

**INTENT-AO1-AO4** To be introduced to a variety of learning experiences, which encourage the development of skills through the use of appropriate media, processes, techniques and technologies relevant to their chosen title(s) and related area(s) of study.  
To show knowledge, understanding and skills in the development of their personal work informed by first-hand experiences and appropriate secondary sources.  
To develop their ideas through investigations informed by selecting and critically analysing sources.

**The bigger picture:**  
Links of this Sol to other departments and the broader school ethos.

**Bilton School Planning for Progress over Time  
Programme of Study**

**AO1:** Develop ideas through investigations, demonstrating critical understanding of sources. **AO2:** Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes. **AO3:** Record ideas, observations and insights relevant to intentions as work progresses. **AO4:** Present a personal and meaningful response that realises intentions and demonstrates understanding of visual language.

Students are actively encouraged to make creative decisions, aware that they are in a supportive environment. Students are encouraged to express their opinions on art and design, critiquing work by artists as well as their peers, whilst respecting the opinions of people around them.</p> <p>Mutual Respect - Students regularly discuss the work of their peers as well as other artists in lessons. They are taught how to talk about other students' work, demonstrating kindness and empathy, in order to build a 'safe' and open environment, founded on mutual respect. They are taught how to provide each other with constructive criticism to help each other to make progress, without negative judgement.</p> <p>Democracy - In the art room, students are taught to respect each other's rights to have a say.</p>	<p><b>AO1 – AO3 /AO2</b> Links with Diversity, Society</p> <p><b>AQA – project, based on an idea, concept, theme or issue. 	<p>Rule of Law - Students are taught to respect each other and the workspace they are in. We instill a sense of responsibility and cost, communicating to students that the materials and equipment needs to be respectfully used and returned at the end of each lesson, without damage. Students are taught that the creative arts can be an amazing career to give them a sense of identity and that it helps them to respect other people in the world, no matter what their background.</p>

**IMPACT:**  
 Students will be able to measure progress using tracking sheets in sketchbooks. As all assessments will use generic criteria, will be moderated through dept meetings it will be possible to measure progress over time within and across year groups.

**End Point:** By the end of year 13 Students will have conducted a practical investigation, into an idea, issue, concept or theme, supported by written material. The focus of the investigation must be identified independently by the student and must lead to a finished outcome or a series of related finished outcomes. The investigation should be a coherent, in-depth study that demonstrates the student's ability to construct and develop a sustained line of reasoning from an initial starting point to a final realisation. The investigation must show clear development from initial intentions to the final outcome or outcomes. It must include evidence of the student's ability to research and develop ideas and relate their work in meaningful ways to relevant critical/contextual materials. The investigation must be informed by an aspect of contemporary or past practice of artists, photographers, designers or craftspeople. The written material must confirm understanding of creative decisions, providing evidence of all four assessment objectives by: • clarifying the focus of the investigation • demonstrating critical understanding of contextual and other sources • substantiating decisions leading to the development and refinement of ideas • recording ideas, observations and insights relevant to intentions by reflecting critically on practical work • making meaningful connections between, visual, written and other elements. The written material must: • be a coherent and logically structured extended response of between 1000 and 3000 words of continuous prose. • include specialist vocabulary appropriate to the subject matter • include a bibliography that identifies contextual references from sources such as: books, journals, websites, through studies of others' work made during a residency, or on a site, museum or gallery visit • be legible with accurate use of spelling, punctuation and grammar so that meaning is clear. Students will have and be able to show a clear understanding of

**AO1:** Develop ideas through investigations, demonstrating critical understanding of sources. **AO2:** Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes. **AO3:** Record ideas, observations and insights relevant to intentions as work progresses. **AO4:** Present a personal and meaningful response that realises intentions and demonstrates understanding of visual language.
