## Voter-approved Funds Offer Relief as State & Federal Funds Drop

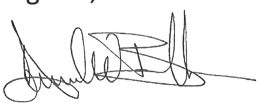

We are looking forward to a new school year. To prepare, Inver Grove Heights Schools (ISD 199) balanced its budget for the 2025-2026 school year while keeping reductions out of the classroom, thanks to our community's support. Budgeting for the upcoming school year was especially challenging because of the Minnesota Legislative Session's delayed conclusion and fluctuations at the federal level. Without your support, class sizes, learning, student opportunities, and all of the school day components that our community values would have been at stake.

The Minnesota Legislative Session determines school district funding every two years. This year, a funding year, we stayed in close contact with our senator and representatives to understand what funding was most likely and least likely to pass in the session. We developed different budget plans based on that information. The state ultimately reduced student support aid and library aid for school districts. At the same time, we were notified that the federal government was cutting Title I funding. We were able to rebalance our 2025-2026 budget by making some one-time adjustments and delaying some scheduled maintenance that could be put off safely.

The fluctuations in federal funding have been our biggest challenge in budgeting for the 2025-2026 school year. At the time of publishing, we are still waiting to receive our annual allocation of federal funds that support student learning, special education, multilingual learners, and teacher professional development. Although we hope to receive our federal funds soon, we are grateful to our voters whose support of the November 2024 Referendum has provided as much stability as possible given the uncertainty in state and federal funding. Local funds have allowed us to adjust with minimal student impacts.

Thank you to Rep. Clardy, Rep. Hanson, and Sen. Klein for their partnership as we developed different budget adjustments for the most likely funding scenarios. Thank you, once again, to our community for its support of our schools, which is essential to setting the school year for success.

Regards,

Dave Bernhardson, Superintendent

## • • ISD 199 Earns Financial Excellence Award for 20th Consecutive Year

For the 20th year in a row, Inver Grove Heights Schools (ISD 199) has earned the Certificate of Excellence in Financial Reporting. The certificate from the Association of School Business Officials International (ASBO) recognizes school districts that have met the program's high standards for financial reporting and transparency.

To qualify for the certificate, ISD 199 had to submit its Annual Comprehensive Financial Report to ASBO. A team of professional auditors conducted a thorough review of the report and provided feedback. ISD 199 earned the Certificate of Excellence (COE) Award by showing that it has used ASBO's feedback from the previous year to increase transparency and the quality of its reporting.

"For over half a century, ASBO International's Certificate of Excellence in Financial Reporting has been the gold standard in promoting and recognizing excellence in financial reporting," ASBO International Executive Director Jim Rowan, CAE, SFO, said. "Communicating the financial and economic state of a district is so important when engaging with the school community and building their trust. Districts that receive the COE Award have demonstrated their ability to do that at the highest level."

ISD 199's streak of earning the COE Award in Financial Reporting demonstrates the district's continuous work to support student achievement with the most effective resource management and improve its accountability.

## FORUMS

Inver Grove Heights Schools residents are invited to attend school board listening sessions. Listening sessions are an informal meeting where members of the ISD 199 School Board hear questions, comments, and concerns from residents. To sign up for a listening session or for more information, visit *www.isd199.org/board*.

## Board Member Elections Moved to Even Years

A vote approved moving school board member elections to even years, so there will not be an Inver Grove Heights Schools (ISD 199) School Board Election this November. Instead, the election will take place in November of 2026. Even-year elections offer relief from many of the financial and logistical strains of running school board elections in odd years.

A switch to even-year elections will make voting for school board members more convenient for voters. They will vote at their typical polling place, instead of the odd-year combined locations. Even-year school board member elections will also align with more local, state, and national elections.

Holding school board member elections in even years will cost less as well, reducing the burden on the school district and its taxpayers. School districts must run odd-year elections and pay for the majority of the cost. However, in even years, the Inver Grove Heights City Clerk and a dedicated staff run the elections at a reduced cost to the school district. The ISD 199 employee who takes on the role of school district election clerk will also have fewer additional responsibilities during even-year school board elections.

The school board discussed switching school board member elections from odd to even years and approved the switch at their March 10 meeting. As a result, the terms of all current board members will be extended by one year: Terms that were set to expire in 2025 will expire in 2026 and terms set to expire in 2027 will expire in 2028.

The switch will not affect future referendum ballot questions, which, by state statute, can be held at different times and in odd or even years depending on the question. ISD 199 is dedicated to keeping its community informed, so it will continue to provide information about its school board candidates, elections, and ballot measures regardless of when elections are held.

## Hilltop Teacher Attends Agricultural Conference

Hilltop Elementary School Kindergarten Teacher Beth Gruenke earned a full scholarship to this year's National Agriculture in the Classroom Conference. The conference was held in Minnesota this year with the theme "Lakes, Land, and Legends." Preschool through high school educators attended the conference to take part in workshops that connect agriculture to core subjects in alignment with national education standards.

Ms. Gruenke is one of only 25 Minnesota educators from a variety of subject areas, grades, and regions who were awarded the scholarship through the Minnesota Agriculture in the Classroom Foundation. She was chosen for her commitment to connecting students with agriculture through everyday learning. Scholarship recipients joined their nationwide peers at the conference to learn how they can increase agricultural literacy and connect their students to real world agricultural content in subjects like science, social studies, language arts, and nutrition.

Great work to Ms. Gruenke on her commitment to connecting her young students to Minnesota and all the state has to offer!

*Inver Grove Heights Schools does not discriminate in employment or in any of its programs and activities, including vocational opportunities, on the basis of race, color, creed, religion, national origin, sex, marital status, status with regard to public assistance, familial status, membership or activity in a commission, disability, sexual orientation, or age. Student-related inquiries about non-discrimination policies should be sent to Abel Riodique at 2990 80th Street East in Inver Grove Heights, RiodiqueA@isd199.org, or 651-306-7828. More information is available at www.isd199.org/nondiscrimination.*

## IGH & Simley Display Student Art at City Hall

After a year of planning, Inver Grove Heights City Hall installed artwork displays to showcase work by Simley High School students. They honored the artists at the City Council's May 27 meeting. Students and their families attended a reception ahead of the meeting. They had an opportunity to talk to city leaders about their artwork, and they signed the podium sign for the meeting.

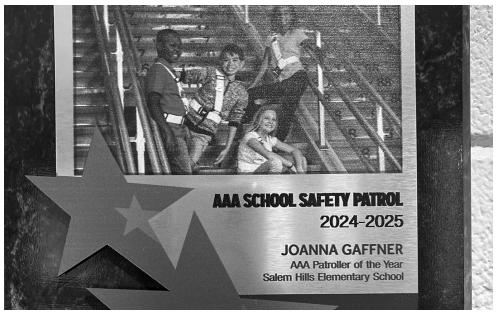

During the meeting, City Council members heard from Simley Art Teachers Pat Gilbertson and Jenny Eversman. They spoke about the students and their work as well as their partnership with the city to hang artwork at City Hall. The display included pieces from the AP Art, Art Lab, and Advanced Drawing classes.

Both current and former students attended the meeting to see their artwork displays. Congratulations to all of the artists whose artwork was chosen for the display:

- Grace Asleson
- Eric Burling
- Hanna Curtis
- Alan Franklin
- Ryien Franklin Sturm
- Braelyne Hernandez
- Payten Krech
- Kensy Lopez Zaldivar
- Brooke O'Brien
- Alyssa Olund
- Hannah Reckinger
- Lilia Reckinger
- Natalia Sanchez
- Willow Scofield
- Cheyanne Smith
- Emily Stickney
- Laura Stickney
- Abbey Terhaar
- Madi Tetreault
- Emma Turbett
- Gaona Vang
- Paige Westra
- Ava Wood

Stop by Inver Grove Heights City Hall to see artwork by Simley students. Thank you to everyone who made the installation possible!

## Patroller of the Year

Salem Hills Elementary School's Joanna Gaffner was selected as a 2024-25 Minnesota AAA Safety Patroller of the Year! This highest honor recognized her commitment to safety, leadership, and citizenship. She received her award at an all-school assembly this spring.

Judges from AAA, Inc. reviewed all nominations and chose student patrols based on examples of their qualifications and their student essay. Joanna and the other Safety Patroller of the Year Award winners were selected because they best exemplify leadership qualities and perform their duties effectively and responsibly, without incident.

Congratulations on earning the AAA Safety Patroller of the Year Award, Joanna!

## Simley Graduates Say Thank You & Farewell During Walkthrough

May 30 was the last day of school for Simley High School's Class of 2025 before their graduation ceremony. In between celebrations, they put on their caps and gowns and walked the hallways of their former schools. The senior walkthrough is a years-long Inver Grove Heights Schools (ISD 199) tradition that gives graduating seniors a chance to thank the teachers, staff, and younger students that helped them reach graduation.

Seniors posed for a photo around the Great Seal in Simley's foyer before walking by the district office, the cafeteria, and through the middle school. The hallways were lined with students and staff ready to high-five and cheer on seniors. The graduates said tearful goodbyes to former teachers, staff, and younger students as they passed.

Seniors then headed to their former elementary schools where the scene was repeated with emotional farewells and hugs as elementary students applauded. At Salem Hills Elementary School, seniors who were former students at the school were paired up with graduating kindergarteners in a symbolic "passing of the torch" from those graduating from the district to those just beginning. The event highlighted the connections that students and staff have developed throughout each senior's time at ISD 199.

The celebrations continued with a special lunch for seniors. The Class of 2025 voted on their favorite cafeteria dishes, and the ones with the most votes were served at lunch on their last day. Then, seniors headed outside for the Senior Olympics. Students played games together, took photos, signed yearbooks, and made memories together one more time before their graduation ceremony.

Scan the QR code to see highlights from the Senior Walkthrough. Congratulations to the Simley Class of 2025, and good luck to them as they take their next step into the future!

## Student-led Middle School Group Advocates for Therapy Dog Visit

After three years of work, Inver Grove Heights Middle School's Students for Change (SFC) group scheduled two therapy dogs to visit with students. SFC is a student-led group of 6th- through 8th-grade students who work together to create positive change in their school.

In 2022, SFC students started advocating for a district therapy animal policy. They researched therapy animals, policies other districts have in place, and recommendations for the Inver Grove Heights Schools (ISD 199) policy. They presented their research to their principal and the district's director of special services, who brought the information to other administrative groups to build and finalize the policy. The policy was presented to the ISD 199 School Board and approved in February of 2025.

Three months later, therapy dogs Jasper, an English Cream Golden Retriever, and Winnie, a Mini Goldendoodle, from North Star Therapy Animals of Pet Partners visited IGHMS. Classes came to the IMC to see the dogs and hear from the handlers who volunteer for North Star. Students learned about each dog, what a therapy dog does, and how they are trained. Students also had an opportunity to ask questions. The dogs earned a lot of smiles from students who came to see them, and teachers commented on the incredible calming effect the dogs had on every class.

Great job to SFC for their hard work and dedication to the therapy animal policy! Each school year over three years, students made sure to keep the conversation about the policy going and pass their work on to the next school year's group. Students learned about the process of getting a school district policy passed and developed their leadership skills, ultimately seeing their vision become a reality.

## ISD 199 Announces the Next Director of Human Resources

Inver Grove Heights Schools (ISD 199) is pleased to announce that Emily Herman has stepped into the role of the district's next Director of Human Resources. Most recently, Ms. Herman was the Executive Director of Administrative Services at Prior Lake-Savage Area Schools. She brings 13 years of experience in school human resources and business services to the position as well as experience in non-profit program coordination and logistics.

During her career, she has developed skills around strategic staffing, policy development, employee engagement, and labor relations.

"I bring a strong record of aligning people systems with district goals and fostering a culture where staff feel supported, valued, and empowered to do their best work," she said. "As a leader, I prioritize building relationships, offering excellent customer service, and maintaining open, transparent communication with staff, leadership, and community stakeholders."

Ms. Herman's hiring comes after current ISD 199 Director of Human Resources Michele Carroll announced her move to another school district. Thank you to Ms. Carroll for her 8 years of outstanding service to ISD 199 staff and the community.

Welcome, Ms. Herman!

## Simley Physics Students Lead Pine Bend Lesson

Simley High School AP Physics students visited Pine Bend Elementary School kindergarteners to teach them some physics concepts. The high school students led experiments for the kindergarteners before explaining the physics behind the outcome.

Experiments included dropping different objects in a tub of water and predicting if they would sink or float, throwing an egg at the center of a blanket held up by the high schoolers and talking about why it didn't break, and trying to get a paper airplane to fly as far as possible. High school students followed up their experiments with lessons, like why objects arc in the air when thrown. Kindergarteners also learned about themselves. They tasted gummy bears with and without their noses plugged and noted the difference, learning that their sense of smell contributes to their sense of taste.

Physics students had a chance to experience teaching while they acted as role models for the kindergarten students and connected with the Pine Bend community. Thank you, physics students, for sharing your learning with Pine Bend kindergarten classes!

## TriDistrict CAPS Students Reflect on Their Immersive Career Experiences

After completing their internships, students in the TriDistrict Center for Advanced Professional Studies (CAPS) program presented at the TriDistrict CAPS Spring Showcase. Students from Simley High School, South St. Paul High School, and Two Rivers High School presented their experiences in class and in the field to the teachers, administrators, family members, local professionals, and post-secondary staff in attendance.

The stduents from each TriDistrict CAPS class – Business and Entrepreneurship, Computer Science and IT, Healthcare, and Transportation and Skilled Trades – held internships at hospitals, marketing firms, animal clinics, hotels, automotive repair shops, and many other local businesses that gave them a first-hand look at daily responsibilities.

While some TriDistrict CAPS experiences reinforced students' career aspirations, other students discovered that certain careers weren't a fit for them. They gained an understanding of what they want for their future, using their experiences in the risk-free TriDistrict CAPS classes to inform their decisions about college and career. Regardless of the industry focus, all students completed the class with professional experience that will give them an advantage as they enter the workforce.

Visit *www.CareerCollegeReady.org* to learn more about the TriDistrict CAPS program. Simley, South St. Paul, and Two Rivers juniors and seniors can also talk to their counselor about enrolling.

Local employers, TriDistrict CAPS is always looking for more business partners to influence and help teach the next generation of employees. Visit *www.CareerCollegeReady.org* or contact TriDistrict CAPS Director Ben Kusch at *BKusch@tridistrictce.org*.

## Simley Announces Next Assistant Principal

Alyssa Gardner, the former assistant principal at St. Louis Park High School, has joined Simley High School as its next assistant principal. Ms. Gardner has more than a decade of experience in education with advanced degrees in Administrative Leadership and Counseling Psychology.

A former school counselor, Ms. Gardner has 12 years of experience as a middle and high school assistant principal. During that time, she has used data-driven strategies to develop and implement educational programs, facilitate professional development for staff, and intentionally advance program equity and inclusive learning environments.

"I am excited to be joining Inver Grove Heights Schools as the next Simley Assistant Principal because of the district's authentic commitment to engagement, relationships, and creating a culture of belonging," Ms. Gardner said. "I am relationship-driven and look forward to building strong connections with students, families, and staff as we work collectively to support each student with consistent access to high levels of learning."

Ms. Gardner has filled Matt Drugg's former position as he begins his role as principal at Inver Grove Heights Middle School. Welcome, Ms. Gardner!

## SOIL SCIENCE LESSON

Carol Nankivel, a retired soil scientist, taught Hilltop Elementary School 2nd graders about her work. She led an interactive lesson to get students thinking about different soil that plants grow in and what they need to survive and thrive. After learning how each plant gets its water, what nutrients it gets, and how it grows differently based on the soil it's in, students acted out how a plant would react to different conditions, such as growing in clay, loam, or sand.

Students then had the opportunity to pot their own plants. They learned about the spider plant that they were potting, and they learned how to pack the soil to best support the plant's growth. Thank you to Ms. Nankivel for the engaging lesson on soil and her help creating plants that students can care for and watch grow in their own homes!

## Spartan Robotics Competes in Tri-state Event

Spartan Robotics, FRC Team 2518, participated in the 2025 Minnesota North Star Regional Competition. The team of 13 Simley High School and Inver Grove Heights Middle School students, grades 8-12, designed and built their own robot to complete this year's competition tasks.

The FIRST Robotics Competition was hosted at the University of Minnesota, drawing 48 teams from three states. The 2025 underwater theme, Reefscape, challenged students to create a robot that could move algae made of stability balls as well as pick up coral made of PVC pipe and place it on a metal reef. Robots had to be able to successfully perform pre-programmed tasks and be operated remotely in different matches.

Despite most Spartan Robotics members being new this season, everything the team designed together worked as intended during the competition! They ended the competition with a final match record of 5-5-0. Great job, Spartan Robotics!

Interested in joining or sponsoring the team? Students, families, and community members can contact Coach Mary Dillon at *DillonM@isd199.org*.

## Family Discounts Through Educational Benefits

When families apply and qualify for Educational Benefits, they get deals on student activity fees, student parking, school device protection plans, tickets to school events like prom, and local services like electric and gas utilities.

Every qualifying application can also help your child's school receive funding for student support services. Visit *www.isd199.org* to apply for 2025-2026 Educational Benefits. Families must apply every year to continue their benefits.

## State Adapted Bowling

Nine Simley High School athletes competed in the Minnesota State High School League (MSHSL) Adapted Bowling State Tournament on May 9. Students qualified for the singles, doubles, and teams tournaments.

Donovan G. competed in the Boys Singles category. Facing 33 competitors, he knocked down a total of 464 pins, earning 3rd place in his division of the Boys Singles Tournament!

Donovan then paired up with Shyanne G. in the Doubles Tournament. The duo placed 4th in their division with a total of 869 pins!

Simley's team of Mari B., Tristan M., Rafe S., and Theo S. faced 15 teams from across Minnesota. The group scored an impressive 1,697 pins, winning 1st place in the state in their division!

Congratulations to the Simley Adapted Bowling Team on an impressive season and state tournament!

## Pine Bend & Atheneum Math Masters Earn Top Spots at Competition

Teams and competitors from Pine Bend Elementary School and the Atheneum Gifted Magnet Program competed in a Math Masters Competition this spring with outstanding results! More than 5,000 students participated in Math Masters competitions across Minnesota, Wisconsin, and Colorado this year. The competitions challenge 4th-, 5th-, and 6th-grade students to use critical thinking and problem-solving skills in mathematics.

Students competed in a 5-minute fact drill, three 10-minute Individual Problem-solving rounds, and three 15-minute Team Problem-solving rounds. Problems included everything from order of operations and the properties of numbers to geometry and statistics.

Pine Bend's team of 4th graders included Natalie H., Nolan J., Cadence M., Alex M., Luca S., Gus S., Bredy T., and Lawrence W. Luca led Pine Bend's wins by placing 2nd in the fact round. He took 1st in the individual round and Gus took 2nd. In the team round, Pine Bend's Red Team of Luca, Gus, Natalie, and Bredy took 1st place overall. This is only the third year that Math Masters competitions have included 4th graders.

This year, Atheneum had two teams of 5th graders in the competition. The team of Hannah B., Sam D., Max E., Celia K., and Owen S. won first place in the team segment. Owen also went on to take 1st in the individual competition. Atheneum's team of Abigail C., William P., Cole S., Thomas S., and Vika V. took 2nd place in the teams competition.

Congratulations to the Pine Bend and Atheneum Math Masters on an incredible competition!

## 2025 Apollo Award Winner Chosen for Talent

Senior Isaiah Wilson was chosen as Simley High School's 2025 Apollo Award winner. The award recognizes a student athlete for their impressive achievements in athletics, academics, and leadership throughout high school. Isaiah earned the award for his incredible talent and dedication in football and in track and field.

Isaiah is a three-time letter winner in football. He has 593 career receiving yards and seven touchdowns.

"He was a game changer as a receiver," Simley Football Head Coach Chris Mensen said. "He played an integral role in our team becoming Section Runner-up in 2024."

A four-time letter winner in track and field before his 2025 season, Isaiah built an outstanding athletic career on the track. During his Simley Track and Field career, he earned All Conference nine times. He was named an MVP twice and earned All-State twice in the 110 Hurdles and once in the 100-meter Dash. He qualified for State four times: twice in the 110 Hurdles, once in High Jump, and once in the 100-meter Dash.

He also secured the school record in the 110 Hurdles, Long Jump, and the 4x100 Relay. The school record for the 110 Hurdles had been in place for 40 years until Isaiah finally topped it. The previous record holder, John Bertsch, stopped by the school to congratulate Isaiah on the new record. In addition to his three school records, he is the third fastest in Simley's 100-meter Dash, 4th in the 300 Hurdles, 6th in the High Jump, and 10th in the 200-meter Dash. His talent and hard work will leave a legacy at Simley.

Isaiah is attending the University of Wisconsin-River Falls this fall. He has committed to playing football as a Falcon. Good luck to Isaiah, and congratulations on this prestigious award!

# FAST FACTS • • • • • • • • • • • • INSPIRE. INNOVATE. EXCEL.

Stay informed of the current issues, challenges, and changes facing the Inver Grove Heights School District.

## #1. WEBSITE UPDATE

This summer, Inver Grove Heights Schools (ISD 199) launched a more user-friendly website. The district gathered feedback and made improvements over seven months before launching. Updates were made based on the perspectives and suggestions of our families and staff as well as a review of the previous website's analytics.

The focus of the update was to improve communication between our schools and our families while better informing our community. Check out the update at *www.isd199.org*.

## #2. BOARD LISTENING SESSIONS

If you have questions or concerns related to Inver Grove Heights Schools (ISD 199) that you would like to share with our school board, consider signing up for a public listening session. Listening sessions are informal meetings held 5:10-5:25 PM before regular school board meetings. Two board members and the superintendent will be available during each session to hear issues from residents.

If you are interested in attending a public listening session, please visit *www.isd199.org/board* to complete a Public Listening Session Form.

## #3. DISTRICT COMMITTEE OPENINGS

Positions are now open on the ISD 199 Wellness Committee and our Community Education Advisory Council. Our Wellness Committee works on creating a school environment that enhances student performance and increases student attendance through health and wellness promotion. Our Community Education Advisory Council provides support to the district's birth through senior programming. To sign up, visit *www.isd199.org/join*.

## #4. JOB OPENINGS

Our district is lucky to have so many caring and experienced educators and volunteers in our community. As we approach the start of this school year, please consider applying for some of our open positions and joining our outstanding team.

Visit *www.isd199.org/careers* to apply and browse full-time, part-time, and substitute job openings.
