

The Resource Centers' (RC) mission is to help students thrive academically, socially, and emotionally by supporting students and families through strategic partnerships. Based on community feedback, each RC works with partner organizations to provide a variety of services and programs, including after-school activities, groceries, ESL classes, laundry, and mental health services. RC-South opened in January 2024 in the Lincoln/Madison feeder pattern area. RC-West opened in January 2025 in the Pinkston feeder area. In 2024-25, the RCs employed eight full-time employees across two locations, with a total budget of \$1,085,585, including personnel costs.
