

September 23, 2025

Dear Germantown Middle School Families,

We are excited to share the launch of our first ever **Germantown Middle School Capital Campaign!** This campaign is focused on a project that will directly impact each of our students' daily school experience: installing **shade structures in each of our school courtyards!**

All three of our courtyards are lively gathering spaces utilized by both students and staff throughout each day to socialize, eat, and study, to name a few. Adding shade structures to these courtyards will not only make these spaces more comfortable and usable throughout the year, but will also improve safety, wellness, and overall school spirit for all our students.

In addition, the Madison County School District has taken note of our need for more space in our school and are making significant investments in our school over the coming year and a half. These investments will allow for continued growth and learning spaces for both academics and athletics for Mav Nation.

How Can you Help?

To make this vision a reality, our **Capital Campaign goal is \$100,000**. For perspective, if EVERY Germantown Middle School student raised **\$100**, we would exceed our goal!

Here's how you can support your student and our school community:

- **IF EVERY Germantown Middle School student could raise \$100, we would meet our goal**
- Consider making a family contribution or match for every dollar your student raises

Our progress will be posted online and through a goal board throughout the campaign, and we look forward to celebrating our success as a community once the shade structures are in place.

Thank you for your partnership in making Germantown Middle School the very best it can be for our students. With your support, our efforts right now through this campaign will make a lasting impact on our school for years to come.

With gratitude,
Natalie Vandevender & Mandy Woodward
2025-2026 Co-Presidents
Germantown Middle School PTO
