Do's and Don'ts for I-Ready Diagnostic

DO

Periodically walk around the classroom to supervise students effectively

Ensure students have scrap paper & a pencil for the math diagnostic

Urge students to do thier best - remind them of their goal!

Make sure each student has a set of headphones

Remind students to re-read the question if struggling

Monitor student progress and ensure all students are on task

DON'T

Help students answer questions

Allow students to talk

Give calculators - the diagnostic will offer a calculator if needed

Rush students - students can have as much time as needed.

- The Diagnostic takes 35-90 min per subject
- The Diagnostic Assessment is not timed.
- Bear in mind that all students test at their own speed, so there may be some variation in these testing times

Any student who needs more time will be sent to the cafeteria to finish the diagnostic, so taking their time is important
