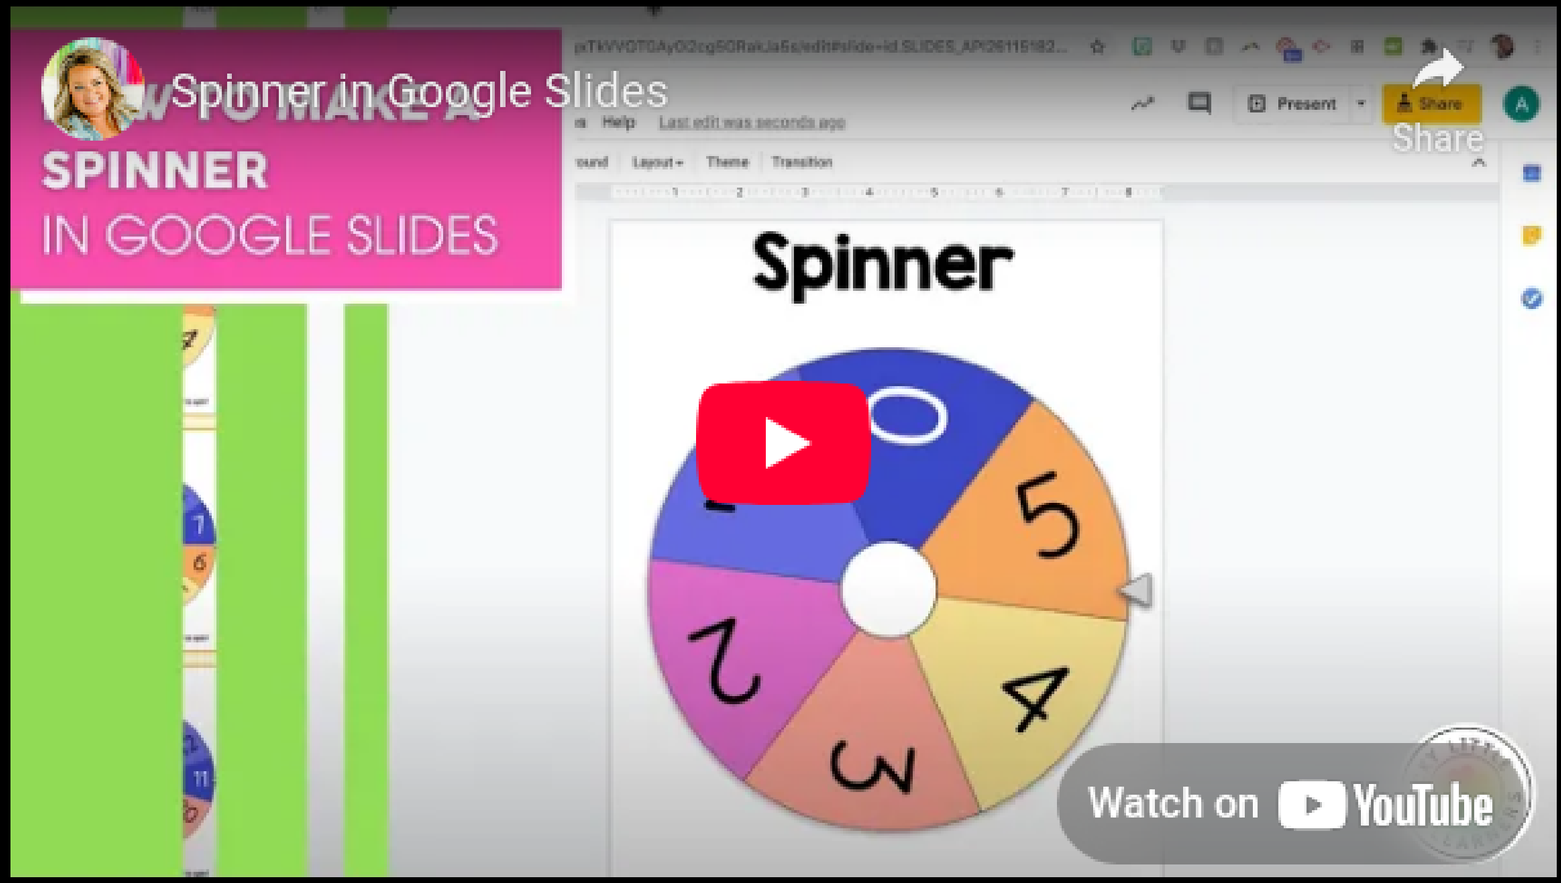

# Hidden Text Reveal

What a fun way to hide answers on Google Slides!

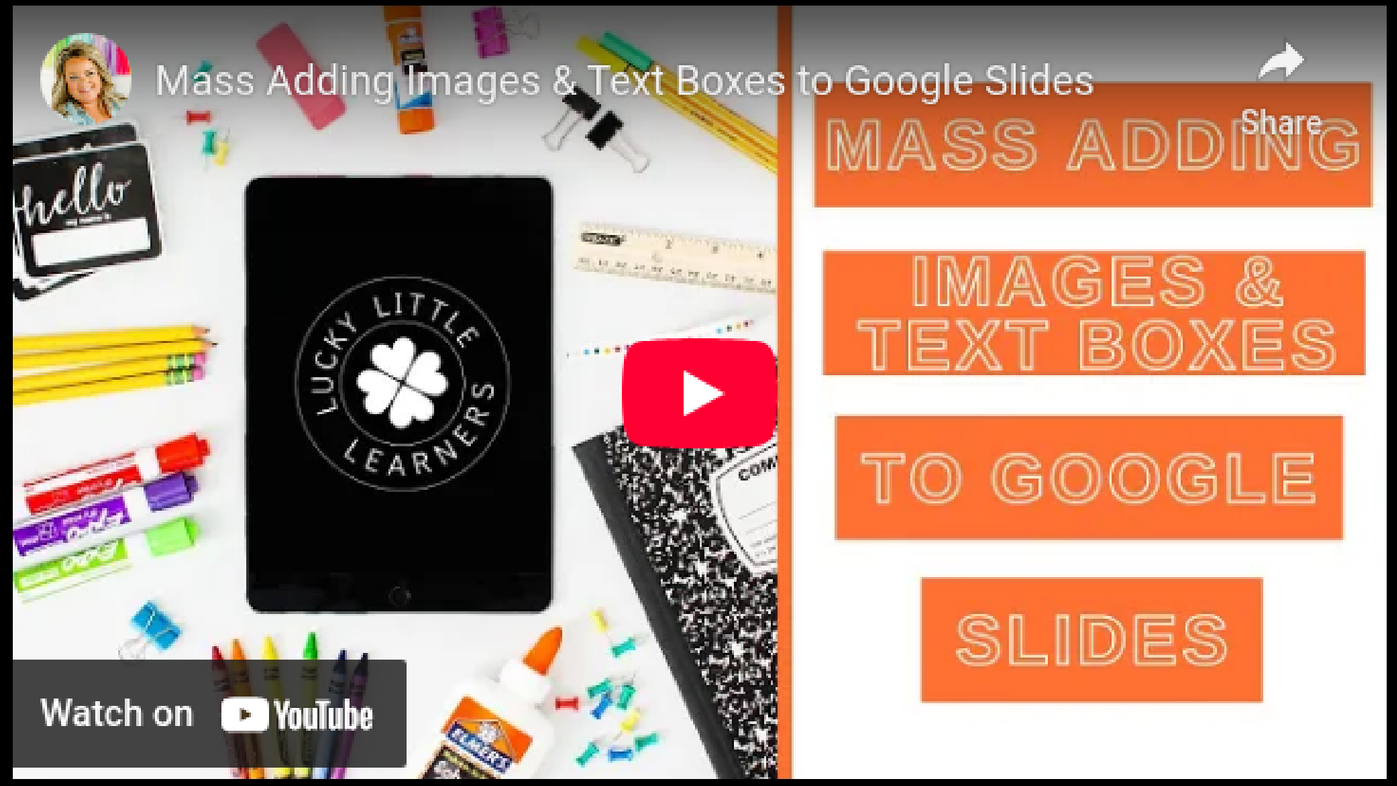

# Make A Spinner!

Perfect for randomly choosing students
to share, making partnerships, and more!

# MASS Adding Images or text boxes

# Thanks for your time!
