

Putnam Public Library Library Program Policy

Purpose

The Putnam Public Library, in keeping with its mission of providing free access to a diversity of ideas, information and experiences with the goal of promoting the love of reading, the joy of lifelong learning and engagement with the arts, sciences and humanities, develops and presents programs that provide information, learning and entertainment. Programming is an integral component of Library services that promotes and complements the library's other services and collections. It supports the library's role as the center of the community. Programs are provided for the interest, information and enlightenment of all residents and aim to represent a wide range of varied and diverging viewpoints and will provide access to content that is relevant to the research, independent interests and educational needs of residents. The library recognizes the importance of displays and programs as resources for voluntary inquiry and the dissemination of information and ideas and to promote free expression and free access to ideas by residents. This policy provides guidelines for the development, management, and oversight of programs presented by the library.

All library materials, displays and programs are evaluated and made accessible in accordance with the protections against discrimination set forth in section 46a-64 of the Connecticut General Statutes.

Definition of a Program

A Library program is a free event, virtual or in-person, planned by the library staff for the benefit of those members of the public who opt to attend. It may involve outside presenters, facilitators or performers and may be presented in cooperation with other entities. Note: Use of a public meeting room by an organization or individual to hold a public event is not a Library program.

Roles and Responsibilities

The Library Board delegates development, presentation and oversight of programs to the Library Director and staff. The Adult Services Librarian and the Children's Librarian are accountable for planning, scheduling and implementation of programs. Designated Library staff are responsible for the development, coordination and supervision of Library programs. The final responsibility for the library program is held by the Library Director, but day-to-day responsibility is shared by library employees throughout the library that are professionally trained to curate and develop programs. Attendees are responsible for complying with the Library's Behavior Policy.

Program Selection

The Library strives to present programs that are educational, informational, cultural or recreational and avoids programs that do not meet these standards. Topics, content and timing of Library programs are developed with consideration of available resources and keeping community needs and interests in mind. Program selection is based upon the suitability of topic, format and intended audience. A program will not be excluded because its topic may be regarded by some as controversial. Library sponsorship of a program does not constitute or imply an endorsement of the content or of the presenter of the program. The library

provides programs created or curated by librarians or staff members of the public library as well as allowing displays and programs created by members of the public or community groups and exhibited in the public library.

a. Library programs must have an educational, informational, cultural or recreational value to the community. Programs of a purely commercial nature or those designed for the solicitation of business will not be offered by the Library.

b. Programs that support or oppose any political candidate or ballot measure will not be approved or offered by the Library. However, educational programs, such as candidate forums that include invitations to all recognized candidates, may be offered.

c. Programs that support or oppose a specific religion will not be approved or offered. Programs are planned to be inclusive of all cultures and of all religions and no religion. Library programs may address religious themes to educate or inform, but not to promote, observe or proselytize a particular religious conviction. Holiday programs may be offered for the entertainment of Library patrons.

d. The library provides programs created or curated by librarians or staff members of the public library as well as providing space in the public library for programs created by members of the public or community groups. Hosting of a program in the library does not constitute an endorsement by the Putnam Public Library or the Town of Putnam of the content of the program, or of the views expressed in the program.

e. No library material, display or program shall be removed, or programs be cancelled, because of origin, background or viewpoints expressed in such material, display or program or because of the origin, background or viewpoints of the creator of such material, display or program.

Program Development, Coordination and Supervision

Library programs may originate from library staff, partnering institutions or members of public. In the event of a co-sponsored program, supervision of the program may be delegated to the co-sponsoring organization depending upon the timing and venue of the program. All programs sponsored or co-sponsored by the library, however, must abide by this policy regardless of where they are hosted.

Program Access

Library programs are free and open to the public on a first-come first-serve basis. Registration may be in advance or at the door. For programs targeted to a specific audience, e.g. children or teens, and promoted as such, preferential admission may be offered to those groups on a first-come first-serve basis, limited to those individuals as the Library deems appropriate. Any individual requiring accommodation to participate in a Library program should contact the Library two weeks prior to the program.

Virtual Programs

Some library programs may be offered using a library-approved virtual meeting platform that registered patrons may use to access the virtual program from their own internet-enabled devices. This may include programs that are simultaneously run at the physical library as well as programs that are offered only virtually. While hosting the virtual program, library staff, partnering organizations and program facilitators will follow

industry standard best practices for virtual events. Some virtual events may be pre-recorded and broadcast via the internet or recorded as presented for later viewing. In the event that an interactive program is being recorded, attendees will be informed of that fact at the start of the program.

Live virtual programs require advance registration. Registered participants will receive via email a link to log on to the program and must not share that link with others. Information collected during the registration process will be used only to communicate information about that program or to confirm eligibility to participate in that program.

Patrons attending virtual programs are expected to adhere to the Library Use Policy and failure to do so may result in their immediate removal from said program. The library will make all reasonable efforts to ensure the digital security of virtual events, however attendees must understand that all online activity carries some degree of risk.

Patrons are required to provide their own equipment and internet connection to attend virtual programs. The library will make a good faith effort to utilize platforms that will be compatible with the widest array of hardware and software, but makes no guarantee that every patron will be capable of accessing every library program successfully. Nor can the library guarantee the quality of the audio, video or internet connection of program presenters or attendees.

Program Materials

Books, CDs, DVDs or other ancillary materials related to the content of a program may be offered for sale at a Library program as a convenience to attendees.

Program Evaluation

To provide the highest quality and most useful programming, Library staff will gather information about program results to guide future programming decisions. Outputs, such as the number of attendees at a program, will be gathered for all or almost all programs. Outcomes, such as how well the content of a program helped attendees learn about the program's topic, may be gathered at times when such data is required for grant reporting or would be helpful in evaluating a new program topic or format.

Procedures for the Reconsideration of Library Programs by Patrons

The Library limits consideration of requests to reconsider material, displays or programs to individual residents of Putnam. Please see the Library Material Review and Reconsideration Policy and Form on our website for further information on this process.

Adopted by the PPL Board of Trustees on September 22, 2025
