How do I get an instrument for my child?

There are several options to choose from! Some families choose to rent or buy their own instrument at the heavily discounted rate from our vendor below. The instrument brands that are carried by the vendor below have been approved by our staff as carrying quality instruments to ensure the success of your student. Beware of cheap instruments available online and in big box stores that look shiny and new, but lack the functionality and quality that is needed.

Please contact the vendor below for more information about rental or fill out the district instrument request form below.
