What is PBS LearningMedia?

PBS LearningMedia is a free online tool for teachers, parents, and others to use PBS content anywhere, anytime. PBS LearningMedia producers and educators have come together to curate a special collection of resources organized by grade and subject area. Find videos, lesson plans, and activities that support learning at home. Featured lesson plans in this collection contain full contextualization for the media they include. Plan and adapt our lessons in creative ways, using the Lesson Builder tool, Google Classroom, Remind, and more.

Ideas for Learning with PBS LearningMedia

PBS Learning Media can be used to enhance classroom learning by incorporating engaging videos, interactive lessons, and supporting materials across various subjects, allowing teachers to:

- Supplement existing curriculum:

Find video clips, documentaries, or interactive activities related to current units of study to provide visual and interactive learning experiences.

- Differentiate instruction

Access diverse content based on student needs and learning styles, including different video lengths, reading levels, and interactive features.

- Engage young learners

Utilize PBS KIDS content like "Daniel Tiger's Neighborhood" or "Arthur" to teach social-emotional skills, problem-solving, and early literacy concepts.

- Foster critical thinking

Use news segments from PBS NewsHour to spark discussions about current events and encourage students to analyze different perspectives.

- Integrate primary sources

Access historical documents and interviews to provide students with firsthand accounts of events.

Specific Examples of Using PBS LearningMedia

History lesson:
Show a clip from a historical documentary and have students analyze primary source documents to understand a pivotal event.

Science experiment:
Use an interactive simulation to demonstrate a scientific concept, followed by a class discussion and analysis.

Virtual field trip:
Take students on a virtual tour of a museum or historical site through a video on PBS Learning Media.

Creative writing prompt:
Use a video clip as inspiration for a writing assignment, encouraging students to analyze characters and themes.

Debate preparation:
Access multiple perspectives on a current issue through different video clips and news segments to prepare for a class debate.
