

Cooper Elementary 1:1 Student Program

We are a 1:1 campus offering either an iPad or Chromebook to each student for school use only. This privilege and opportunity comes with responsibility for the parent, student and teacher to maintain an environment that promotes ethical and responsible conduct with electronic resources and activities.

1. Devices will be assigned to students for use during the school day and remain the property of Garland ISD.
2. All users are accountable to the school, district, local, state and federal laws.
3. All use of the Garland ISD technology network must support education.
4. All files stored on Garland ISD equipment, the Garland ISD network, Google Drive, and/or district managed cloud storage are the property of the district and are subject to review and monitoring.
5. Students are expected to keep equipment in good condition. Failure to do so will result in consequences deemed appropriate by campus administration and consistent with the Student Code of Conduct.

Accidents do happen. There is a difference, however, between an accident and negligence. After an investigation by Garland ISD Technology Department and/or Campus Administration, it will be determined if the damage was accidental or a result of neglect.

***Neglect and misuse will result in repair charges and/or loss of equipment.**

Charges and/or consequences are up to the discretion of campus admin, and may vary depending on circumstances of misuse and damages.
