

How to Avoid Contact with Bird Flu

Bird flu mostly affects wild birds.
It has also infected poultry and a variety of animals.

Stay away from wild birds and wildlife and don't touch, hand feed, or handle them.

Cook all foods made with poultry, meat, and eggs thoroughly.

Drink milk and eat milk products that are pasteurized.

Contact your veterinarian if you think your pet is sick.

Keep your pets away from sick or dead birds and other wildlife.

Wash hands with soap and water after touching animals or being around them.

Scan to report a sick or dead bird:
