

DEAR RAIDER PARENTS & GUARDIANS:

At Richmond Senior High School, we are committed to helping every RAIDER prepare for life after high school—whether that’s college, career, military, or another path they’re excited about. To support this mission, help students discover their strengths and plan their futures, we’ve partnered with MajorClarity, an easy-to-use career and academic planning platform.

What does MajorClarity do?

- Helps students explore careers that match their interests and abilities
- Guides students in setting academic goals and creating a plan for success
- Gives families a window into their child’s career interests and plans

Parents and guardians play a vital role in their child’s journey. MajorClarity makes it simple for you to stay connected and involved in your child’s planning process—whether that’s checking in on goals, talking through career options, or celebrating milestones together. During scheduled activities for students, your child will use MajorClarity at school and our hope is that you will explore the platform together as a family at home! Together, we can help our students discover their passions and build a future they’re proud of.
