Honors English 2
Golden West High School | Mrs. Coelho | E-4

Description

English 2 Honors is an advanced reading, writing, and discussion course.

The purpose of this course is to expand the students' critical thinking, reading, and analytical writing skills to improve their command of the English language, both written and spoken, and to incorporate Common Core objectives into all of these areas. This is a challenging course that requires a serious time commitment and will be centered on the discussion and exploration of literary and expository texts. Students will study short stories, novels, non-fiction texts, news articles and current events. They will be expected to demonstrate their understanding of complex texts within the broader context of the world through both writing and discussion. Students will work through the stages of the writing process, practice effective speaking skills, and study various genres of world literature including short stories, novels, and plays along with a focus on argument/persuasive writing.
