## COLLEGIAL CIRCLE DESCRIPTION

### What was the anticipated goal(s) of this Collegial Circle?

Achieve a deeper understanding of AI tools and how they may be used in education.

### What grade level(s) and or subject area(s) will benefit from this Circle?

6-12

### What level of Guskey's Professional Development Evaluation did you select for this Circle?

We were looking for level 2, and achieved it. This may lead to some level 3 changes through future PD.

## FINAL REFLECTIONS

### Was the goal of your Collegial Circle met? Please explain.

Yes. We definitely all came away with a better understanding of AI and its potential applications in the classroom. In addition, our work, along with survey results, will drive future PD offerings in AI applications.

### How did the members of this Collegial Circle assess whether the outcome was met? What evidence was utilized to assess your progress?

Our discussions were evidence that our understanding has grown.

### How did your work impact teaching and learning? [Include student work samples, lesson plans, peer reviews, etc.]

Brian integrated its use into a lesson with Seniors that was both effective and led to discussion of the ethics and ethical use of AI in academic settings.

### Did your work align with the Level of Evaluation you identified in your proposal? Please explain.

It did. We all increased our understanding and most had opportunities to try AI in different ways in planning our own teaching.

### Please include any additional comments you would like to share with the Collegial Circle Committee. This may include unanticipated outcomes, next steps, new learning, etc.

Creating and distributing a survey to faculty was not in the original plan, but emerged quickly and has given interesting feedback on faculty comfort, experience and interest in learning more about AI. This will definitely inform future plans.
