MEDICATION ADMINISTRATION

Dear Parents/Guardians:

Indiana State Law requires that schools observe certain regulations when administering medication to students. The following procedures must be followed:

1. Over-the-counter medication requires written permission from the parent or guardian stating the name of medication, amount of medication, the hours for administration, and the period of time medication is to be continued. It must be sent in the original container labeled with the student's name. Permission note must contain parent's/legal guardian's signature.
2. Prescription medications must be in the original container. The label will meet the requirement for physician's written order; however, the parent must either complete and sign the Student Medication Permission Slip or send in a permission note with parent's/legal guardian's signature.
3. The parent/guardian shall accept the legal responsibility for the safe arrival of his/her child's medication to and from the child's school.
4. Mater Dei High School may send home medication that is possessed by the school for administration during school hours with a student if the student's parent provides written permission for the student to transport the medication home.
