

SPEECH, LANGUAGE, & HEARING SCREENING

This year, **Holland Speech & Consulting** will be conducting Speech and Language Screenings the week of **October 17th**. The Speech and Language Screenings are available to all children ages two and up. The optional speech and language screening is purposed to identify children who need further evaluation in the areas of speech and language and provides information regarding your child's articulation, expressive language, receptive language, and social language.

Please return the permission form below and payment to your child's teacher by **Wednesday, October 8th**. Results will be EMAILED to the parent email listed within 7 days of the scheduled screenings.

Speech and Language services are available through Holland Speech & Consulting at one of our clinic locations.

SCREENING CONSENT:

I agree for my child to be screened by Holland Speech & Consulting.

☐ Speech and Language Screening \$40 (ages 2-7)

☐ Hearing Screening \$35 (ages 3+)

Please make checks payable to Holland Speech & Consulting.

HOLLAND
SPEECH & CONSULTING

SIGNS OF A LANGUAGE DISORDER:

- *Does not smile or interact with others (birth and older)*
- *Does not babble (4-7 months)*
- *Makes only a few sounds or gestures, like pointing (7-12 months)*
- *Does not understand what others say (7 months-2 years)*
- *Says only a few words (12-18 months)*
- *Words are not easily understood (18 months-2 years)*
- *Does not put words together to make sentences (1.5-3 years)*
- *Has trouble playing and talking with other children (2-3 years)*
- *Has trouble with early reading and writing skills (2.5-3 years)*

SIGNS OF STUTTERING:

- *Struggles to say sounds or words (2.5-3 years)*
- *Repeats first sounds of words—"b-b-b-ball" for "ball" (2.5-3 years)*
- *Pauses a lot while talking (2.5-3 years)*
- *Stretches sounds out—"f-f-f-f-farm" for "farm" (2.5-3 years)*

ARTICULATION MILESTONES:

2-3 years old	p, d, m, n, h, t, k, g, w, ng, f, y
4 years old	l, j, ch, s, v, sh, z
5 years old	r, zh, th (voiced)
6 years old	th (voiceless)

SIGNS OF A SOCIAL COMMUNICATION DISORDER:

- *No big smiles or other warm, joyful expressions by six months or thereafter*
- *No back-and-forth sharing of sounds, smiles or other facial expressions by nine months*
- *No babbling by 12 months*
- *No back-and-forth gestures such as pointing, showing, reaching or waving by 12 months*
- *No words by 16 months*
- *No meaningful, two-word phrases (not including imitating or repeating) by 24 months*
- *Any loss of speech, babbling or social skills at any age*
