# GIVING THE K-1 I-READY DIAGNOSTIC

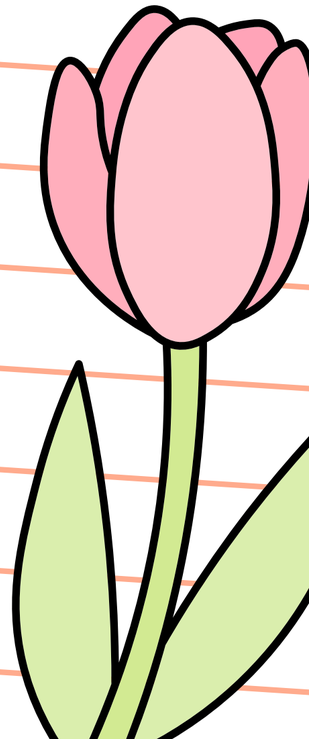

Professional Development

# DIRECTIONS

Spend one hour exploring the slides and resources.

Complete the Google Form.

Submit a claim form for one hour.

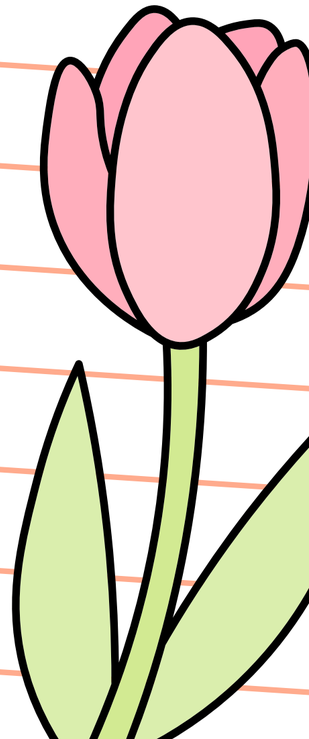

The i-Ready diagnostic is available for both Math and Reading. It is administered 3 times a year. It is adaptive, meaning that students will get harder or easier questions, depending on how well they are doing. The goal for an i-Ready diagnostic is that all students get half of the questions right and half of the questions wrong. They will then be placed in a grade level overall, and also a grade level placement for each domain in that subject.

# EXPERIENCE THE DIAGNOSTIC

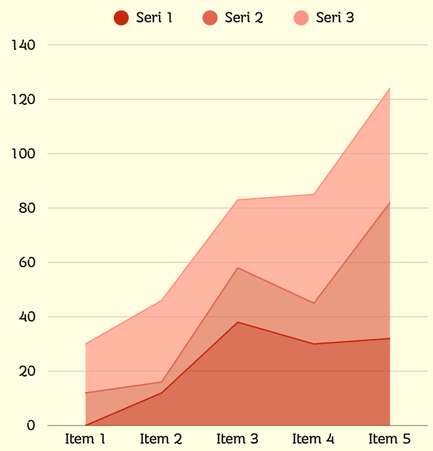

Click HERE to try out the diagnostic assessment on i-Ready as a student. The test is adaptive, so it will change as the students answer questions right or wrong. Experience that, and get a feel for the types of questions kids will encounter.

# INTRODUCTION TO I-READY

It is important to introduce the students to the i-Ready assessment so they are prepared and know what to expect. We have made slides to walk students through the process of taking the first diagnostic. Click HERE to see the kindergarten and first grade slides.

# ADAPTABLE TESTS

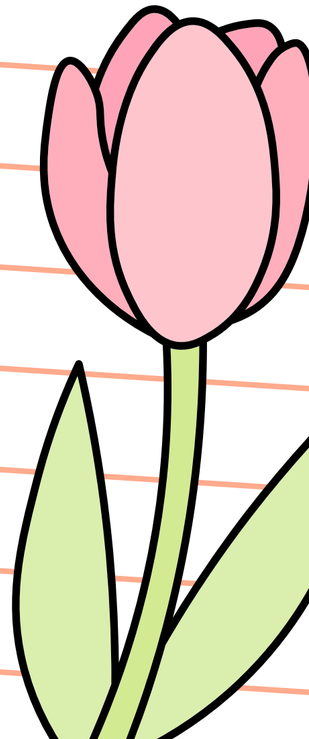

Click HERE to learn more about what it means to be an adaptable test, and how i-Ready determines the student levels using this testing. Every test is unique, although you will notice similar types of questions across grade levels.

# GET GOOD DATA

We want our testing to be VALID and RELIABLE. In order for that to happen, we need a great testing environment - quiet, focused, and motivated learners. We also need proctors to be actively monitoring students. Click HERE for tips and tools to get good data. Click HERE for proctoring guidance.

# CHECK DIAGNOSTIC STATUS

During the test, teachers can check on the class status. This is very helpful! You can see what percentage of the test students have completed, and this will give you an idea of how far along students are. Click HERE for a cheat sheet on accessing the diagnostic status report.

# YOUR TASK

- Make sure you can log into i-Ready. Navigate to where you would find the Class Diagnostic Status.
- Explore the presentations for students. Make a copy and tweak it to fit your needs if you want to make changes.
- Revisit the tips and tools for getting good data HERE. Find a tool or idea that will motivate your students before or during the test.
