

Community School Staff Directory 2025-2026

This school year, the MNPS Office of Family and Community Partnerships has aligned three teams together to implement community school strategies: MNPS' own Community Achieves initiative, as well as support from Family & Children's Service and Communities in Schools.

Together, under the umbrella of Community Achieves all Community School Coordinators will focus on academics, health, social services and youth development to improve the conditions for learning. The on-site school coordinator brings partners together to offer a range of support and opportunities for children, youth, families, and communities.

Our Mission:

To remove barriers to learning by identifying needs, cultivating relationships, and aligning supports to ensure school communities thrive.

The Four Pillars of Community Achieves:

College and Career
Readiness

Family Engagement

Health & Wellness

Social Services and Adult
Development

Community School Leadership Team
