Wilson Central School District:

Each student will have the educational opportunity to reach his or her maximum potential by challenging all students to higher levels of achievement. We will provide the environment, encouragement, and instruction to meet this goal while developing the whole child physically, socially, emotionally, and culturally

Wilson Central School District
Timothy P. Carter – Superintendent

From the Desk of Tim Carter:

Dear Wilson CSD Families and Staff,

As we journey through this academic year, let us reflect on the words: *"There's nothing more powerful than a humble person with a warrior spirit who is driven by a bigger purpose."* In our daily endeavors—whether in the classroom, on the field, or in our personal growth—humility paired with determination can unlock our greatest potential.

A humble person recognizes that learning never ends and that true strength lies not in self-promotion but in perseverance and grace. When we combine this humility with a warrior's spirit, we are equipped to face challenges head-on, never backing down from obstacles, yet always mindful of the greater purpose that drives us—whether it's personal excellence, making a difference in our community, or striving to create a better world.

Let us continue to support one another, stay grounded in our values, and push forward with courage, always inspired by the bigger purpose that calls each of us to be our best.

Have a wonderful long weekend and enjoy the time with your family!

Timothy P. Carter

Thought of the Week

Updates

From New York State Education Department- Parents or guardians please let this serve as a reminder that you should not share personal or financial information over the phone with unsolicited callers. If you receive such a call, hang up immediately. We are sending this reminder because parents and/or guardians of children who have recently taken an SAT or PSAT exam have been receiving scam calls requesting personal information, including a credit card number, to mail the test results. Additional tips about how to protect yourself from SAT test-related scams can be found on the Better Business Bureau website and below:

- **Always be wary of unsolicited callers:** If you receive a random call from someone asking for payment, research their organization before sharing any personal information.
- **Double check with your child:** If someone claims they're calling because of a service your child requested, hang up and check with your child first.
- **Understand the College Board's practices:** The College Board will never ask you for your bank or credit card information over the phone or through email.

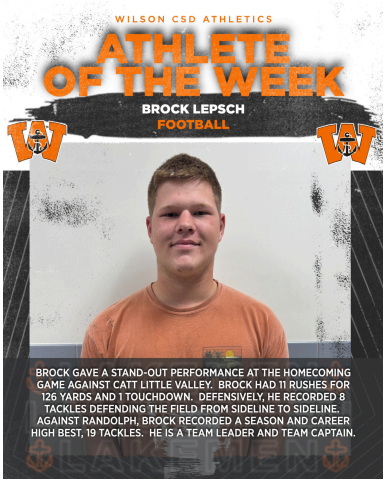

- **Don't give your financial information to strangers:** Never agree to pay a stranger with any form of payment for a purchase you didn't initiate.
