

TAKE CARE of your Chromebook!

Be Gentle

Carry your Chromebook with two hands, always closed, and never by the screen. Use a case and keep it off hot surfaces.

Keep it Clean

Only clean it with a soft cloth, and don't eat, drink, draw, or put stickers on it.

Charge it Up

Plug it in every night so it's ready for school, and shut it down when you're done.

Stay Safe

Keep your password private, don't leave your Chromebook alone, and report anything weird or if it gets lost or broken.

Use it Right

Only use it for school stuff, don't try to change it, and leave the school tag alone.

Be Responsible

The Chromebook belongs to the school, so treat it with care and return it if you leave. Follow the Responsible Use Policy and Student Code of Conduct.

Keep it Working

Bring it to school everyday for updates and report software issues with a ticket.
