

ELEMENTARY K-2

PUTTING 3-DIMENSIONAL SCIENCE INTO PRACTICE

Participants will prepare for the implementation of **high-quality science instruction** based on the new Science TEKS. You will also have the opportunity to engage in science instructional practices to improve student learning outcomes using **phenomena-based, three-dimensional instruction and activities**.

By attending, you'll **gain tools and insights to effectively implement 3D science instruction, aligned with the newly revised Science TEKS.**

Register at: esc1.net (6 CPE hours)

Fee \$150 per session

Sept. 9	<u>Workshop #380895</u>	Force & Motion
Oct. 29	<u>Workshop #380909</u>	Earth & Space
Dec. 9	<u>Workshop #380910</u>	Organisms & Environments
May 14	<u>Workshop #380917</u>	Matter & its Properties

All sessions will be held in Edinburg from 8:30 AM - 3:30 PM

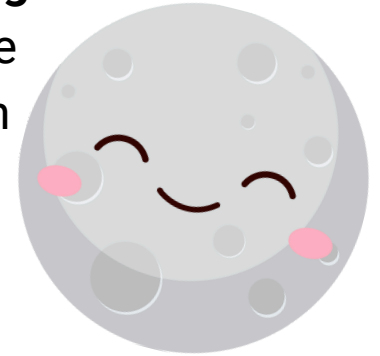

Contact limartinez@esc1.net for more information.

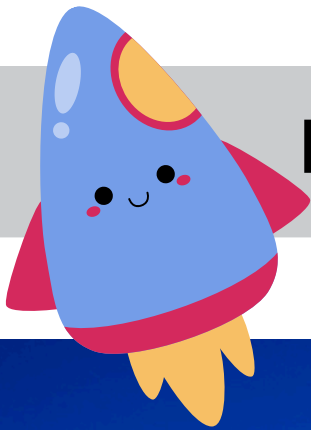

ELEMENTARY 3-5

PUTTING 3-DIMENSIONAL SCIENCE INTO PRACTICE

Participants will prepare for the implementation of **high-quality science instruction** based on the new Science TEKS. You will also have the opportunity to engage in science instructional practices to improve student learning outcomes using **phenomena-based, three-dimensional instruction and activities**.

By attending, you'll **gain tools and insights to effectively implement 3D science instruction, aligned with the newly revised Science TEKS.**

Register at: esc1.net (6 CPE hours)

Fee \$150 per session

Sept. 17	<u>Workshop #380921</u>	Force & Motion
Oct. 1	<u>Workshop #389499</u>	New! REPEAT Force & Motion
Oct. 30	<u>Workshop #380923</u>	Earth & Space
Dec. 2	<u>Workshop #380925</u>	Organisms & Environments
May 20	<u>Workshop #380927</u>	Matter & Energy

All sessions will be held in Edinburg from 8:30 AM - 3:30 PM

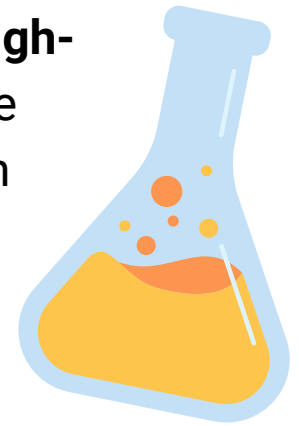

Contact limartinez@esc1.net for more information.

SECONDARY 6-8

PUTTING 3-DIMENSIONAL SCIENCE INTO PRACTICE

Participants will prepare for the implementation of **high-quality science instruction** based on the new Science TEKS. You will also have the opportunity to engage in science instructional practices to improve student learning outcomes using **phenomena-based, three-dimensional instruction and activities**.

By attending, you'll **gain tools and insights to effectively implement 3D science instruction, aligned with the newly revised Science TEKS.**

Register at: esc1.net (6 CPE hours)

Fee \$150 per session

Sept. 3	<u>Workshop #380929</u>	Force & Motion
Nov. 5	<u>Workshop #380930</u>	Earth & Space
Dec. 10	<u>Workshop #380931</u>	Organisms & Environments
May 19	<u>Workshop #381013</u>	Matter & Energy

All sessions will be held in Edinburg from 8:30 AM - 3:30 PM

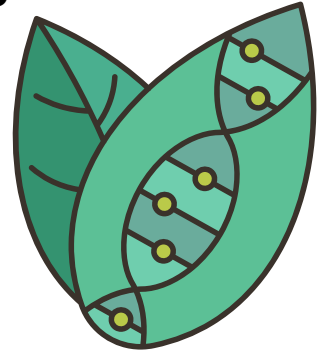

Contact limartinez@esc1.net for more information.

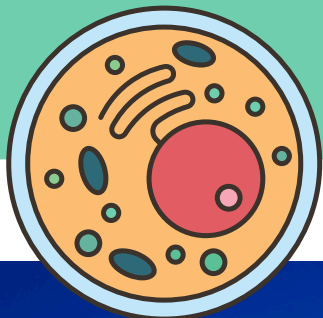

SECONDARY BIOLOGY

PUTTING 3-DIMENSIONAL SCIENCE INTO PRACTICE

Participants will prepare for the implementation of **high-quality science instruction** based on the new Science TEKS. You will also have the opportunity to engage in science instructional practices to improve student learning outcomes using **phenomena-based, three-dimensional instruction and activities**.

By attending, you'll **gain tools and insights to effectively implement 3D science instruction, aligned with the newly revised Science TEKS.**

Register at: esc1.net (6 CPE hours)

Fee \$150 per session

Sept. 11	<u>Workshop #381050</u>	Biomolecules
Oct. 21	<u>Workshop #381054</u>	Genetics
Dec. 4	<u>Workshop #381056</u>	Evolution
Feb. 26	<u>Workshop #381059</u>	Interdependence

All sessions will be held in Edinburg from 8:30 AM - 3:30 PM

Contact limartinez@esc1.net for more information.

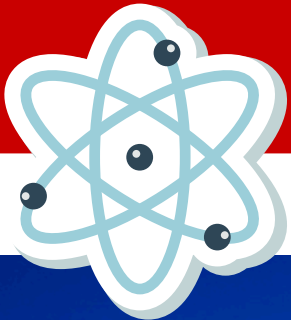

SECONDARY PHYSICAL SCIENCES PUTTING 3-DIMENSIONAL SCIENCE INTO PRACTICE

Participants will prepare for the implementation of **high-quality science instruction** based on the new Science TEKS. You will also have the opportunity to engage in science instructional practices to improve student learning outcomes using **phenomena-based, three-dimensional instruction and activities**.

By attending, you'll **gain tools and insights to effectively** implement 3D science instruction, **aligned with the newly revised Science TEKS**.

Register at: esc1.net (6 CPE hours)

Fee \$150 per session

Oct. 15 Workshop #385081 Chemistry

Oct. 22 Workshop #385082 Physics

These sessions will cover topics from different units throughout the year.

All sessions will be held in Edinburg from 8:30 AM - 3:30 PM

Contact limartinez@esc1.net for more information.

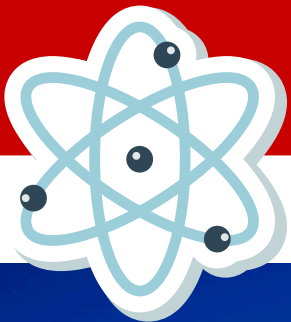

GEAR UP 8TH GRADE

PUTTING 3-DIMENSIONAL SCIENCE INTO PRACTICE

Participants will prepare for the implementation of **high-quality science instruction** based on the new Science TEKS. You will also have the opportunity to engage in science instructional practices to improve student learning outcomes using **phenomena-based, three-dimensional instruction and activities**.

By attending, you'll **gain tools and insights to effectively implement 3D science instruction, aligned with the newly revised Science TEKS.**

Register at: esc1.net (6 CPE hours)

Edinburg Sessions
