PHONICS FOR READING

Similar lesson structure to SIPPS. There are three levels, a placement test, and workbooks for the students. Lessons are supposed to take 30-40 minutes. We have workbooks and teacher manuals in the district, so if anyone is interested in trying this program with their students, I have samples here today to look through and you can let me know.

*This is not an online program. It is an in-person intervention that we will have access to later in the year.

TEACHER TOOLBOX

Access the Teacher Tool Box through Assess and Teach, and the Teacher Toolbox as a Resource. This has math lessons, reteaching, pre-teaching, videos that you can copy the link and assign, activities, and more.

LISTS OF LESSONS

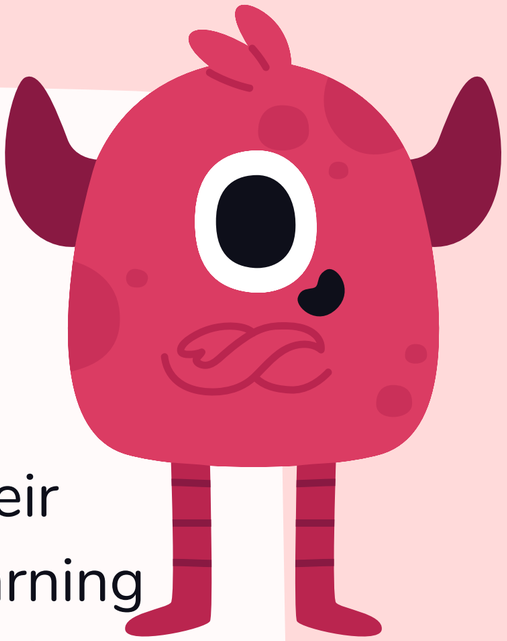

These helpful lists can be found directly on i-Ready Connect, so you can access them as you are using the program. To access them:

1. Log in to i-Ready Connect.
2. Select the question mark icon located on the bottom right corner of the screen.
3. Navigate to the FAQs section.
4. Select the option titled “Where can I find lists of lessons and vocabulary words that are covered in i-Ready Personalized Instruction?”.
5. Choose the specific list(s) you want to view.

FLUENCY FLIGHT AND LEARNING GAMES

These are great options for kids who have met their minutes on their math pathway for the week. The learning games are interactive and fun. The fluency flight is also game-based and really engaging, but also teaches students strategies to learn fact fluency. You can try a student demo in i-Ready. *Learning games can be turned off. Some classroom teachers have already requested that they be turned off because students are on them instead of their pathway - they do no earn minutes for games.

LITERACY TASKS

The i-Ready Literacy Tasks are a suite of educator-administered assessments that measure critical early literacy and fluency-related reading skills. Available in English and Spanish. There are two types of task administrations for Literacy Tasks. Benchmark Tasks use grade-level content to determine whether a student is meeting foundational reading and fluency skills up to three times per year. Progress Monitoring Tasks can be used to monitor the progress of students receiving intervention in specific literacy skills. The i-Ready Literacy Tasks are available for manual administration and scoring to all educators with an i-Ready Diagnostic for Reading license.

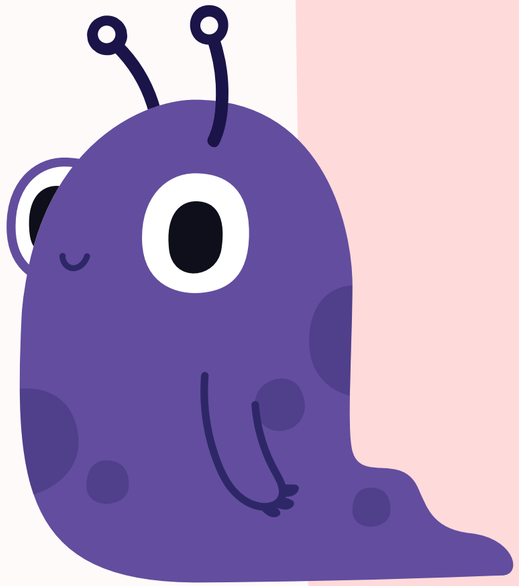

LITERACY TASKS

Literacy Tasks assess these skills:

- Phonological Awareness
- Rapid Automatized Naming (English)
- Letter Naming Fluency
- Letter Sound Fluency
- Word Recognition Fluency
- Pseudoword Decoding–Fluency
- Pseudoword Decoding–Mutisyllabic (English)
- Spelling and Encoding (English) and Encoding (Spanish)
- Passage Reading Fluency

*Can also be administered digitally! Kind of like Aims Web progress monitoring.

COMPREHENSION CHECKS FOR MATH

These are digital math comprehension checks that can be assigned to students, classes, groups, etc.

Most seem to be 5 question quick checks!

Browse and search the checks. You can assign them to students/classes. Click the checkbox next to the check to assign and schedule. These are digital. Click the blue writing to see details and also preview.

LET'S TAKE TIME TO EXPLORE, SHARE WHAT WE FIND, AND ASK QUESTIONS!
