

**Bronx Charter School for
Excellence 2**

**2024-25 ACCOUNTABILITY PLAN
PROGRESS REPORT**

Submitted to the SUNY Charter Schools Institute on
September 16, 2025

By

By Sharleen Morris, Elementary Principal
Adije Okpo, Middle School Principal

1804 Holland Avenue, Bronx NY 10462 &
1734 Williamsbridge Road, Bronx NY 10461

(718) 892-1276/(929) 388-4232

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Sharleen Morris and Adije Okpo prepared this 2024-25 Accountability Progress Report on behalf of the charter school's board of trustees:

Trustee's Name	Board Position	
	Office (e.g., chair, treasurer, secretary)	Committees (e.g., finance, executive)
Kathy Lathen	Board Chair	Executive, Finance, Discipline
Joyce Frost	Vice Chair	Executive, Finance, Discipline
Joseph Lewis	Treasurer	Executive, Finance, Discipline
Stacey Lauren	Secretary	Executive, Discipline, Education

Sharleen Morris has served as Principal since 2017, and Adije Okpo has served as Principal since 2018.

SCHOOL OVERVIEW

Bronx Charter School for Excellence 2 (Bronx Excellence 2, Bronx 2) opened in the fall of 2016. In 2023, Bronx Excellence 2 was honored by the U.S. Department of Education with a National Blue Ribbon award as an Exemplary High Performing School. Bronx 2 also has previously earned the distinction of being named a Recognition School by NYSED. The award-winning Bronx Excellence approach provides a differentiated, project-based learning environment that seeks to develop high-level analytical and critical thinking skills in every scholar. During the 2024-2025 school year, Bronx 2 served 502 children in grades K-8.

The mission of Bronx Charter School for Excellence 2 is to prepare young people in New York City to compete for admission to and succeed in top public, private and parochial high schools by cultivating their intellectual, artistic, social, emotional, and ethical development. The school accomplishes this by offering a challenging and rigorous academic curriculum, which at the earliest of grades has an eye toward college preparation. Bronx Excellence 2 provides a supportive and caring environment that maintains high expectations for all students. The demographics of the population served by Bronx Excellence 2 are as follows:

Percentage distribution of 2024-2025 students by race/ethnicity

Ethnicity	Percentage
American Indian or Alaskan Native	0.60%
Asian	21.71%
Black/African American	32.87%
Hispanic/Latino	41.24%
Multiple Ethnicities	0.20%
Native Hawaiian or Other Pacific Islander	0.20%
White	3.19%

In addition, 87.85 % of our students are eligible for free or reduced lunch.

ENROLLMENT SUMMARY

School Enrollment by Grade Level and School Year

School Year	K	1	2	3	4	5	6	7	8	9	10	11	12	Total
2022-23	54	56	58	56	58	54	53	52	-	-	-	-	-	441
2023-24	45	53	51	56	53	54	42	45	49	-	-	-	-	448
2024-25	54	55	58	56	57	59	69	51	43	-	-	-	-	502

GOAL 1: ENGLISH LANGUAGE ARTS

Bronx Excellence 2 students will become proficient readers and writers of the English language.

BACKGROUND

During the 2024-25 academic year, Bronx Charter School for Excellence 2 implemented its high-quality, comprehensive English Language Arts (ELA) curriculum that is aligned to New York State's Next Generation Learning Standards for K through 8th grades. The reading program provides for students the foundation needed to become proficient readers, including skills and knowledge to understand how phonemes are connected to print; ability to decode words; ability to read fluently; background knowledge and vocabulary to foster comprehension; development of active strategies to construct meaning from print; and development and maintenance of a motivation to read. We chose this curriculum because it allows us to facilitate a literacy approach that incorporates multiple genres, has the flexibility to differentiate, and uses direct instruction to teach foundational skills prior to moving onto more complex content.

The elementary program is grounded in techniques that support explicit and systematic instruction and offers a platform for ongoing professional development for teachers in the critical elements of instruction for phonemic awareness, phonics, fluency, vocabulary, and comprehension strategies. This program is supplemented with guided reading and literature circles based on student learning needs. Students are regularly exposed to authentic texts and provided leveled, guided instruction. Teachers use multiple levels of Bloom's Taxonomy question stems to promote critical thinking. All instructional staff participate in workshops and ongoing modeling throughout the academic year to enhance their skills and optimize their use of curriculum resources.

The middle school program continues this work as scholars progress into departmentalized instruction. Ninety minutes are allocated for ELA each day, with a minimum of 50 minutes devoted to reading using a published program in concert with award winning novels. The program provides a wide variety of genres, word study/vocabulary enrichment, differentiated material, and connections to writing. In addition, each unit begins with essential questions that usher students from knowledge and understanding to synthesis and evaluation. Award-winning novels are directly tied to broader themes taught in other disciplines. Therefore, we can increase reading engagement, stamina, and the connections that allow scholars to make better meaning and sense of the world around them.

Bronx Excellence 2 utilizes the writing workshop model for scholars to experience processed and craft writing. Students improve writing fluency; learn to communicate effectively; develop knowledge of the English written language system, with an emphasis on syntax and discourse; understand the connections between reading and writing to develop writers; understand and can write across various fictional and non-fictional genres; and develop a love of writing, culminating in publishing parties where written work is celebrated.

The implementation of our reading program is effective because of the instructional strategy of uninterrupted, consistent, daily flexible reading groups that focus supports within smaller groups for

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

struggling readers while offering enrichment activities for students who are proficient and advanced readers. Scholars receive small group instruction and interventions that cross grade-level classrooms. Teachers gather extensive assessment data to determine students’ learning levels and provide individualized support to target needs. Assessments include a combination of formal and informal measures such as daily checks and anecdotes; quarterly benchmarks tests; annual state assessments; and curriculum-based assessments administered at the conclusion of the six- to eight-day instructional cycle. All data is used to inform lesson planning, establish targeted small group mini lessons, monitor progress, and evaluate the efficacy of our programming. Moreover, it helps to drive differentiated professional development by strengthening areas of vulnerability and leveraging assets to optimize instruction.

ELEMENTARY AND MIDDLE ELA

ELA Measure 1 - Absolute

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State English language arts examination for grades 3-8.

The tables below summarize the participation information for this year’s test administration as well as the performance of all students and students enrolled for at least two years.

2024-25 State English Language Arts Exam
Number of Students Tested and Not Tested

Grade	Total Tested	Not Tested						Total Enrolled
		Absent	Refusal	ELL/IEP	Admin error	Medically excused	Other reason	
3	55	-	1	-	-	-	1	57
4	56	-	2	-	-	-	-	58
5	58	-	1	-	-	-	-	59
6	69	-	-	-	-	-	-	69
7	49	2	-	-	-	-	-	51
8	43	-	-	-	-	-	-	43
All	330	2	4	-	-	-	1	337

Performance on 2024-25 State English Language Arts Exam
By All Students and Students Enrolled in At Least Their Second Year¹

Grade	All Students	Enrolled in at least their Second Year
-------	--------------	--

¹ Students are considered “enrolled in at least their second year” if they were enrolled on BEDS day of the school year prior to the most recent exam administration.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

	Number Tested	Number Proficient	Percent Proficient	Number Tested	Number Proficient	Percent Proficient
3	55	52	94.55%	38	36	94.74%
4	56	51	91.07%	50	46	92.00%
5	58	51	87.93%	50	46	92.00%
6	69	63	91.30%	61	55	90.16%
7	49	48	97.96%	39	38	97.44%
8	43	40	93.02%	42	39	92.86%
All	330	305	92.42%	280	260	92.86%

ELA Measure 2 - Absolute

Each year, the school’s aggregate Performance Index (“PI”) on the State English language arts exam will meet that year’s state Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

In New York State, ESSA school performance goals are met by showing that an absolute proportion of a school's students who have taken the English language arts test have scored at the partially proficient, or proficient and advanced performance levels (Levels 2 or 3 & 4). The percentage of students at each of these three levels is used to calculate a PI and determine if the school has met the MIP set each year by the state’s ESSA accountability system. To achieve this measure, all tested students must have a PI value that equals or exceeds the state’s 2024-25 English language arts MIP for all students of **117.3**. The PI is the sum of the percent of students in all tested grades combined scoring at Level 2, plus two times the percent of students scoring at Level 3, plus two-and-a-half times the percent of students scoring at Level 4. Thus, the highest possible PI is 250.²

English Language Arts 2024-25 Performance Index (PI)

Number in Cohort	Number of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
330	3	22	110	195

$$PI = 0 * 0.91 + 1 * 6.67 + 2 * 33.33 + 2.5 * 59.09 = 221.06$$

ELA Measure 3 - Comparative

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the school district of comparison.

² You can find the statewide MIP goals for 2022-23 to 2026-27 [here](#)

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

A school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.³

2024-25 State English Language Arts Exam Charter School and District Performance by Grade Level

Grade	Percent of Students at or Above Proficiency			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent Proficient	Number Tested	Percent Proficient	Number Tested
3	94.74%	38	50.86%	978
4	92.00%	50	51.92%	1002
5	92.00%	50	55.73%	1094
6	90.16%	61	44.73%	1005
7	97.44%	39	47.26%	1094
8	92.86%	42	53.58%	1234
All	92.86%	280	50.52%	6407

ELA Measure 4 - Comparative

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

The Institute conducts a Comparative Performance Analysis, which compares the school’s performance to that of demographically similar public schools statewide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The difference between the school’s actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a meaningful degree, is the target for this measure. Given the timing of the state’s release of economically disadvantaged data and the demands of the data analysis, the 2024-25 analysis is not yet available. This report contains 2023-24 results.⁴

2023-24 English Language Arts Comparative Performance by Grade Level

³ Schools can access these data when the NYSED releases its database containing grade level ELA and mathematics results for all schools and districts statewide.

⁴ These data can be found in the school’s Accountability Summary provided by the Institute in spring 2025.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Grade	Percent Economically Disadvantaged	Mean Scale Score		Effect Size
		Actual	Predicted	
3	77.6%	463.0	440.4	2.36
4	90.9%	464.0	438.9	2.33
5	98.2%	456.0	435.6	2.06
6	100%	466.0	436.0	3.40
7	97.8%	466.0	442.4	2.43
8	100%	472.0	442.3	2.83
All	93.6%	464.2	439.3	2.53

ELA Measure 5 - Growth

Each year, under the state’s Growth Model, the school’s mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the target of 50.

METHOD

Given the timing of the state’s release of Growth Model data, the 2024-25 analysis is not yet available. This report contains 2023-24 results, the most recent Growth Model data available.⁵

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2023-24 and also have a state exam score from 2022-23 including students who were retained in the same grade. Students with the same 2022-23 score are ranked by their 2023-24 score and assigned a percentile based on their relative growth in performance (student growth percentile). Students’ growth percentiles are aggregated school-wide to yield a school’s mean growth percentile. In order for a school to perform above the target for this measure, it must have a mean growth percentile greater than 50.

2023-24 English Language Arts Mean Growth Percentile by Grade Level

Grade	Mean Growth Percentile	
	School	Target
4	44.9	50.0
5	48.7	50.0
6	54.6	50.0
7	48.4	50.0
8	52.8	50.0
All	49.7	50.0

⁵ These data can be found in the school’s Accountability Summary provided by the Institute in spring 2025.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

ELA INTERNAL EXAM RESULTS

During 2024-25, in addition to the New York State 3rd– 8th grade exams, the school primarily used the following assessment to measure student growth and achievement in ELA: **Internally developed**

METHOD

The table below shows the proficiency rates of students at the end of the 2024-25 school year. Because it is assumed that students will grow at the normed rate to master grade level content by the conclusion of the school year, these figures demonstrate the percentage of students in grades 3-8 who mastered 75% or more of grade level content at the normed rate since the beginning of the school year.

End-of-Year Performance of 2024-25 Students from Internal ELA Assessment by Grade Level

Site	Grade	Count of Students	% Proficient
Bronx 2	3	56	85.71%
Bronx 2	4	57	89.47%
Bronx 2	5	59	86.44%
Bronx 2	6	69	88.41%
Bronx 2	7	51	88.24%
Bronx 2	8	43	93.02%
Bronx 2	All	335	88.36%

SUMMARY OF THE ELA GOAL

Bronx Excellence 2 met the ELA goal and met four of five measures, including both absolute measures and both comparative measures, and fell just below the growth measure target.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State English language arts exam for grades 3-8.	Yes
Absolute	Each year, the school's aggregate PI on the state's English language arts exam will meet that year's state MIP as set forth in the state's ESSA accountability system.	Yes
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of students in the same tested grades in the school district of comparison.	Yes
Comparative	Each year, the school will exceed its predicted level of performance on the state English language arts exam by an effect size of 0.3 or above	Yes

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

	(performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.	
Growth	Each year, under the state’s Growth Model the school’s mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the target of 50.	No

EVALUATION OF ELA GOAL

Bronx Excellence 2 exceeded four five measures, outperforming the targets by large margins, and fell slightly below the growth target for the reporting period.

Measure 1 – Absolute: Overall, 92.86% of students enrolled in at least their second year were proficient on the New York State exam for grades 3-8, which greatly exceeds the 75% attainment expectation. Each individual grade surpassed the 75% attainment threshold as well.

Measure 2 – Absolute: The school’s performance index was 221.06, which exceeded the achievement measure of 117.3.

Measure 3 – Comparative: Bronx Excellence 1 students enrolled in at least their second year outperformed their district counterparts in each grade and overall. The overall proficiency rate for these continuously enrolled students was 92.86%, compared to 50.52% within the school district of comparison.

Measure 4 – Comparative: Each individual grade surpassed the .3 effect size achievement measure target, and the school’s overall effect size was 2.53.

Measure 5 – Growth: The overall MGP reported here fell just short of the target, with a result of 49.7 rather than 50. Grades four, five, and seven were below the target individually and grades six and eight were above the target.

These positive outcomes reflect effective instructional routines and the overall strength of the ELA program in school year 2024-25.

ELA ACTION PLAN

At Bronx Excellence 2, equity remains at the forefront of our mission. We are committed to ensuring that every scholar has access to high-quality instruction that allows them to thrive academically and as independent thinkers. During the 2025-26 school year, our English Language Arts priorities will center on strengthening teacher development, deepening data-driven practices, implementing targeted interventions, and elevating the quality of student writing through the systematic use of The Writing Revolution. Teachers will engage in collaborative lesson planning aligned to the Next Generation Standards and will participate in regular data cycles to analyze results, identify misconceptions, and adjust instruction accordingly. These cycles will also inform targeted interventions for all levels of readers and writers, monitored weekly with clear entry and exit criteria.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Writing will remain a schoolwide priority as we aim to ensure scholars develop into proficient, independent communicators. Teachers will analyze student work regularly to track growth and implement Writing Revolution strategies with fidelity. Instruction will emphasize sentence expansion and structure, note-taking and summarization, evidence-based writing across subject areas, and scaffolded tasks that build from sentences to multi-paragraph essays. Teachers will set growth goals aligned to the Next Generation Standards and monitor progress using writing portfolios, rubrics, and interim assessments.

Professional development will continue to be a driving force for teacher growth. Our PD cycles will focus on the Next Generation Standards, emphasizing reading, writing, and language with attention to key ideas and details, craft and structure, integration of knowledge and ideas, and vocabulary development. Teachers will also receive training on Writing Revolution strategies, student work protocols, designing responsive interventions, and differentiating instruction for English Learners, scholars with disabilities, and advanced students. This commitment to professional learning will ensure that instruction is rigorous, equitable, and responsive to the diverse needs of all scholars.

Instructional practices and progress monitoring will reflect these priorities in daily classrooms. Reading instruction will combine whole-group instruction with flexible small groups, while writing tasks will be embedded consistently across content areas. Teachers will use formative assessments such as exit tickets, frequent checks for understanding, and student work analysis to guide instruction. Benchmark assessments and weekly data meetings will ensure ongoing progress monitoring, while writing portfolios will showcase scholar growth over time. By June 2026, we expect 100% of teachers to demonstrate measurable growth in planning, data use, and intervention implementation, and at least 75% of scholars to meet or exceed grade-level writing expectations. Ultimately, Bronx Excellence 2 will strengthen its culture of literacy and ensure all scholars can communicate their ideas with clarity, evidence, and confidence.

GOAL 2: MATHEMATICS

Bronx Excellence 2 students will demonstrate steady progress in the understanding and application of mathematical skills.

BACKGROUND

Bronx Excellence 2 uses Next Generation math standards and Eureka Squared sequences mathematical progressions into modules. The curriculum aligns well with the school's approach to learning and provides a foundation of knowledge, skills, and competencies upon which to build as students advance in content and grade level. We selected this curricular approach because it allows students to engage with exciting, intriguing, and animated content that provides enhanced opportunities to explore, expand upon, and broaden the depth of mathematical discourse, real-world connections, reasoning, critical thinking, and problem solving. This includes computational, procedural, and conceptual knowledge that supports and builds success in mathematics with authentic problem solving. The program centers on teaching with a concrete-pictorial-abstract learning progression through real-world, hands-on

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

experiences. It encourages students to use various mental strategies to solve problems and focus on finding solutions. It builds conceptual understanding rather than rote memorization, with an emphasis on critical thinking and problem solving and focuses on deep knowledge building to understand mathematics conceptually.

Our math program also uses key concepts as building blocks for more complex treatments in articulated, logical, modular progressions using a narrative approach to build coherence. Students are encouraged to use math talk to build mathematical vocabulary to discuss concepts in context. Scholars are expected to learn content and processes of mathematics to become lifelong mathematical thinkers. Middle school students continue to work with the standards-aligned, coherent, and focused curriculum that reflects the logical and sequential nature of mathematics. The curriculum simultaneously develops conceptual understanding, computational fluency, and problem-solving skills within real-world context. Our program is research-based and provides robust professional development for teachers, inclusive of teacher-led instructional videos and tools to target instruction based on student need.

Math is taught daily for a minimum of 60 minutes for elementary school and 90 minutes for middle school. During the class, content is introduced to the whole group. The teacher uses real-time data collected throughout the lesson, such as checks for understanding or questioning methods, along with unit quizzes and tests, and informal performance assessments. Additional assessments include formal and informal measures such as exit tickets, performance tasks, interim and state exams, and unit quizzes and tests. Data garnered from these measures is used to formulate small group interventions, assess curriculum efficacy, inform lesson planning, and guide professional development.

Based on classroom data, teachers provide scaffolded small groups and individualized targeted instruction as students practice work independently. This way, interventions are provided in real time, particularly for scholars who are not immediately mastering content. Our program also allows differentiation with advanced sections and groups created to enrich the math experience for scholars who are accelerated. While scholars are expected to master both content and mathematical processes appropriate for their age and grade, our goal is to support scholars so they can complete Algebra by the end of eighth grade.

ELEMENTARY AND MIDDLE MATHEMATICS

Math Measure 1 - Absolute

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State Mathematics examination for grades 3-8.

The tables below summarize the participation information for this year's test administration as well as the performance of all students and students enrolled for at least two years.

2024-25 State Mathematics Exam
Number of Students Tested and Not Tested

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Grade	Total Tested	Not Tested							Total Enrolled
		Absent	Refusal	ELL/IEP	Admin error	Medically excused	Other reason	Took Regents	
3	55	-	1	-	-	-	1	-	57
4	57	-	1	-	-	-	-	-	58
5	58	-	1	-	-	-	-	-	59
6	69	-	-	-	-	-	-	-	69

7	51	50	98.04%	41	41	100.00%
8	43	41	95.35%	42	40	95.24%
All	333	318	95.50%	283	271	95.76%

Additionally, 100% of the Bronx Excellence 2 students who took a Regents exam in mathematics achieved proficiency.

Math Measure 2 - Absolute

Each year, the school's aggregate Performance Index ("PI") on the state mathematics exam will meet that year's state Measure of Interim Progress ("MIP") set forth in the state's ESSA accountability system.

METHOD

In New York State, ESSA school performance goals are met by showing that an absolute proportion of a school's students who have taken the mathematics test have scored at the partially proficient, or proficient and advanced performance levels (Levels 2 or 3 & 4). The percentage of students at each of these three levels is used to calculate a PI and determine if the school has met the MIP set each year by the state's ESSA accountability system. To achieve this measure, all tested students must have a PI value that equals or exceeds the state's 2024-25 mathematics MIP for all students of **119.4**. The PI is the

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

sum of the percent of students in all tested grades combined scoring at Level 2, plus two times the percent of students scoring at Level 3, plus two-and-a-half times the percent of students scoring at Level 4. Thus, the highest possible PI is 250.

Mathematics 2024-25 Performance Index (PI)

Number in Cohort	Number of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
333	2	13	120	198

$$PI = 0 * 0.60 + 1 * 3.90 + 2 * 36.04 + 2.5 * 59.46 = 224.62$$

Math Measure 3 - Comparative

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of all students in the same tested grades in the school district of comparison.

METHOD

A school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.

2024-25 State Mathematics Exam Charter School and District Performance by Grade Level

Grade	Percent of Students at or Above Proficiency			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent Proficient	Number Tested	Percent Proficient	Number Tested
3	100.00%	38	58.74%	1990
4	98.04%	51	55.37%	1992
5	92.00%	50	50.20%	1986
6	91.80%	61	40.29%	2301
7	100.00%	41	51.79%	2319
8	95.24%	42	47.14%	980
All	95.76%	283	50.65%	11568

Math Measure 4 - Comparative

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree)

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

METHOD

The Institute conducts a Comparative Performance Analysis, which compares the school's performance to that of demographically similar public schools statewide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The difference between the school's actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a meaningful degree, is the target for this measure. Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2024-25 analysis is not yet available. This report contains 2023-24 results.⁶

2023-24 Mathematics Comparative Performance by Grade Level

Grade	Percent Economically Disadvantaged	Mean Scale Score		Effect Size
		Actual	Predicted	
3	77.6%	470.0	447.6	1.75
4	90.9%	487.0	447.0	2.54
5	98.2%	478.0	440.1	2.82
6	100%	477.0	440.1	3.09
7	97.8%	495.0	445.9	3.64
8	100%	500.0	440.0	3.44
All	93.6%	484.5	443.6	2.84

Math Measure 5 - Growth

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the target of 50.

METHOD

Given the timing of the state's release of Growth Model data, the 2024-25 analysis is not yet available. This report contains 2023-24 results, the most recent Growth Model data available.⁷

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2023-24 and also have a

⁶ These data can be found in the school's Accountability Summary provided by the Institute in spring 2025.

⁷ These data can be found in the school's Accountability Summary provided by the Institute in spring 2025.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

state exam score in 2022-23 including students who were retained in the same grade. Students with the same 2022-23 scores are ranked by their 2023-24 scores and assigned a percentile based on their relative growth in performance (student growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to meet the measure, the school would have to achieve a mean growth percentile above the target of 50.

2023-24 Mathematics Mean Growth Percentile by Grade Level

Grade	Mean Growth Percentile	
	School	Target
4	55.0	50.0
5	55.9	50.0
6	51.1	50.0
7	61.9	50.0
8	73.4	50.0
All	59.5	50.0

MATHEMATICS INTERNAL EXAM RESULTS

During 2024-25, in addition to the New York State 3rd – 8th grade exams, the school primarily used the following assessment to measure student growth and achievement in mathematics: **Internally developed**

METHOD

The table below shows the proficiency rates of students at the end of the 2024-25 school year. Because it is assumed that students will grow at the normed rate to master grade level content by the conclusion of the school year, these figures demonstrate the percentage of students in grades 3-8 who mastered 75% or more of grade level content at the normed rate since the beginning of the school year.

RESULTS AND EVALUATION

End-of-Year Performance of 2024-25 Students from Internal Math Assessment by Grade Level

Site	Grade	Count of Students	% Proficient
Bronx 2	3	56	89.29%
Bronx 2	4	57	91.23%
Bronx 2	5	59	86.44%
Bronx 2	6	69	85.51%
Bronx 2	7	51	90.20%
Bronx 2	8	43	86.05%
Bronx 2	All	335	88.06%

SUMMARY OF THE MATHEMATICS GOAL

Bronx Excellence 2 met each of the five measures, exceeding the targets by wide margins and meeting the mathematics goal.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State Mathematics exam for grades 3-8.	Yes
Absolute	Each year, the school’s aggregate PI on the state’s mathematics exam will meet that year’s state MIP as set forth in the state’s ESSA accountability system.	Yes
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of students in the same tested grades in the school district of comparison.	Yes
Comparative	Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.	Yes
Growth	Each year, under the state’s Growth Model the school’s mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the target of 50.	Yes

EVALUATION OF THE MATHEMATICS GOAL

Bronx Excellence 2 met each of the five measures and met the mathematics goal for the year, surpassing the target for each measure by a large margin.

Measure 1 – Absolute: Overall, 95.76% of students enrolled in at least their second year were proficient on the New York State math exam for grades 3-8, far surpassing the 75% attainment expectation. Notably, continuously enrolled students in grades three and seven achieved 100% proficiency.

Measure 2 – Absolute: The school’s performance index was 224.62, which exceeded the achievement measure of 119.4.

Measure 3 – Comparative: Bronx Excellence 2 students enrolled in at least their second year outperformed their district counterparts in each grade and overall. The overall proficiency rate for these continuously enrolled students was 95.76%, compared to 50.65% within the school district of comparison.

Measure 4 – Comparative: Each individual grade surpassed the .3 effect size achievement measure target, and the overall effect size for the school was 2.84.

Measure 5 – Growth: The school’s overall MGP was 59.5, surpassing the target of 50.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

These positive outcomes reflect effective instructional routines and the overall strength of the mathematics program in school year 2024-25.

MATHEMATICS ACTION PLAN

At Bronx Excellence 2, equity continues to guide our mission to ensure that every scholar has access to high-quality math instruction. To address unfinished learning from the pandemic, we will build upon practices that have proven successful while expanding resources and scaffolding capacity. Teachers will rely on a data-driven approach to assess each scholar's needs and create individualized intervention plans. Support will be provided through small-group instruction, one-to-one tutoring, individualized services, and summer programming. This comprehensive approach ensures that all scholars, including English Learners and students with disabilities, have equitable opportunities to master math content and skills.

Last year, Bronx Excellence 2 prioritized building strong foundational math skills to strengthen number sense and fluency. This year, we will continue that focus while deepening teacher development in effective planning, responding to data, and fostering scholar independence. Teachers will be trained to encourage students to explain their reasoning, show multiple strategies, and self-monitor progress. Instruction will leverage flexible small groups and manipulatives to make abstract concepts more concrete, ensuring that all scholars can access rigorous, grade-level content.

Professional development will remain central to strengthening teacher practice. Teachers will engage in collaborative planning with leadership and peers, participate in co-teaching and modeling cycles with ECS coaches, and use student work protocols to calibrate expectations across grade levels. PD will emphasize differentiation strategies, embedding math discourse, strengthening use of manipulatives, and facilitating productive struggle. By equipping teachers with these tools, we will ensure instruction is both rigorous and responsive to scholar needs.

Daily classroom practice will reflect these priorities through whole-group instruction paired with differentiated small groups, math messages embedded into morning meetings, and rich opportunities for problem-solving and projects. Progress will be monitored through benchmark assessments, frequent formative checks, and early intervention systems that track short-term goals. Weekly and quarterly data meetings will ensure instruction is continuously adjusted based on student performance. By June 2026, we expect 100% of teachers to demonstrate measurable growth in planning, differentiation, and use of small groups, and 100% of scholars to show growth in foundational math skills. At least 75% of scholars will meet or exceed grade-level expectations, ensuring that all students are prepared to advance with confidence and independence in mathematics.

GOAL 3: SCIENCE

Students will demonstrate proficiency relative to science achievement and use technology, scientific concepts, principles, and theories to conduct and analyze investigations.

BACKGROUND

The science curriculum is based on the New York State P-12 Science Learning Standards (NYSP-12SLS) and focuses on three dimensions of learning – Science and Engineering Practices, Disciplinary Core Ideas, and Crosscutting Concepts. Under the guidance of the standards, the science program takes an inquiry-based approach to learning. It provides students with opportunities to build connections that link science to technology and societal impacts and provides the skills and knowledge our students need to become scientifically literate citizens of the 21st century. This approach aligns to our commitment to inspire conscientious, inquisitive, knowledgeable, and lifelong scholars. Students practice solving problems creatively, thinking critically, working cooperatively in teams, using technology effectively, and developing positive science attitudes.

Science instruction at Bronx Excellence 2 is differentiated for all learning styles and incorporates several methods of instructional delivery and assessment. Instruction emphasizes active, hands-on explorations in the early grades that help students build their understanding of key concepts. It invites students to develop and explain concepts in their own words orally, through writing, and drawing. Students are provided with options and projects that allow them to demonstrate mastery of content. Young learners are encouraged to actively explore, discover, and learn about the natural world.

The middle school science program is also governed by the NYSP-12SLS. Key ideas and performance indicators are used to prepare our students to further develop and cultivate science abilities and understanding. Guided by teachers, students continually learn content to complete hands-on scientific investigations, blended with literacy-rich activities and interactive digital tools. They also learn to develop hypotheses and provide reasoning using evidence. With practice, trial, and error, students in grades 5-8 demonstrate their understanding of scientific processes, skills, and procedures. Bronx 2 scholars also learned about cultivating a hydroponic lab and eighth graders will be able to take an advanced high school course of living environment and participate in Urban Advantage, an initiative designed to advance scientific learning in New York City. Varied opportunities allow students to demonstrate appropriate scientific language, procedures, and proficiency, culminating in the state examinations. Assessments include classroom assignments, discourse, experiments, quizzes and tests, and presentations. Data is used to inform instruction, evaluate program efficacy and differentiate professional development.

ELEMENTARY AND MIDDLE SCIENCE

Science Measure 1 - Absolute

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State science examination.

The school administered the New York State Testing Program science assessment to students in 5th and 8th grade in spring 2025. The table below summarizes the performance of students enrolled for at least two years.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Charter School Performance on 2024-25 State Science Exam By Students Enrolled in At Least Their Second Year

Grade	Students in At Least Their 2 nd Year		
	Number Tested	Number Proficient	Percent Proficient
5	49	35	71.43%
8	41	34	82.93%
All	90	69	76.67%

Science Measure 2 - Comparative

Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state science exam will be greater than that of all students in the same tested grades in the school district of comparison.

The school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year and the results for the respective grades in the school district of comparison.

2024-25 State Science Exam Charter School and District Performance by Grade Level

Grade	Charter School Students in at Least 2 nd Year			All District Students		
	Number Tested	Number Proficient	Percent Proficient	Number Tested	Number Proficient	Percent Proficient
5	49	35	71.43%	2257	569	25%
8	41	34	82.93%	1152	302	26%
All	90	69	76.67%	3409	871	25%

SUMMARY OF THE ELEMENTARY/MIDDLE SCIENCE GOAL

Bronx Excellence 2 met the science goal and exceeded the target for both measures.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State examination.	Yes
Comparative	Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state exam will be greater than that of all students in the same tested grades in the school district of comparison.	Yes

EVALUATION OF THE SCIENCE GOAL

Bronx Excellence 2 met the science goal and surpassed attainment targets for each individual measure. The school’s overall proficiency rate for students enrolled in at least their second year was 76.67% overall, with students in both fifth and eighth grades exceeding the 75% target. Students vastly exceeded the performance of their district peers, with only a quarter of students proficient at the district of comparison. Additionally, some Bronx Excellence 2 students took the Living Environment Regents exam in 2024-25, with a passage rate of 100%.

Performance on a Regents Science Exam Of 8 th Grade All Students by Year					
Grade	Year	Regents Exam	Number Tested	Number Passing	Percent Passing
8	2022-23	-	-	-	-
8	2023-24	-	-	-	-
8	2024-25	Living Environment	9	9	100%

ACTION PLAN

Bronx Excellence 2 will continue to pursue a comprehensive approach to evaluating student instructional needs through the systematic administration of multiple benchmark assessments that capture formative and summative data at regular intervals. Assessments will inform robust data-driven differentiation strategies that precisely target and accelerate academic growth in science. The school’s learning environment prioritizes equitable access to high-quality, standards-based instruction, with intentional scaffolding and supports embedded to address the needs of students with disabilities and English Learners.

Guided by the principles of Next Generation Science Standards (NGSS) and the Amplify Science curriculum, Bronx Excellence 2 empowers students to engage as scientists and engineers through authentic, phenomena-based inquiries. The Amplify Science curriculum integrates the three-dimensional learning framework of the Next Generation Science Standards (NGSS), ensuring students build disciplinary core ideas, science and engineering practices, and crosscutting concepts across multimodal lessons that promote critical thinking, scientific argumentation, and problem solving.

Professional learning for science educators is strategically aligned to the NGSS and the Amplify Science curriculum’s research-based pedagogies. This includes deep-dive unit workshops, job-embedded coaching, and ongoing data analysis to strengthen teacher capacity for evidence-based instruction and differentiated support for diverse learners. Through these structures, Bronx Excellence 2 ensures sustained fidelity to curricular rigor while continuously monitoring learner outcomes and instructional efficacy.

GOAL 4: ESSA

ESSA Measure 1

Under the state’s ESSA accountability system, the school is in good standing: the state has not identified the school for comprehensive or targeted improvement.

Because *all* students are expected to meet the state's performance standards, the federal statute stipulates that various sub-populations and demographic categories of students among all tested students must meet the state standard in and of themselves aside from the overall school results. As New York State, like all states, is required to establish a specific system for making these determinations for its public schools, charter schools do not have latitude in establishing their own performance levels or criteria of success for meeting the ESSA accountability requirements. Each year, the state issues School Report Cards that indicate a school’s status under the state accountability system. More information on assigned accountability designations and context can be found [here](#).

Accountability Status by Year

Year	Status
2022-23	Local Support and Improvement (Good Standing)
2023-24	Local Support and Improvement (Good Standing)
2024-25	Local Support and Improvement (Good Standing)

ADDITIONAL CONTEXT AND EVIDENCE

Bronx Excellence 2 has remained in good standing and has met this goal every year of reporting.
