

MEAL PROGRAM: ALLERGY GUIDELINES

Granada Hills Charter (GHC) provides allergen free meals to all students with a disability or medical condition that limits a major life activity such as breathing or learning; or to students with severe or life-threatening food allergies.

For families needing accommodations, the *CNP-925 California Department of Education (CDE) Medical Statement to Request Special Meals and/or Accommodations Form* identifies the information required to implement a sound nutrition plan for children with food-related disabilities. The form is available here: [CNP-925 Medical Statement.pdf](#)

This form can be completed by a doctor and emailed to the Granada Hills Charter Food Services Manager.
