Grade - Weighted Courses

All AP classes and weighted classes receive one extra quality point in grade calculation. According to Boulder Valley School District policy, this weighted grade scale will be implemented and used externally for college admission and internally for determining high school grade point average and eligibility for school academic awards and honors. Additionally, college courses offered through concurrent enrollment may be weighted. All AP courses and many World Language courses are contracted through a 3rd party provider, Florida Virtual Schools.

GPA and Class Rank

BU offers both unweighted (max of 4.0 GPA value) and weighted (max of 5.0 GPA value) courses. All courses in grades 9-12 with a letter grade of A-F are used in computing the student's GPA. The GPA that appears on the transcript is weighted (BVSD policy) and calculated based on the average of the grades from all unweighted and weighted courses. Class rank is not reported per BVSD policy.
