Wilson Central School District:

Each student will have the educational opportunity to reach his or her maximum potential by challenging all students to higher levels of achievement. We will provide the environment, encouragement, and instruction to meet this goal while developing the whole child physically, socially, emotionally, and culturally

Timothy P. Carter – Superintendent

From the Desk of Tim Carter:

Dear Wilson CSD Families and Staff,

.As we navigate the remainder of the academic year and continue shaping the path forward, I would like to take a moment to reflect on the principles that unite and strengthen our school community.

First and foremost, let us choose to **trust in the positive intentions of others**. When we approach one another with respect and assume goodwill, we cultivate an environment of mutual understanding, compassion, and collaboration.

Let us also remain **solutions-oriented**. Rather than focusing solely on obstacles, we are called to seek constructive pathways forward. Challenges, when met with creativity and perseverance, become powerful opportunities for growth and progress.

In our collective efforts, may we **expect a "yes" rather than assume a "no."** This mindset of optimism and openness invites innovation, encourages engagement, and empowers every member of our community to contribute meaningfully.

Above all, let us continue to hold the belief that **the best is yet to come**. With dedication, shared purpose, and a steadfast commitment to excellence, there is no limit to what we can achieve together.

Thank you for your continued partnership and unwavering support.

Have a wonderful weekend, and enjoy the time with your family!
