Special Education in LBUSD

When a student has been assessed, eligibility for special education services is determined by the Individual Education Program (IEP) team of parents and qualified professionals that determine what services a student requires only after all the resources of the general education program have been considered.

Special education is a program designed to meet the unique educational needs of children with disabilities who meet the eligibility criteria under the law. Special education services can begin at birth and continue until the age of twenty-two (22). Your child may receive special education services under one of the following eligibilities:

- Speech or Language Impairment
- Specific Learning Disabilities
- Other Health Impairment
- Emotional Disability
- Intellectual Disability
- Autism or Autistic-Like Behaviors
- Orthopedic Impairment
- Deafness
- Deaf-Blindness
- Visual Impairment (including blindness)
- Traumatic Brain Injury
- Multiple Disabilities

In Long Beach Unified School District when your child is eligible for special education services, you have the right to be informed about all available public and non-public schools or programs.

The law requires LBUSD to the maximum extent appropriate, children with disabilities be educated with children without disabilities. This placement is sometimes called "the least restrictive environment" ("LRE").
