Directions

Spend one hour exploring the slides and resources.

Complete the Google Form.

Submit a claim form for one hour.

Why use Comprehension Checks?

Digital Comprehension Checks allow you to assess student learning at the pace of your core mathematics instruction. Assign pre-created Comprehension Check forms or create your own to gauge student understanding while teaching a math unit. Test forms are customizable. Questions can be removed or added from other tests to meet specific goals. Comprehension Checks can be assigned to the whole class or individual students.

Assigning Comprehension Checks

Accessing Comprehension Check Creation and Assignment Features

1. Select **Assess & Teach** from the top navigation.
2. Select **Assessment** for the category.
3. Select **Math** under ***Comprehension Checks***. The ***Create Assignments*** screen will display by default.

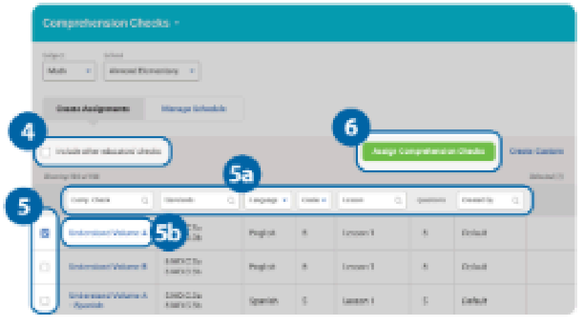

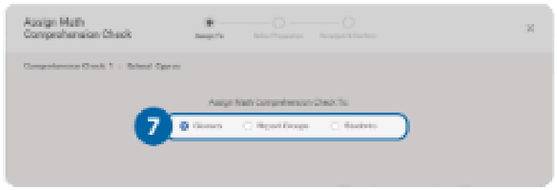

Assigning an Existing Comprehension Check

Follow Steps 1–3 under ***Accessing Comprehension Check Creation and Assignment Features.***

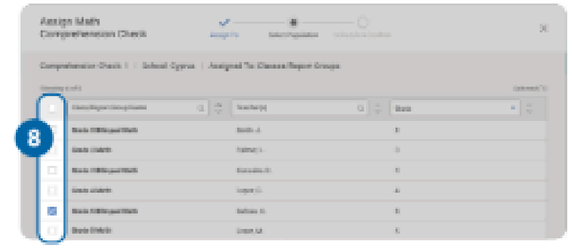

4. Indicate whether you would like to ***Include other educators' checks*** in the Create Assignments table. If you do not check this box, you will only see precreated Comprehension Checks offered by default in the system and custom Comprehension Checks that you have created.
5. Use the **checkboxes** to select ***Comprehension Check(s)*** you would like to assign (maximum of 10 at one time). If needed, you may also do the following from this screen:
   a. Filter by ***Comprehension Check*** title, ***Standards*** addressed, ***Language***, ***Grade***, and/or ***Lesson***.
   b. Click on the Comprehension Check **title** to view details or preview the assessment.
6. Click **Assign Comprehension Checks**. The corresponding pop-up will appear.

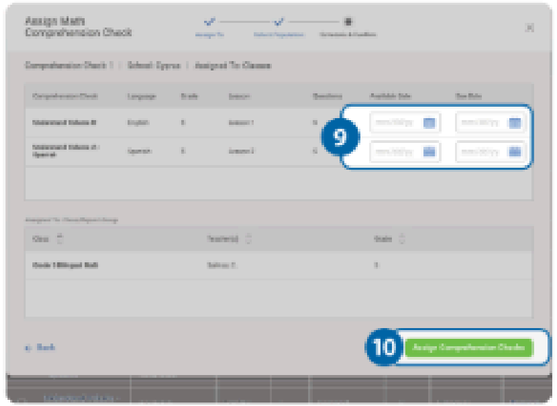

Make sure to click the arrow after each step to move forward!

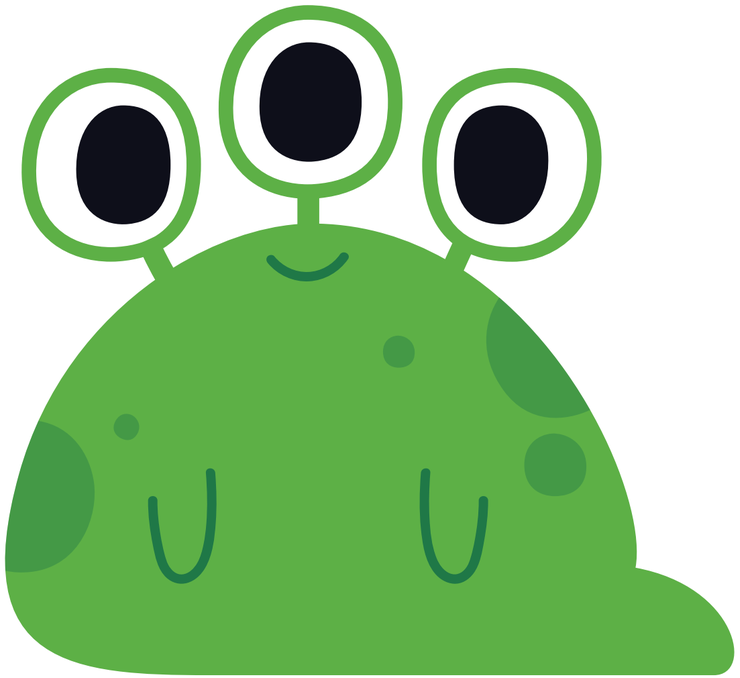

7. Choose **Classes**, **Report Groups**, or **Students**.
8. Use the **checkboxes** to select your ***population***.
9. Enter the **Available Date** for each Comprehension Check to be accessible to students and a **Due Date** for student completion of each Check.
10. Confirm that the information listed on the screen is correct, and click **Assign Comprehension Checks**.

Download Reference Sheets for these reports at Central.i-Ready.com/Assess-Learn-The-Basics.

Creating a Custom Comprehension Check

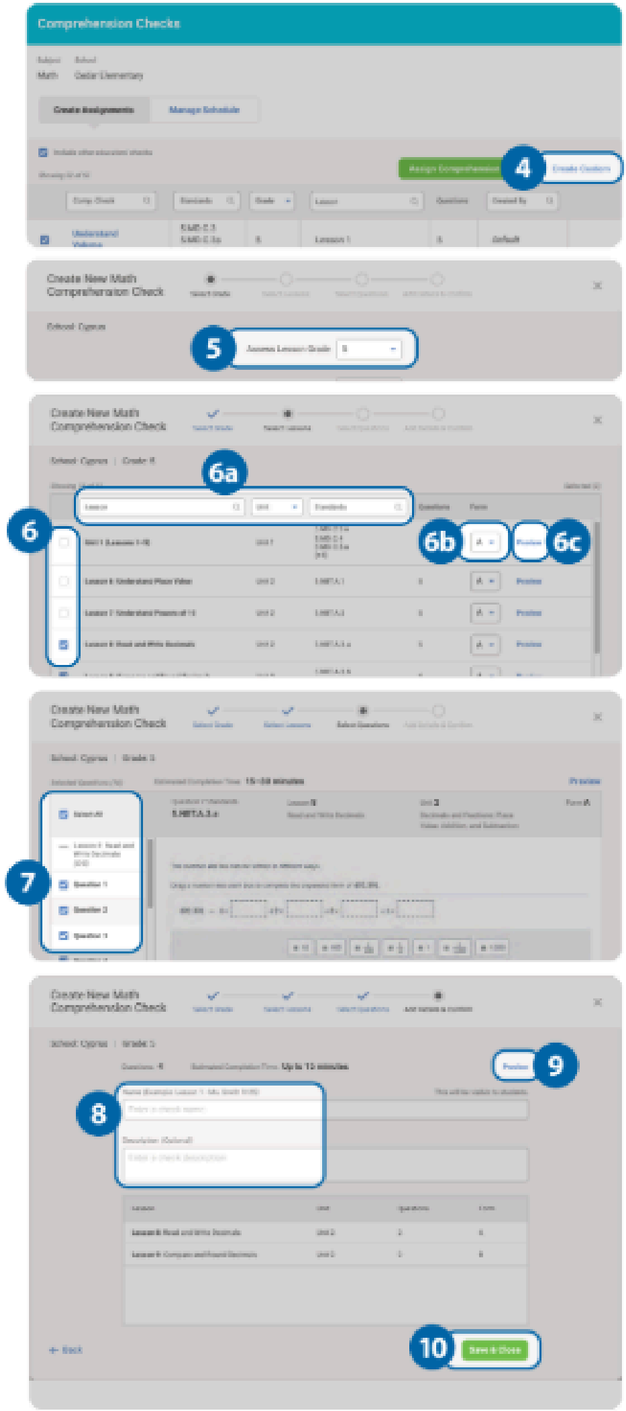

Creating a Custom Comprehension Check

Follow Steps 1–3 under ***Accessing Comprehension Check Creation and Assignment Features***.

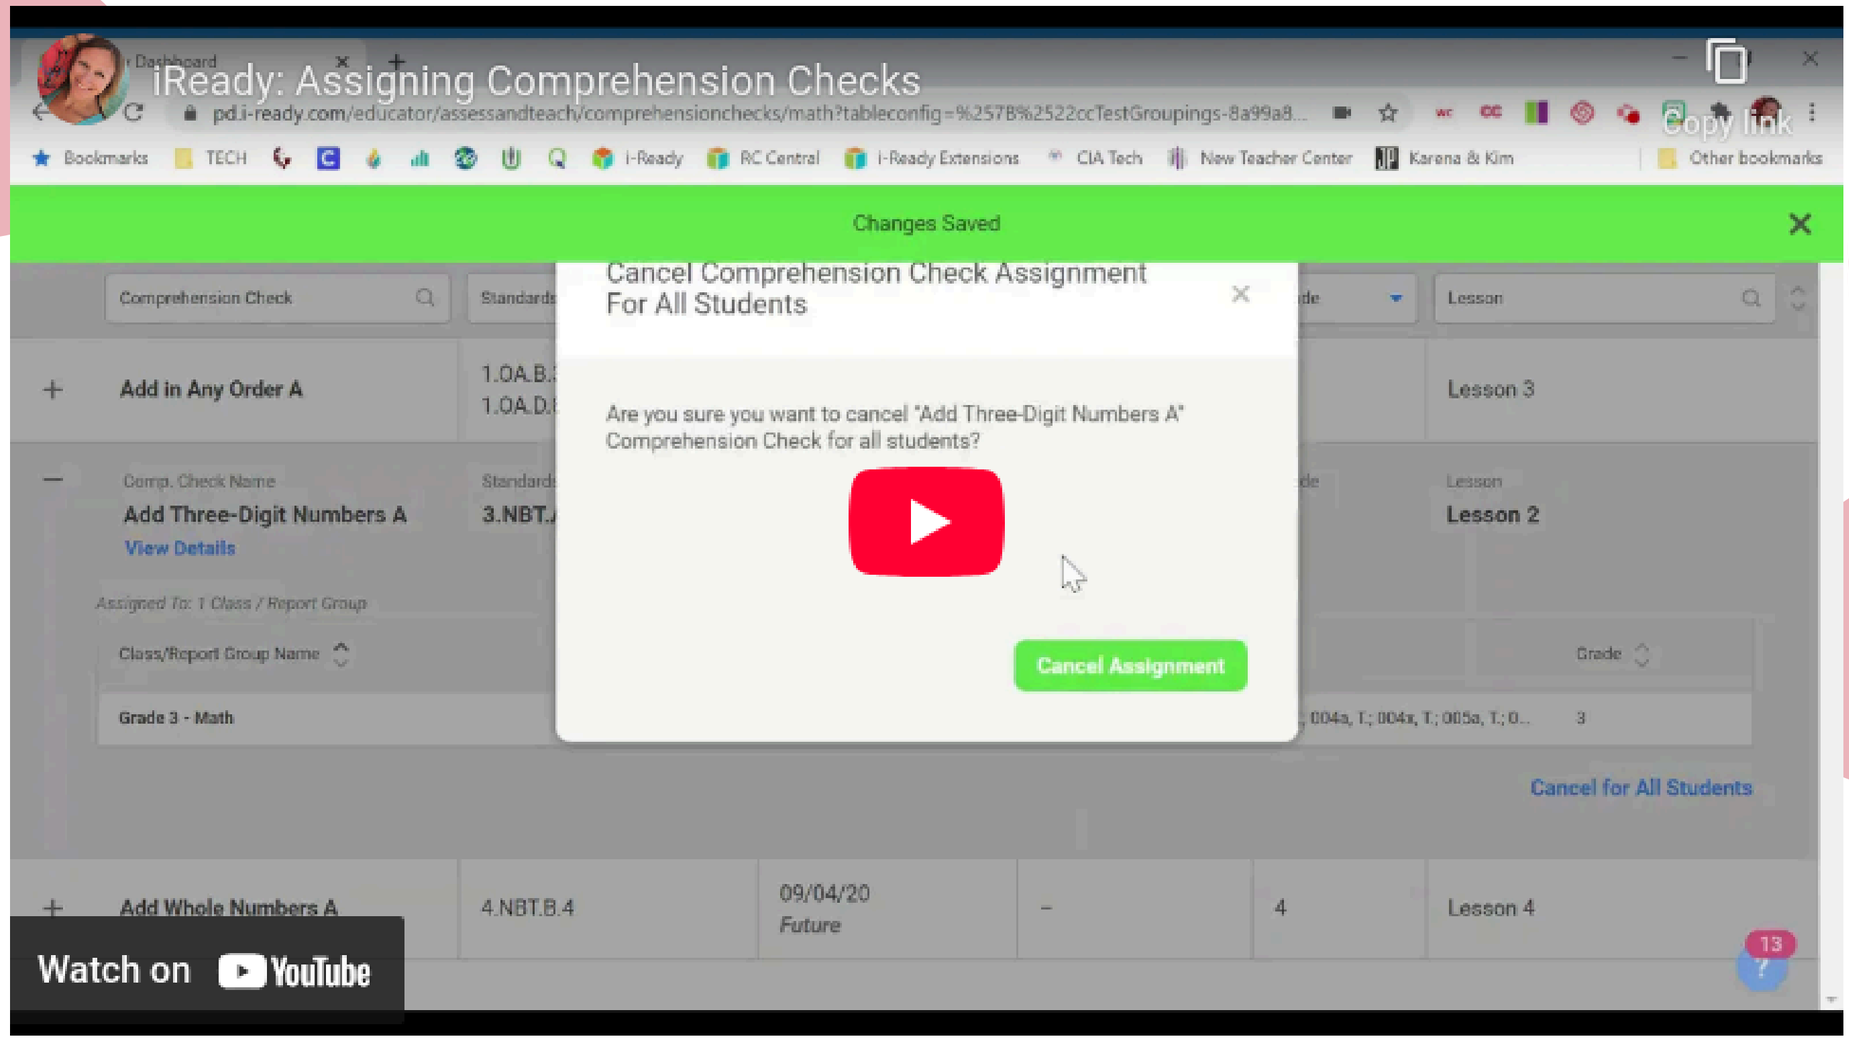

4. Select **Create Custom**.

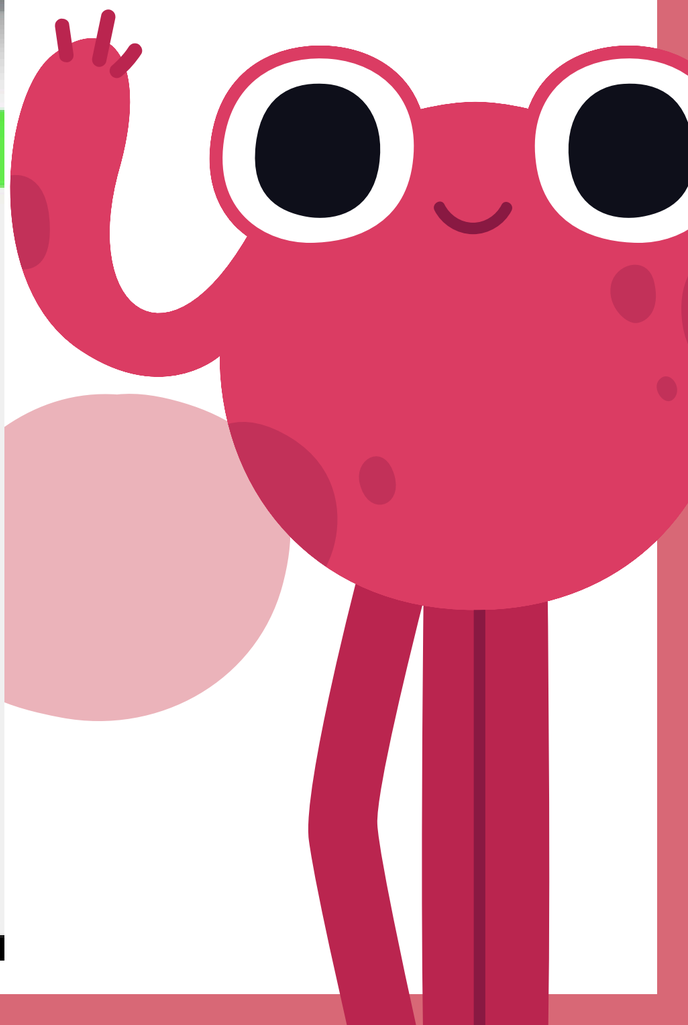

Make sure to click the arrow after each step to move forward!

5. Select the **Lesson Grade** you want to assess from the dropdown.
6. Use the **checkboxes** to select the ***lesson(s)*** to include in your custom Comprehension Check. If needed, you may also do the following from this screen:
   a. Filter by Lesson, Unit, or Standards.
   b. Change the test Form using the dropdown. Form A is the default.
   c. Preview the assessment.
7. All questions are selected by default. If your school is using Spanish Comprehension Checks, you will see options to preview in both English and Spanish. Use the **checkboxes** to deselect questions to remove from the Comprehension Check. You can also preview and interact with each question by clicking on the **Question number**.
8. Enter the **Check Name** and **Test Description**. Be sure to use a name you will remember and recognize on the ***Create Assignments*** table when you need to assign this Check.
9. Click **Preview** to preview the full Comprehension Check you have created.
10. Review your selections and click **Save & Close** to save this Check and assign it to students at a later time. If your school is using Spanish Comprehension Checks, you will be able to save your customized assessment in English, Spanish, or in both languages. Each assessment will then be able to be assigned independently.

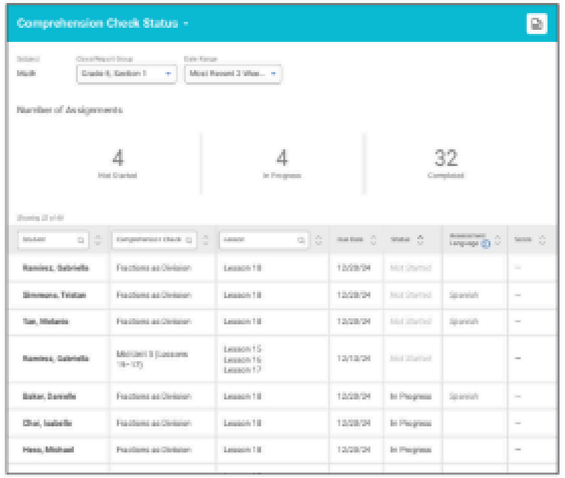

Assigning Comprehension Checks

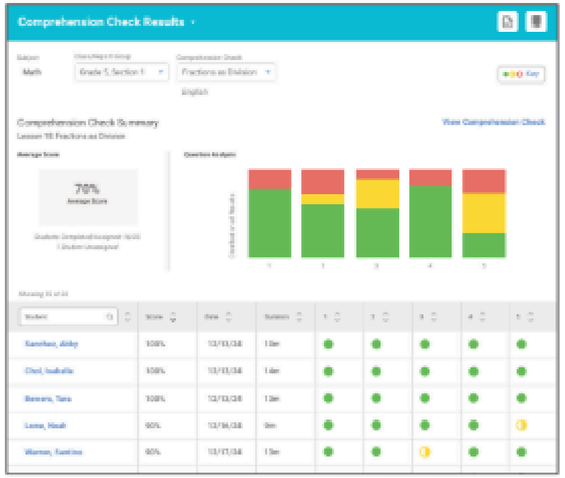

3 Types of Comprehension Check Reports

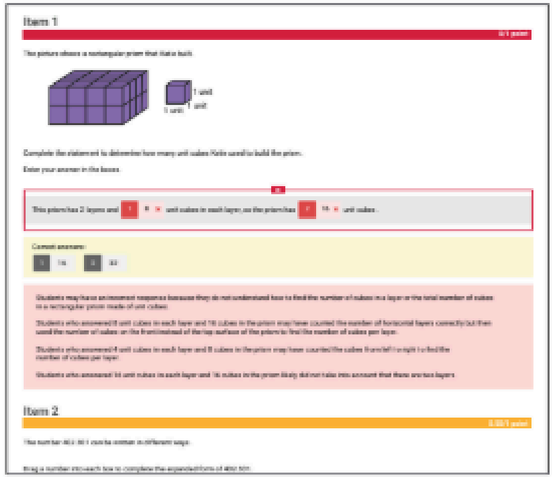

Comprehension Check reports help you monitor student completion of assigned Comprehension Checks and understanding of concepts and skills covered in a lesson or unit. Use the response analysis, by class and by student, and thoughtful guidance on common misconceptions and errors to inform next steps for instruction and remediation, including grouping students for reteaching and targeted instruction.
