Entry 4 – Board of Trustees Disclosure of Financial Interest Form

Completed - Aug 1 2025

Instructions

Required of ALL Charter Schools

Each member of the charter school's Board of Trustees who served on a charter school education corporation governing one or more charter schools for any period during the 2024-2025 school year must complete and sign a Trustee [Disclosure of Financial Interest Form](#) due **no later than 11:59 PM on August 1, 2025**. Acceptable signature formats include:

- Digitally certified PDF signature (i.e., DocuSign)
- Manual signature (1. download to print, 2. manually sign, 3. scan signed document to PDF, and 4. upload into portal)

All completed forms must be collected and uploaded in PDF format for each individual member. **The education corporation is responsible for ensuring that each member who served on the board during the 2024-2025 school year completes the form.**

Charter schools MUST submit the latest version of the form. Forms completed from past years will not be accepted.

Trustees serving on an education corporation that governs more than one school are not required to complete a separate disclosure for each school governed by the education corporation. In the Trustee Disclosure of Financial Interest Form, trustees must disclose information relevant to any of the schools served by the governing education corporation.

Entry 6 – Enrollment & Retention

Completed - Aug 1 2025

Instructions

Required of ALL Charter Schools

Describe the good faith efforts the charter school has made in 2024-2025 toward meeting targets to attract and retain the enrollment of students with disabilities (SWD), English language learners (ELL), and students who are economically disadvantaged (ED). In addition, describe the school's plans for meeting or making progress toward meeting its enrollment and retention targets in 2025-2026.

Entry 6 – Enrollment and Retention of Special Populations

Good Faith Efforts to Meet Recruitment Targets (Attract)

	Describe Recruitment Efforts in 2024-2025	Describe Recruitment Plans in 2025-2026
Students with Disabilities	<p>During our student recruitment process, prospective families who indicate they have a child with a disability are informed that we have a dedicated student support service department that will help them one on one once they are accepted.</p>	<p>We will continue to extend our time and knowledge on a case by case basis for those families who have a child with a disability. It is very important for us to keep this culture as it shows how hard we are willing to work with a parent in making their child succeed no matter what setting is required.</p>
English Language Learners	<p>As part of our student recruitment process every year, we advertise in various local papers. During this time, bilingual staff members from BCSE visit various early childhood education centers to distribute applications and share knowledge about what the school has to offer for students who are English Language Learners (ELL). Currently, our applications are translated in Spanish and Bengali.</p>	<p>We will continue our efforts by continuing to advertise and visit early childhood education centers. We will also attend Charter School open houses that are offered by the NYC Charter School Center. We hope to one day be able to set up a Charter School open house solely in the Bronx to reach out to more families.</p>
Economically Disadvantaged	<p>During our student recruitment process, we widely advertise our admissions window in Bronx newspapers that reaches out to various areas where economically disadvantaged families reside. For our online application, we indicate it as a preference to encourage families to apply. We inform families we are a public school and that there is no cost associated with attending. For families who are severe need and cannot afford the entire uniform, we provide as much assistance as we can so they get what they need.</p>	<p>We will continue all advertising efforts that we know are viewable to areas of ED families. We also advertise in free newspapers so that we reach families who are unable to afford to purchase other publications. We will continue to provide assistance for uniforms for those families who are in severe need.</p>

Good Faith Efforts To Meet Retention Targets

	Describe Retention Efforts in 2024-2025	Describe Retention Plans in 2025-2026
Students with Disabilities	<p>BCSE mainstreams students with special needs. Additionally, BCSE serves students who have special learning needs and provides services including: Integrated Coteaching (ICT), Special Education Teacher Support Services (SETSS), Counseling, Speech, Occupational Therapy and Physical Therapy. We also have staffed positions whose focus is solely on student with disabilities. They work hard to get students the services they need so that eventually the student can be phased out of the Individualized Educational Plan they were given.</p>	<p>We will continue to work with families on a case-by-case basis to educate them on what the child's IEP means and why they should receive the recommended service. We will begin servicing the child as soon as possible. If for any reason, a parent doesn't agree with the mandated services, we will help them with the appeal process as well. The ultimate goal is get the correct services for the student so that they can eventually go from what may be a complex setting to a less complex setting then eventually phasing out.</p>
English Language Learners	<p>At the time of registration, families are given a survey that helps to identify what the primary language in the household is. We find that 10%-15% of kindergarten students are eligible for NYSITELL testing. This test helps us identify the level of English proficiency in the student. Through immersion and high quality assistance from the teachers, students are tested out by the time they first or second grade.</p>	<p>The process for identifying ELL students will remain the same as it has worked over the years. One new addition we will work to implement this year is purchasing literature or software. An additional supplement they can do at home with their families so that they all are getting the benefit of learning.</p>
Economically Disadvantaged	<p>Once we have established who falls into the criteria, we are able to connect with camps and programs that specifically target this population. We then work with the families who are interested in these programs and go through the steps of putting the</p>	<p>We will continue to research what programs are offered to this specific population and provide them with as many opportunities as we can for their children. We are working on obtaining uniform vouchers for those families who absolutely cannot afford uniforms for their children.</p>

student in the program. Programs have been offered during the school year and in the summer.

Entry 7 – Employee Fingerprint Requirements Attestation

Completed - Aug 1 2025

Instructions

Required of ALL Charter Schools

Review and complete the Employee Fingerprint Requirements Attestation.

Entry 7 – Employee Fingerprint Requirements Attestation

A. TEACH System – Employee Clearance

Required of ALL Charter Schools

Charter schools MUST ensure that all prospective employees^[1] receive clearance through [the NYSED Office of School Personnel Review and Accountability](#) (OSPRA) prior to employment. **This includes paraprofessionals and other school personnel who are provided or assigned by the district of location, or related/contracted service providers.** After an employee has been cleared, schools are required to maintain proof of such clearance in the file of each employee.

Please note that all schools should maintain an electronic or hard copy of the clearance certification pulled from TEACH and dated PRIOR to the employee's start date. Clearance certifications pulled from TEACH at a later date will show that the staff member was cleared as of that date and may result in a finding of clearance violations against the school.

^[1] Employees who must be cleared include, but are not limited to, teachers, administrative staff, janitors, security personnel and cafeteria workers, and other staff who are present when children are in the school building. **This includes paraprofessionals and other school personnel that are provided or assigned by the district of location, as well as related/contracted service providers.** See NYSED memorandum dated October 1, 2019 at [NYSED CSO Employee Clearance and Fingerprint Memo](#) or visit the NYSED website at [Who Must Be Fingerprinted Charts](#) for more information regarding who must be fingerprinted. Also see, 8 NYCRR §87.2.

B. Emergency Conditional Clearances

Charter schools are **strongly discouraged** from using the emergency conditional clearance provisions for prospective employees. This is because the school must request clearance through NYSED TEACH, and the school's emergency conditional clearance of the employee terminates automatically once the school receives notification from NYSED regarding the clearance request. Status notification is provided for all prospective employees through the NYSED TEACH portal within 48 hours after the clearance request is submitted. Therefore, at most, a school's emergency conditional clearance will be valid for only 48 hours after approval by the board.

Schools are not permitted to renew or in any way re-establish a prospective employee's emergency conditional clearance after status notification is sent by NYSED through the TEACH portal.

Schools are asked to attest that they have reviewed and understand these requirements. More information can be found in the memo at [NYSED CSO Employee Clearance and Fingerprint Memo](#).

Attestation

Responses Selected:

I hereby attest that the school has reviewed, understands, and will comply with these requirements.

Entry 9 – School Calendar

Completed - Aug 1 2025

Instructions

Required of ALL Charter Schools

Charter schools must upload a final 2025-2026 calendar into the portal **no later than 11:59 PM on August 1, 2025**.

School calendars must meet the [minimum instructional requirements](#) as required of other public schools "... *unless the school's charter requires more instructional time than is required under the regulations.*"

Board of Regents-authorized charter schools are also required to submit **school calendars that clearly indicate the start and end date of the instructional year AND the number of instructional hours and/or instructional days for each month. Schools must use a calendar format and ensure there is a monthly tally of instructional days.**

Charter schools serving elementary and secondary levels may submit one combined calendar showing instructional hours and days for all building levels OR separate calendars uploaded as one PDF. *Note that school calendars will also provide evidence of alignment for schools with extended days/years referenced in their mission statements or key design elements.*

See below for an example of a calendar showing the requested information.

Elleace David has served as the Bronx Charter School for Excellence 3 Elementary School Principal since July 2024. Frank Peart has served since July 2024 and Betty Bonet since December 2023.

SCHOOL OVERVIEW

Bronx Charter School for Excellence 3 (Bronx Excellence 3, Bronx 3) opened in the fall of 2017 to 150 scholars in grades K-1 and grew to serve K-8 in 2024-25. The award-winning Bronx Excellence approach provides a differentiated, project-based learning environment that seeks to develop high-level analytical and critical thinking skills in every scholar. During the 2024-2025 school year, Bronx 3 served 481 children in grades K-8.

The mission of Bronx Charter School for Excellence 3 is to prepare young people in New York City to compete for admission to and succeed in top public, private and parochial high schools by cultivating their intellectual, artistic, social, emotional, and ethical development. The school accomplishes this by offering a challenging and rigorous academic curriculum, which at the earliest of grades has an eye toward college preparation. Bronx Excellence 3 provides a supportive and caring environment that maintains high expectations for all students. The demographics of the population served by Bronx Excellence 3 are as follows:

Percentage distribution of 2024-2025 students by race/ethnicity

Ethnicity	Percentage
American Indian or Alaskan Native	0.42%
Asian	1.66%
Black/African American	72.97%
Hispanic/Latino	23.49%
Multiple Ethnicities	0.42%
Native Hawaiian or Other Pacific Islander	0.42%
White	0.62%

In addition, 81.29 % of our students are eligible for free or reduced lunch.

GOAL 1: ENGLISH LANGUAGE ARTS

Bronx Excellence 3 students will become proficient readers and writers of the English language.

BACKGROUND

During the 2024-25 academic year, Bronx Charter School for Excellence 3 implemented its high-quality, comprehensive English Language Arts (ELA) curriculum that is aligned to New York State's Next Generation Learning Standards for K through 8th grades. The reading program provides for students the foundation needed to become proficient readers, including skills and knowledge to understand how phonemes are connected to print; ability to decode words; ability to read fluently; background knowledge and vocabulary to foster comprehension; development of active strategies to construct meaning from print; and development and maintenance of a motivation to read. We chose this curriculum because it allows us to facilitate a literacy approach that incorporates multiple genres, has the flexibility to differentiate, and uses direct instruction to teach foundational skills prior to moving onto more complex content.

The elementary program is grounded in techniques that support explicit and systematic instruction and offers a platform for ongoing professional development for teachers in the critical elements of instruction for phonemic awareness, phonics, fluency, vocabulary, and comprehension strategies. This program is supplemented with guided reading and literature circles based on student learning needs. Students are regularly exposed to authentic texts and provided leveled, guided instruction. Teachers use multiple levels of Bloom's Taxonomy question stems to promote critical thinking. All instructional staff participate in workshops and ongoing modeling throughout the academic year to enhance their skills and optimize their use of curriculum resources.

The middle school program continues this work as scholars progress into departmentalized instruction. Ninety minutes are allocated for ELA each day, with a minimum of 50 minutes devoted to reading using a published program in concert with award winning novels. The program provides a wide variety of genres, word study/vocabulary enrichment, differentiated material, and connections to writing. In addition, each unit begins with essential questions that usher students from knowledge and understanding to synthesis and evaluation. Award-winning novels are directly tied to broader themes taught in other disciplines. Therefore, we can increase reading engagement, stamina, and the connections that allow scholars to make better meaning and sense of the world around them.

Bronx Excellence 3 utilizes the writing workshop model for scholars to experience processed and craft writing. Students improve writing fluency; learn to communicate effectively; develop knowledge of the English written language system, with an emphasis on syntax and discourse; understand the connections between reading and writing to develop writers; understand and can write across various fictional and non-fictional genres; and develop a love of writing, culminating in publishing parties where written work is celebrated.

The implementation of our reading program is effective because of the instructional strategy of uninterrupted, consistent, daily flexible reading groups that focus supports within smaller groups for

struggling readers while offering enrichment activities for students who are proficient and advanced readers. Scholars receive small group instruction and interventions that cross grade-level classrooms. Teachers gather extensive assessment data to determine students’ learning levels and provide individualized support to target needs. Assessments include a combination of formal and informal measures such as daily checks and anecdotes; quarterly benchmarks tests; annual state assessments; and curriculum-based assessments administered at the conclusion of the six- to eight-day instructional cycle. All data is used to inform lesson planning, establish targeted small group mini lessons, monitor progress, and evaluate the efficacy of our programming. Moreover, it helps to drive differentiated professional development by strengthening areas of vulnerability and leveraging assets to optimize instruction.

ELA Measure 2 - Absolute

Each year, the school’s aggregate Performance Index (“PI”) on the State English language arts exam will meet that year’s state Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

In New York State, ESSA school performance goals are met by showing that an absolute proportion of a school's students who have taken the English language arts test have scored at the partially proficient, or proficient and advanced performance levels (Levels 2 or 3 & 4). The percentage of students at each of these three levels is used to calculate a PI and determine if the school has met the MIP set each year by the state’s ESSA accountability system. To achieve this measure, all tested students must have a PI value that equals or exceeds the state’s 2024-25 English language arts MIP for all students of **117.3**. The PI is the sum of the percent of students in all tested grades combined scoring at Level 2, plus two times the percent of students scoring at Level 3, plus two-and-a-half times the percent of students scoring at Level 4. Thus, the highest possible PI is 250.²

English Language Arts 2024-25 Performance Index (PI)

Number in Cohort	Number of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
309	6	56	130	117

$$PI = 0 * 1.94 + 1 * 18.12 + 2 * 42.07 + 2.5 * 37.86 = 196.93$$

ELA Measure 3 - Comparative

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the school district of comparison.

ELA Measure 4 - Comparative

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

The Institute conducts a Comparative Performance Analysis, which compares the school’s performance to that of demographically similar public schools statewide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The difference between the school’s actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a meaningful degree, is the target for this measure. Given the timing of the state’s release of economically disadvantaged data and the demands of the data analysis, the 2024-25 analysis is not yet available. This report contains 2023-24 results.⁴

ELA Measure 5 - Growth

Each year, under the state’s Growth Model, the school’s mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the target of 50.

METHOD

Given the timing of the state’s release of Growth Model data, the 2024-25 analysis is not yet available. This report contains 2023-24 results, the most recent Growth Model data available.⁵

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2023-24 and also have a state exam score from 2022-23 including students who were retained in the same grade. Students with the same 2022-23 score are ranked by their 2023-24 score and assigned a percentile based on their relative growth in performance (student growth percentile). Students’ growth percentiles are aggregated school-wide to yield a school’s mean growth percentile. In order for a school to perform above the target for this measure, it must have a mean growth percentile greater than 50.

ELA INTERNAL EXAM RESULTS

During 2024-25, in addition to the New York State 3rd – 8th grade exams, the school primarily used the following assessment to measure student growth and achievement in ELA: **Internally developed**

METHOD

The table below shows the proficiency rates of students at the end of the 2024-25 school year. Because it is assumed that students will grow at the normed rate to master grade level content by the conclusion of the school year, these figures demonstrate the percentage of students in grades 3-8 who mastered 75% or more of grade level content at the normed rate since the beginning of the school year.

EVALUATION OF ELA GOAL

Bronx Excellence 3 exceeded each of the five measures, outperforming the targets by large margins, and met the ELA goal for 2024-25.

Measure 1 – Absolute: Overall, 80.68% of students enrolled in at least their second year were proficient on the New York State exam for grades 3-8. The results for students enrolled in at least their second year in each grade individually exceeded the target as well, with the exception of grade five which at 73.77% was very close to the target.

Measure 2 – Absolute: The school’s performance index was 196.93, which exceeded the achievement measure target of 117.3.

Measure 3 – Comparative: Bronx Excellence 3 students enrolled in at least their second year outperformed their district counterparts in each grade and overall. The overall proficiency rate for these continuously enrolled students was 80.68%, compared to 50.52% within the school district of comparison.

Measure 4 – Comparative: Each individual grade surpassed the .3 effect size achievement measure target, and the school’s overall effect size was 1.25.

Measure 5 – Growth: Each grade with the exception of fifth surpassed the 50.0 achievement measure target for mean growth percentile, and the overall MGP was 54.4

These positive outcomes reflect effective instructional routines and the overall strength of the ELA program in school year 2024-25.

ELA ACTION PLAN

Bronx Charter School for Excellence 3 will continue the following steps to improve particular areas within curriculum and instruction while continuing to strive for high academic performance through specific enhancements of the overall English Language Arts program. These steps will allow us to meet all goals:

1. We will prioritize our professional development for all teachers with a strong focus on the Next Generation Learning Standards. The Next Generation Standards will be analyzed and emphasized in all discipline areas and grade levels. The Leadership Team will work closely with all grade level teams on internalizing the Next Generation standards and understanding the shift in planning and instructional delivery. We will continue to focus on the 6 shifts including:

- Balancing Informational and Literary Texts
- Knowledge in the Disciplines
- Staircase of Complexity

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

- Text-Based Answers
- Writing from Sources
- Academic Vocabulary

Excellence Community Schools will collaborate with the leadership team to revise curriculum maps and units that are in complete alignment with the Next Generation Standards and emphasize academic language rigor. Writing will take place in all discipline areas.

2. Our early childhood classes will get more support from the Leadership team, the Principal and additional support staff identifying students who need early intervention/prevention in the areas of Literacy within the first few weeks of school. Supplemental instructional materials will be given to support an intervention program to meet their needs. An extra block of literacy intervention will be given to these students. Students who receive early intervention will be monitored on a weekly basis for short term goal improvement.

Our upper grade classes will get more support from the Leadership team in identifying students who need intervention and support in the areas of Literacy during the first two weeks of school. Supplemental instructional materials will be given to support an intervention through a push in or pull out program. For the few upper grade students who still need support with phonics and fluency, they will receive an extra literacy intervention block to support their improvement in these areas. Extra resources will also be provided for 5th through 8th grade students to improve their literacy learning by integrating literacy with Social Studies and Science to ensure emphasis on the Next Generation Standards. Students will have access to more classic literature and a rigorous writing program.

3. We will prioritize our professional development for early childhood teachers with more time devoted to addressing the needs of the struggling, proficient and advanced readers. Since Bronx Charter School for Excellence teaches reading through a daily cycle of whole group instruction to flexible reading groups within the entire grade, most of the improvement will take place during the flexible reading group sessions.

We will prioritize our professional development for upper grade teachers with more time devoted in the area of guided reading and literature circles, with a strong emphasis on building effective reading comprehension strategies and critical thinking techniques.

In addition to the stated improvements, Bronx Charter School for Excellence will continue to maintain and implement important components of its overall English Language Arts program such as:

- Daily uninterrupted reading block in kindergarten through fifth grade, with 3-hour reading and social studies integrated blocks in sixth through eighth grade
- Daily explicit reading instruction increased from 90 minutes to 100 minutes
- Daily one hour flexible reading groups
- Differentiated curriculum, instruction, assessment and staff development
- Co-teaching and modeling cycles with master teachers and leadership team
- Collaborative unit and lesson planning
- Weekly, Monthly and Quarterly analysis of assessments

- Monitoring of lesson plans
- Formal and informal lesson observations

GOAL 2: MATHEMATICS

Bronx Excellence 3 students will demonstrate steady progress in the understanding and application of mathematical skills.

BACKGROUND

Bronx Excellence 3 uses Next Generation math standards and Eureka Squared sequences mathematical progressions into modules. The curriculum aligns well with the school's approach to learning and provides a foundation of knowledge, skills, and competencies upon which to build as students advance in content and grade level. We selected this curricular approach because it allows students to engage with exciting, intriguing, and animated content that provides enhanced opportunities to explore, expand upon, and broaden the depth of mathematical discourse, real-world connections, reasoning, critical thinking, and problem solving. This includes computational, procedural, and conceptual knowledge that supports and builds success in mathematics with authentic problem solving. The program centers on teaching with a concrete-pictorial-abstract learning progression through real-world, hands-on experiences. It encourages students to use various mental strategies to solve problems and focus on finding solutions. It builds conceptual understanding rather than rote memorization, with an emphasis on critical thinking and problem solving and focuses on deep knowledge building to understand mathematics conceptually.

Our math program also uses key concepts as building blocks for more complex treatments in articulated, logical, modular progressions using a narrative approach to build coherence. Students are encouraged to use math talk to build mathematical vocabulary to discuss concepts in context. Scholars are expected to learn content and processes of mathematics to become lifelong mathematical thinkers. Middle school students continue to work with the standards-aligned, coherent, and focused curriculum that reflects the logical and sequential nature of mathematics. The curriculum simultaneously develops conceptual understanding, computational fluency, and problem-solving skills within real-world context. Our program is research-based and provides robust professional development for teachers, inclusive of teacher-led instructional videos and tools to target instruction based on student need.

Math is taught daily for a minimum of 60 minutes for elementary school and 90 minutes for middle school. During the class, content is introduced to the whole group. The teacher uses real-time data collected throughout the lesson, such as checks for understanding or questioning methods, along with unit quizzes and tests, and informal performance assessments. Additional assessments include formal and informal measures such as exit tickets, performance tasks, interim and state exams, and unit quizzes and tests. Data garnered from these measures is used to formulate small group interventions, assess curriculum efficacy, inform lesson planning, and guide professional development.

Based on classroom data, teachers provide scaffolded small groups and individualized targeted instruction as students practice work independently. This way, interventions are provided in real time,

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

particularly for scholars who are not immediately mastering content. Our program also allows differentiation with advanced sections and groups created to enrich the math experience for scholars who are accelerated. While scholars are expected to master both content and mathematical processes appropriate for their age and grade, our goal is to support scholars so they can complete Algebra by the end of eighth grade.

Math Measure 2 - Absolute

Each year, the school’s aggregate Performance Index (“PI”) on the state mathematics exam will meet that year’s state Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

METHOD

In New York State, ESSA school performance goals are met by showing that an absolute proportion of a school's students who have taken the mathematics test have scored at the partially proficient, or proficient and advanced performance levels (Levels 2 or 3 & 4). The percentage of students at each of these three levels is used to calculate a PI and determine if the school has met the MIP set each year by the state’s ESSA accountability system. To achieve this measure, all tested students must have a PI value that equals or exceeds the state’s 2024-25 mathematics MIP for all students of **119.4**. The PI is the sum of the percent of students in all tested grades combined scoring at Level 2, plus two times the percent of students scoring at Level 3, plus two-and-a-half times the percent of students scoring at Level 4. Thus, the highest possible PI is 250.

Number in Cohort	Number of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
310	11	41	136	122

$$PI = 0 * 3.55 + 1 * 13.23 + 2 * 43.87 + 2.5 * 39.35 = 199.35$$

Math Measure 3 - Comparative

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of all students in the same tested grades in the school district of comparison.

METHOD

A school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.

Math Measure 4 - Comparative

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

METHOD

The Institute conducts a Comparative Performance Analysis, which compares the school's performance to that of demographically similar public schools statewide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The difference between the school's actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a meaningful degree, is the target for this measure. Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2024-25 analysis is not yet available. This report contains 2023-24 results.⁶

Math Measure 5 - Growth

Each year, under the state’s Growth Model, the school’s mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the target of 50.

METHOD

Given the timing of the state’s release of Growth Model data, the 2024-25 analysis is not yet available. This report contains 2023-24 results, the most recent Growth Model data available.⁷

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2023-24 and also have a state exam score in 2022-23 including students who were retained in the same grade. Students with the same 2022-23 scores are ranked by their 2023-24 scores and assigned a percentile based on their relative growth in performance (student growth percentile). Students’ growth percentiles are aggregated school-wide to yield a school’s mean growth percentile. In order for a school to meet the measure, the school would have to achieve a mean growth percentile above the target of 50.

METHOD

The table below shows the proficiency rates of students at the end of the 2024-25 school year. Because it is assumed that students will grow at the normed rate to master grade level content by the conclusion of the school year, these figures demonstrate the percentage of students in grades 3-8 who mastered 75% or more of grade level content at the normed rate since the beginning of the school year.

SUMMARY OF THE MATHEMATICS GOAL

Bronx Excellence 3 met four of five measures, exceeding the targets for both absolute measures and both comparative measures, and falling just short of the growth measure target.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State Mathematics exam for grades 3-8.	Yes
Absolute	Each year, the school's aggregate PI on the state's mathematics exam will meet that year's state MIP as set forth in the state's ESSA accountability system.	Yes
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of students in the same tested grades in the school district of comparison.	Yes
Comparative	Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.	Yes
Growth	Each year, under the state's Growth Model the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the target of 50.	No

EVALUATION OF THE MATHEMATICS GOAL

Bronx Excellence 3 met four of five measures, exceeding the targets for both absolute measures and both comparative measures, and fell just shy of the growth measure target.

Measure 1 – Absolute: Overall, 83.05% of students enrolled in at least their second year were proficient on the New York State math exam for grades 3-8, surpassing the 75% attainment expectation. The results for students enrolled in at least their second year in each grade individually exceeded the target as well, with the exception of grade five which at 72.13% was very close to the target.

Measure 2 – Absolute: The school's performance index was 199.35, which exceeded the achievement measure target of 119.4.

Measure 3 – Comparative: Bronx Excellence 3 students enrolled in at least their second year outperformed their district counterparts in each grade and overall. The overall proficiency rate for these continuously enrolled students was 83.05%, compared to 50.65% within the school district of comparison.

Measure 4 – Comparative: Each individual grade surpassed the .3 effect size achievement measure target, and the overall effect size for the school was 1.59.

Measure 5 – Growth: The school's overall MGP was 49.9, falling just short of the target of 50.

These positive outcomes reflect effective instructional routines and the overall strength of the mathematics program in school year 2024-25.

MATHEMATICS ACTION PLAN

Bronx Excellence 3 will continue to educate our scholars with a lens towards the maintenance of equity. This ensures that all children have equitable access to high-quality instruction. Bronx Excellence 3 will continue to provide academic intervention for scholars who did not achieve their academic goals and will continue to implement resources and strategies that have historically proven successful for our scholars.

To support students' instructional needs at the start of the 2025-2026 school year, Bronx Excellence 3 will dedicate the first few weeks of school to administering math lessons and guidance in small groups to support where students are in their development. Using this and other data collected throughout the year, the school will provide intensive, data-driven differentiation to target individualized needs.

Bronx Excellence 3 will continue to provide equitable access to our high-quality instructional program to all students and remain vigilant of all learners' progress, including those with special educational needs and English Learners. All teachers received training designed to reinforce strategies to support English learners and students with disabilities.

We will continue to prioritize our professional development for all teachers with a strong focus on the Next Generation Standards. Topics include:

- Perseverance in Problem Solving
- Abstract & Quantitative Reasoning
- Critiquing and constructing viable Arguments
- Mathematic Models
- Appropriate Strategies & Tools
- Precision
- The use and search for Mathematical Structures
- Express and search for Regularity in repeated reasoning.

Teachers will receive support from the leadership team, the principal, and additional support staff to identify students who need intervention in Mathematical concepts within the first few weeks of school.

GOAL 3: SCIENCE

Students will demonstrate proficiency relative to science achievement and use technology, scientific concepts, principles, and theories to conduct and analyze investigations.

BACKGROUND

The science curriculum is based on the NYSP-12SLS and the New York State Next Generation Science Standards and focuses on three dimensions of learning – Science and Engineering Practices, Disciplinary Core Ideas, and Crosscutting Concepts. Under the guidance of the standards, the science program takes an inquiry-based approach to learning. It provides students with opportunities to build connections that link science to technology and societal impacts and provides the skills and knowledge our students need to become scientifically literate citizens of the 21st century. This approach aligns with our commitment to inspire conscientious, inquisitive, knowledgeable, and lifelong scholars. Students practice solving problems creatively, thinking critically, working cooperatively in teams, using technology effectively, and developing positive science attitudes.

Science instruction at Bronx Excellence 3 is differentiated for all learning styles and incorporates several methods of instructional delivery and assessment. Instruction emphasizes active, hands-on explorations in the early grades that help students build their understanding of key concepts. It invites students to develop and explain concepts in their own words orally, through writing, and drawing. Students are provided with options and projects that allow them to demonstrate mastery of content. Young learners are encouraged to actively explore, discover, and learn about the natural world.

The middle school science program is also governed by the NYSP-12SLS. Key ideas and performance indicators are used to prepare our students to further develop and cultivate science abilities and understanding. Guided by teachers, students continually learn content to complete hands-on scientific investigations, blended with literacy-rich activities and interactive digital tools. They also learn to develop hypotheses and provide reasoning using evidence. With practice, trial, and error, students in

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

grades 5-8 demonstrate their understanding of scientific processes, skills, and procedures. Bronx 3 scholars also learned about cultivating a hydroponic lab and eighth graders will be able to take an advanced high school course of living environment and participate in Urban Advantage, an initiative designed to advance scientific learning in New York City. Varied opportunities allow students to demonstrate appropriate scientific language, procedures, and proficiency, culminating in the state examinations. Assessments include classroom assignments, discourse, experiments, quizzes and tests, and presentations. Data is used to inform instruction, evaluate program efficacy and differentiate professional development.

ELEMENTARY AND MIDDLE SCIENCE

Science Measure 1 - Absolute

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State science examination.

The school administered the New York State Testing Program science assessment to students in 5th and 8th grade in spring 2025. The table below summarizes the performance of students enrolled for at least two years.

Charter School Performance on 2024-25 State Science Exam
By Students Enrolled in At Least Their Second Year

Grade	Students in At Least Their 2 nd Year		
	Number Tested	Number Proficient	Percent Proficient
5	61	32	52.46%
8	28	17	60.71%
All	89	49	55.06%

Science Measure 2 - Comparative

Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state science exam will be greater than that of all students in the same tested grades in the school district of comparison.

The school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year and the results for the respective grades in the school district of comparison.

All	89	49	55.06%	3409	871	25%

SUMMARY OF THE ELEMENTARY/MIDDLE SCIENCE GOAL

Bronx Excellence 3 met the comparative measure target and fell short of the absolute measure target for science.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State examination.	No
Comparative	Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state exam will be greater than that of all students in the same tested grades in the school district of comparison.	Yes

EVALUATION OF THE SCIENCE GOAL

Bronx Excellence 3 met the target for one of two science measures and continues to work toward meeting the goal. The school's overall proficiency rate for students enrolled in at least their second year was 55.06% with students in both fifth and eighth grades falling short of the 75% target. However, continuously enrolled students vastly exceeded the performance of their district peers, with only a quarter of students proficient at the district of comparison. Bronx Excellence 3 did have some students participate in the Living Environment Regents Exam in 2024-25, with a passage rate of 66.66%.

8	2023-24	N/A	N/A	N/A	N/A
8	2024-25	Living Environment	12	8	66.66%

SCIENCE ACTION PLAN

The following steps have enabled Bronx Charter School for Excellence 3 to improve upon and maintain a high-quality science curriculum and strong instructional practices.

1. The Science program will continue to follow the NYSP-12SLS and New Generation Science standards to drive further rigor and instruction through the Science Curriculum. These standards will continue to be implemented into every aspect of the curriculum.
2. The elementary science teacher and middle school science team will continue to receive support and guidance from the Leadership team in identifying students who need early intervention, whether for remediation, steady progression or extending concepts. Supplemental instruction materials will be given to support intervention to meet students' needs. Students who receive early intervention will be monitored on a weekly basis to assess short term goals and attainment of performance indicators in science.
3. We will prioritize our professional development for teachers to have on-going opportunities to plan with grade level teams and grade spans for curriculum mapping and unit planning, explore resources and strategies for differentiation in instructional delivery, materials, and assessment, enhance technology and question lesson planning skills to address the needs of struggling, proficient and advanced students. We will also focus on training more teachers on pedagogical methods for quality instruction.
4. Grades K-8 will continue to implement Amplify Science. Teachers will receive ongoing professional development for the program and support on the integration of STEM instruction within the classroom.
5. Bronx Charter School for Excellence 3 will continue to include the following for its overall Science Program:
 - Differentiated curriculum, instruction, assessment and staff development
 - Inquiry-based projects
 - Co-teaching modeling cycles with master teachers and leadership team
 - Collaborative unit and lesson planning
 - Weekly, Monthly and Quarterly analysis of assessments
 - Monitoring of lesson plans
 - Formal and informal lesson observation
 - Project-based assessments
 - Field Trips

GOAL 4: ESSA

ESSA Measure 1

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Under the state’s ESSA accountability system, the school is in good standing: the state has not identified the school for comprehensive or targeted improvement.

Because *all* students are expected to meet the state's performance standards, the federal statute stipulates that various sub-populations and demographic categories of students among all tested students must meet the state standard in and of themselves aside from the overall school results. As New York State, like all states, is required to establish a specific system for making these determinations for its public schools, charter schools do not have latitude in establishing their own performance levels or criteria of success for meeting the ESSA accountability requirements. Each year, the state issues School Report Cards that indicate a school’s status under the state accountability system. More information on assigned accountability designations and context can be found [here](#).

Accountability Status by Year

Year	Status
2022-23	Local Support and Improvement (Good Standing)
2023-24	Local Support and Improvement (Good Standing)
2024-25	Local Support and Improvement (Good Standing)

ADDITIONAL CONTEXT AND EVIDENCE

Bronx Excellence 3 has remained in good standing and has met this goal every year of reporting.

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

This certificate is issued subject to the following conditions: (1) No change of use or occupancy shall be made without the approval of the Borough Superintendent; (2) No rearrangement of the structural parts of the building or in the exterior walls, or any other part of the building, shall be made; (3) No change of height shall be made; (4) No change shall be made in the use or occupancy of the building, or in any part thereof, which shall be any reduction or diminution of the area of the lot or plot on which the building is situated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended, or from obtaining the special certificates required for the use and operation of elevators, or from the installation of fire alarm systems where required by law, nor from complying with any lawful order for the installation of fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition, or from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate, and is subject to the jurisdiction of the Housing Division unless it is also approved and ordered by the Board of Health, or is ordered by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that it would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance, that there are no notices of violations or orders pending in the Department of Housing and Buildings, or that the provisions of the Charter of the New York City, Chapter has been complied with, as certified by a report of the Bureau of Building, the Borough Superintendent, and that, so long as the building is not altered except in terms of the Building Code, the existing use and occupancy may be continued.

This certificate is issued subject to the following conditions: (1) No change of use or occupancy shall be made without the approval of the Borough Superintendent; (2) No rearrangement of the structural parts of the building or in the exterior walls, or any other part of the building, shall be made; (3) No change of height shall be made; (4) No change shall be made in the use or occupancy of the building, or in any part thereof, which shall be any reduction or diminution of the area of the lot or plot on which the building is situated.
