

No Fear

Just Results

Test with **PRIDE**

Live with **CONFIDENCE**

Take charge of your well-being.
It's okay to ask for an STI test.
You deserve to know.

Plan

Look for local clinics, health centers, or health care providers that offer STI testing services. Some offer **FREE** testing!

You can also explore online platforms that provide at-home STI/HIV testing kits.

Start the conversation with your health care provider today.

Get tested

The testing process may involve:

- Blood tests
- Urine samples
- Swabs of genital, oral, or rectal areas
- Physical examination

Getting tested for STIs is one of the most important things you can do to protect your health.

Know your status

If your test results are positive for an STI, follow up with your health care provider for further evaluation, treatment, and counseling. It's essential to follow the recommended treatment plan and stop the spread.

Protect yourself and your partner.
