

**Girls Preparatory Charter School of
the Bronx II**

**2024-25 ACCOUNTABILITY PLAN
PROGRESS REPORT**

Submitted to the SUNY Charter Schools Institute on:

September 16, 2025

By Shakina Hinton, School Principal

263 E 203rd Street Bronx NY 10458

(718) 742-8848

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Shakina Hinton, Principal of Girls Prep II, prepared this 2024-25 Accountability Progress Report on behalf of the charter school's board of trustees:

Trustee's Name	Board Position	
	Office (e.g., chair, treasurer, secretary)	Committees (e.g., finance, executive)
Boykin Curry	Chair	Finance, Academics, Real Estate
Nicole Greene	Vice Chair	Academics, Governance, Development
Laura Weil	Secretary	Governance, Real Estate
Samuel Greene	Trustee	Finance, Real Estate
Tamara Zachery	Trustee	Development
Khairah Klein	Trustee	Academic

Noelani Gabriel-Brown served as principal of Girls Preparatory Charter School of the Bronx II from 2022 through the school year 2024-2025. Shakina Hinton has served as the principal of Girls Preparatory Charter School of the Bronx II since 2025.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

2024-25	44	39	45	67	54	24	76	54	67	-	-	-	-	470
---------	----	----	----	----	----	----	----	----	----	---	---	---	---	-----

GOAL 1: ENGLISH LANGUAGE ARTS

Students will become proficient readers of the English language.

BACKGROUND

Historically, the ELA program at Girls Prep Bronx II has integrated the Science of Reading approach with the New York State standards as the foundation for its literacy instruction. Depending on their grade level, scholars received 120-145 minutes of literacy instruction daily. The early grades implemented a research-based phonics program, focusing on decoding, phonological awareness, and sight recognition, to give scholars the foundational skills they need to become confident and successful readers. In addition to reading skills, Girls Prep Bronx II promoted a collaborative learning model that encouraged students to communicate in a positive, student-centered environment. They learned to engage meaningfully with texts, set and monitor their independent reading goals, and continuously improve through teacher and peer feedback.

To track and support literacy growth, teachers utilized the Roots Assessment in elementary grades, part of the Success for All Phonics curriculum. This research-backed tool evaluates students' literacy skills, provides educators with critical data, and helps teachers make informed decisions to guide students through the program. Students also completed writing diagnostics tied to their instructional units, and teachers regularly used unit assessments to monitor progress. Teachers used a combination of the Roots Assessment, NWEA MAP, interim assessments, and quizzes to guide interventions and adjustments to instruction.

As of school year 2025-26, Excellence Community Schools now serves as the charter management organization for the school.

ELEMENTARY AND MIDDLE ELA

ELA Measure 1 - Absolute

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State English language arts examination for grades 3-8.

The tables below summarize the participation information for this year's test administration as well as the performance of all students and students enrolled for at least two years.

2024-25 State English Language Arts Exam Number of Students Tested and Not Tested

Grade		Not Tested	
-------	--	------------	--

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

	Total Tested	Absent	Refusal	ELL/IEP	Admin error	Medically excused	Other reason	Total Enrolled
3	60	1	2	-	-	-	-	63
4	52	1	-	-	-	-	-	53
5	23	-	-	-	-	-	-	23
6	67	1	2	-	-	-	1	71
7	53	-	-	-	-	-	-	53
8	62	1	2	-	-	-	-	65
All	317	4	6	-	-	-	1	328

Performance on 2024-25 State English Language Arts Exam

By All Students and Students Enrolled in At Least Their Second Year¹

Grade	All Students			Enrolled in at least their Second Year		
	Number Tested	Number Proficient	Percent Proficient	Number Tested	Number Proficient	Percent Proficient
3	60	23	38.33%	31	16	51.61%
4	52	31	59.62%	31	20	64.52%
5	23	9	39.13%	-	-	-
6	67	35	52.24%	-	-	-
7	53	37	69.81%	-	-	-
8	62	41	66.13%	-	-	-
All	317	176	55.52%	62	36	58.06%

ELA Measure 2 - Absolute

Each year, the school's aggregate Performance Index ("PI") on the State English language arts exam will meet that year's state Measure of Interim Progress ("MIP") set forth in the state's ESSA accountability system.

In New York State, ESSA school performance goals are met by showing that an absolute proportion of a school's students who have taken the English language arts test have scored at the partially proficient, or proficient and advanced performance levels (Levels 2 or 3 & 4). The percentage of students at each of these three levels is used to calculate a PI and determine if the school has met the MIP set each year by the state's ESSA accountability system. To achieve this measure, all tested students must have a PI value that equals or exceeds the state's 2024-25 English language arts MIP for all students of **117.3**. The PI is the sum of the percent of students in all tested grades combined scoring at Level 2, plus two times

¹ Students are considered "enrolled in at least their second year" if they were enrolled on BEDS day of the school year prior to the most recent exam administration.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

the percent of students scoring at Level 3, plus two-and-a-half times the percent of students scoring at Level 4. Thus, the highest possible PI is 250.²

English Language Arts 2024-25 Performance Index

Number in Cohort	Number of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
317	57	84	102	74

$$PI = 0 * 17.98 + 1 * 26.50 + 2 * 32.18 + 2.5 * 23.34 = 149.21$$

ELA Measure 3 - Comparative

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the school district of comparison.

A school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.³

2024-25 State English Language Arts Exam Charter School and District Performance by Grade Level

Grade	Percent of Students at or Above Proficiency			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent Proficient	Number Tested	Percent Proficient	Number Tested
3	51.61%	31	43.5%	2444
4	64.52%	31	44.0%	2568
5	-	-	48.1%	2650
6	-	-	39.4%	2668
7	-	-	43.4%	2769
8	-	-	45.4%	2846
All	58.06%	62	44.0%	15945

ELA Measure 4 - Comparative

² You can find the statewide MIP goals for 2022-23 to 2026-27 [here](#)

³ Schools can access these data when the NYSED releases its database containing grade level ELA and mathematics results for all schools and districts statewide.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

The Institute conducts a Comparative Performance Analysis, which compares the school's performance to that of demographically similar public schools statewide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The difference between the school's actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a meaningful degree, is the target for this measure. Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2024-25 analysis is not yet available. This report contains 2023-24 results.⁴

2023-24 English Language Arts Comparative Performance by Grade Level

Grade	Percent Economically Disadvantaged	Mean Scale Score		Effect Size
		Actual	Predicted	
3	100.0%	453.0	436.2	1.70
4	N/A	N/A	N/A	N/A
5	N/A	N/A	N/A	N/A
6	N/A	N/A	N/A	N/A
7	N/A	N/A	N/A	N/A
8	N/A	N/A	N/A	N/A
All	100.0%	453.0	436.2	1.70

ELA Measure 5 - Growth

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the target of 50.

METHOD

Given the timing of the state's release of Growth Model data, the 2024-25 analysis is not yet available. This report contains 2023-24 results, the most recent Growth Model data available.⁵

⁴ These data can be found in the school's Accountability Summary provided by the Institute in spring 2025.

⁵ These data can be found in the school's Accountability Summary provided by the Institute in spring 2025.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2023-24 and also have a state exam score from 2022-23 including students who were retained in the same grade. Students with the same 2022-23 score are ranked by their 2023-24 score and assigned a percentile based on their relative growth in performance (student growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the target for this measure, it must have a mean growth percentile greater than 50.

The school does not have data available to assess this measure, due to the previous enrollment configuration. In 2023-24 the school served K-3, and the previous year third grade students were in second grade.

2023-24 English Language Arts Mean Growth Percentile by Grade Level

Grade	Mean Growth Percentile	
	School	Target
4	N/A	50.0
5	N/A	50.0
6	N/A	50.0
7	N/A	50.0
8	N/A	50.0
All	N/A	50.0

SUMMARY OF THE ELA GOAL

Girls Prep Bronx II met three of four applicable measures for this reporting period. Given the school's previous grade configuration, data are not available relative to the growth measure. The school did not meet one of two absolute measures and did meet both comparative measures.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State English language arts exam for grades 3-8.	No
Absolute	Each year, the school's aggregate PI on the state's English language arts exam will meet that year's state MIP as set forth in the state's ESSA accountability system.	Yes
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of students in the same tested grades in the school district of comparison.	Yes
Comparative	Each year, the school will exceed its predicted level of performance on the state English language arts exam by an	Yes

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

	effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.	
Growth	Each year, under the state’s Growth Model the school’s mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the target of 50.	N/A

EVALUATION OF ELA GOAL

Girls Prep Bronx II met three of four applicable measures. The school served K-3 in the 2023-24 school year and then grew to serve K-8 in 2024-25 due to a reconfiguration.

Measure 1 – Absolute: While 58.06% of students enrolled in at least their second year were proficient on the New York State English language arts exam for grades 3-8, this measure fell short of the 75% attainment expectation.

Measure 2 – Absolute: The school’s performance index was 149.21, which exceeded the achievement measure target of 117.3.

Measure 3 – Comparative: Girls Prep Bronx II students enrolled in at least their second year outperformed their district counterparts. The overall proficiency rate for continuously enrolled students was 58.06%, compared to 44% within the school district of comparison.

Measure 4 – Comparative: The overall effect size for the school was 1.7, which exceeded the .3 target.

Measure 5 – Growth: This measure is not applicable given the school’s previous grade configuration of K-3 in school year 2023-24.

ADDITIONAL CONTEXT AND EVIDENCE

Girls Prep Bronx II met three of four applicable measures for the 2023–24 school year. While we are encouraged by strong results on the comparative and performance index measures, we recognize that our students did not yet meet the 75% proficiency expectation on the absolute English Language Arts (ELA) measure.

Several factors help explain this outcome:

- Reconfiguration and Growth:** In 2024–25, the school expanded from serving grades K–3 to K–8. This reconfiguration required onboarding new grades, staff, and students, many of whom were new to our culture, curriculum, and expectations. Ensuring consistency across grade levels during this period of rapid growth was a challenge that we are actively addressing through targeted professional development and aligned instructional systems.
- Participation and Baseline Gaps:** As a relatively young school, a significant portion of our students are new enrollees. Many students joined with academic gaps, particularly in literacy,

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

which impacted overall proficiency rates. While these students showed growth, the aggregate proficiency measure was lowered by their baseline performance.

Despite these challenges, we are proud that Girls Prep Bronx II students outperformed their district peers by 14 percentage points (58.06% vs. 44%) and achieved an effect size of 1.7, far exceeding the 0.3 target.

To further strengthen student achievement, the school has implemented the following academic interventions and supports:

- **Targeted Intervention Blocks in Math and ELA:** All students participate in small-group intervention focused on closing foundational skill gaps and accelerating growth toward grade level mastery.
- **Saturday Academy (Grades 3–8):** Beginning in 2025–26, we will launch Saturday Academy to provide additional instructional time for students who need support in ELA and Math. This program will reinforce classroom learning and will offer intensive practice with high-leverage skills.
- **Progress Monitoring Through Internal Assessments:** In addition to state assessments, the school administers frequent internal benchmark assessments to track growth, identify students needing targeted intervention, and measure progress throughout the year.
- **Professional Development for Teachers:** Teachers receive ongoing coaching aligned to the *Get Better Faster* framework, with an emphasis on maximizing instructional time, ensuring rigor in questioning, and supporting literacy across content areas.

ELA ACTION PLAN

As of school year 2025-26, Excellence Community Schools is the new CMO for Public Prep Academies, and the school is transitioning to using the Excellence Model. Consistent with the mission and the Excellence Model, Girls Prep Bronx II will educate scholars with a lens towards the maintenance of equity, ensuring all children have equitable access to high-quality instruction. The school will provide academic intervention for scholars who did not achieve their academic goals and will implement proven resources and strategies that have historically been successful for students in the Bronx. Staff received two weeks of intensive professional development prior to the start of the 2025-26 school year to support this transition and are provided ongoing professional learning and support throughout the year.

The Excellence Model's high-quality ELA curriculum is aligned to New York State's Next Generation Learning Standards. The reading program provides for students the foundation needed to become proficient readers, including skills and knowledge to understand how phonemes are connected to print; ability to decode words; ability to read fluently; background knowledge and vocabulary to foster comprehension; development of active strategies to construct meaning from print; and development and maintenance of a motivation to read. This curriculum allows teachers to facilitate a literacy approach that incorporates multiple genres, has the flexibility to differentiate, and uses direct instruction to teach foundational skills prior to moving onto more complex content.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

The implementation of the reading program is effective because of the instructional strategy of uninterrupted, consistent, daily flexible reading groups that focus supports within smaller groups for struggling readers while offering enrichment activities for students who are proficient and advanced readers. Scholars receive small group instruction and interventions that cross grade-level classrooms. Teachers gather extensive assessment data to determine students' learning levels and provide individualized support to target needs. Assessments include a combination of formal and informal measures such as daily checks and anecdotes; quarterly benchmarks tests; annual state assessments; and curriculum-based assessments administered at the conclusion of the six- to eight-day instructional cycle. All data is used to inform lesson planning, establish targeted small group mini lessons, monitor progress, and evaluate the efficacy of our programming. Moreover, it helps to drive differentiated professional development by strengthening areas of vulnerability and leveraging assets to optimize instruction.

GOAL 2: MATHEMATICS

Students will demonstrate steady progress in the understanding and application of mathematical skills and concepts.

BACKGROUND

Girls Prep Bronx II historically implemented a math curriculum that utilized the New York State Standards as a foundation and folded in rigorous curricula to challenge students and allow teachers to narrow and deepen the scope of math instruction. Girls Prep Bronx II's math instruction schedule included two math blocks, one for a core standard's aligned unit of study, and a second that included complex problem-solving and a combination of data-informed small group instruction and targeted practice using adaptive technology. For school year 2024-25 the school implemented Eureka Squared.

As a network, Public Prep committed to the implementation of a program grounded in problem-based learning where students built conceptual understanding by making meaning of mathematics through inquiry, collaboration, and feedback. The approach promoted reasoning and problem solving, allowing students to connect and build mathematical representations and engage in high-quality discourse, and build procedural fluency from conceptual understanding.

As of school year 2025-26, Excellence Community Schools now serves as the charter management organization for the school.

ELEMENTARY AND MIDDLE MATHEMATICS

Math Measure 1 - Absolute

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State Mathematics examination for grades 3-8.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

The tables below summarize the participation information for this year’s test administration as well as the performance of all students and students enrolled for at least two years.

2024-25 State Mathematics Exam Number of Students Tested and Not Tested									
Grade	Total Tested	Not Tested							Total Enrolled
		Absent	Refusal	ELL/IEP	Admin error	Medically excused	Other reason	Took Regents	
3	63	-	-	-	-	-	-	-	63
4	53	-	-	-	-	-	-	-	53
5	23	-	-	-	-	-	-	-	23
6	69	-	2	-	-	-	-	-	71
7	51	-	2	-	-	-	-	-	53
8	58	7	-	-	-	-	-	58	65
All	317	7	4	-	-	-	-	58	328

Performance on 2024-25 State Mathematics Exam By All Students and Students Enrolled in At Least Their Second Year						
Grade	All Students			Enrolled in at least their Second Year		
	Number Tested	Number Proficient	Percent Proficient	Number Tested	Number Proficient	Percent Proficient
3	63	29	46.03%	31	21	67.74%
4	53	24	45.28%	31	16	51.61%
5	23	6	26.09%	-	-	-
6	69	21	30.43%	-	-	-
7	51	26	50.98%	-	-	-
8	58	7	12.07%	-	-	-
All	317	113	35.65%	62	37	59.68%

Additionally, 38% of the Girls Prep Bronx II students who took a Regents exam in mathematics achieved proficiency.

Math Measure 2 - Absolute

Each year, the school’s aggregate Performance Index (“PI”) on the state mathematics exam will meet that year’s state Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

METHOD

In New York State, ESSA school performance goals are met by showing that an absolute proportion of a school's students who have taken the mathematics test have scored at the partially proficient, or

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

proficient and advanced performance levels (Levels 2 or 3 & 4). The percentage of students at each of these three levels is used to calculate a PI and determine if the school has met the MIP set each year by the state’s ESSA accountability system. To achieve this measure, all tested students must have a PI value that equals or exceeds the state’s 2024-25 mathematics MIP for all students of **119.4**. The PI is the sum of the percent of students in all tested grades combined scoring at Level 2, plus two times the percent of students scoring at Level 3, plus two-and-a-half times the percent of students scoring at Level 4. Thus, the highest possible PI is 250.

Mathematics 2024-25 Performance Index (PI)

Number in Cohort	Number of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
317	99	105	95	18

$$PI = 0 * 31.23 + 1 * 33.12 + 2 * 29.97 + 2.5 * 5.68 = 107.26$$

Math Measure 3 - Comparative

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of all students in the same tested grades in the school district of comparison.

METHOD

A school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.

2024-25 State Mathematics Exam
Charter School and District Performance by Grade Level

Grade	Percent of Students at or Above Proficiency			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent Proficient	Number Tested	Percent Proficient	Number Tested
3	67.74%	31	46.1%	2562
4	51.61%	31	45.4%	2680
5	-	-	42.3%	2745
6	-	-	33.8%	2769
7	-	-	42.8%	2821
8	-	-	38.8%	2283
All	59.68%	62	41.5%	15860

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Math Measure 4 - Comparative

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

METHOD

The Institute conducts a Comparative Performance Analysis, which compares the school's performance to that of demographically similar public schools statewide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The difference between the school's actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a meaningful degree, is the target for this measure. Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2024-25 analysis is not yet available. This report contains 2023-24 results.⁶

2023-24 Mathematics Comparative Performance by Grade Level

Grade	Percent Economically Disadvantaged	Mean Scale Score		Effect Size
		Actual	Predicted	
3	100.0%	462.0	442.8	1.41
4	N/A	N/A	N/A	N/A
5	N/A	N/A	N/A	N/A
6	N/A	N/A	N/A	N/A
7	N/A	N/A	N/A	N/A
8	N/A	N/A	N/A	N/A
All	100.0%	462.0	442.8	1.41

Math Measure 5 - Growth

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the target of 50.

⁶ These data can be found in the school's Accountability Summary provided by the Institute in spring 2025.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

METHOD

Given the timing of the state’s release of Growth Model data, the 2024-25 analysis is not yet available. This report contains 2023-24 results, the most recent Growth Model data available.⁷

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2023-24 and also have a state exam score in 2022-23 including students who were retained in the same grade. Students with the same 2022-23 scores are ranked by their 2023-24 scores and assigned a percentile based on their relative growth in performance (student growth percentile). Students’ growth percentiles are aggregated school-wide to yield a school’s mean growth percentile. In order for a school to meet the measure, the school would have to achieve a mean growth percentile above the target of 50.

The school does not have data available to assess this measure, due to the previous enrollment configuration. In 2023-24 the school served K-3, and the previous year third grade students were in second grade.

2023-24 Mathematics Mean Growth Percentile by Grade Level

Grade	Mean Growth Percentile	
	School	Target
4	N/A	50.0
5	N/A	50.0
6	N/A	50.0
7	N/A	50.0
8	N/A	50.0
All	N/A	50.0

SUMMARY OF THE MATHEMATICS GOAL

Girls Prep Bronx II met two of four applicable measures. The school did not meet either absolute measure but did meet both comparative measures. The growth measure is not applicable due to the school’s previous grade configuration.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State Mathematics exam for grades 3-8.	No
Absolute	Each year, the school’s aggregate PI on the state’s mathematics exam will meet that year’s state MIP as set forth in the state’s ESSA accountability system.	No

⁷ These data can be found in the school’s Accountability Summary provided by the Institute in spring 2025.

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of students in the same tested grades in the school district of comparison.	Yes
Comparative	Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.	Yes
Growth	Each year, under the state’s Growth Model the school’s mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the target of 50.	N/A

EVALUATION OF THE MATHEMATICS GOAL

Girls Prep Bronx II met two mathematics measures, and did not meet two, with the fifth measure not applicable as noted below.

Measure 1 – Absolute: Overall, 59.68% of students enrolled in at least their second year were proficient on the New York State math exam, short of the 75% attainment expectation.

Measure 2 – Absolute: The school’s performance index was 107.26, which did not meet the achievement measure target of 119.4.

Measure 3 – Comparative: Girls Prep Bronx II students enrolled in at least their second year outperformed their district counterparts in third and fourth grade. The overall proficiency rate for these continuously enrolled students was 59.68%, compared to 41.5% within the school district of comparison.

Measure 4 – Comparative: The school’s overall effect size for the school was 1.41, which exceeded the .3 target.

Measure 5 – Growth: The school does not have data available to assess this measure, due to the previous enrollment configuration. In 2023-24 the school served K-3, growing to K-8 in the following year.

ADDITIONAL CONTEXT AND EVIDENCE

Girls Prep Bronx II met two of four applicable mathematics measures during the 2024–25 school year, with the growth measure not applicable due to the school’s previous grade configuration. While we are encouraged by our strong comparative results, we acknowledge that the school did not yet meet the absolute proficiency target or the performance index expectation in mathematics.

Several factors contributed to these results:

- **Reconfiguration and Expansion:** The 2024–25 reconfiguration to a K–8 structure required rapid growth across grades, staffing, and curricular alignment. Many students entered Girls Prep

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

Bronx II in upper elementary grades with significant gaps in foundational math skills, impacting overall proficiency rates.

- **Performance Index Shortfall:** While nearly 60% of continuously enrolled students demonstrated proficiency, a notable group of students performed just below proficiency thresholds. This contributed to the school's inability to meet the performance index measure despite strong comparative results.
- **Baseline Skill Gaps:** Students new to the school often arrived with unfinished learning in early numeracy and problem solving, particularly in multi-step word problems and conceptual understanding. Addressing these gaps requires sustained intervention.

Continuously enrolled students outperformed their district peers by more than 18 percentage points (59.68% vs. 41.5%). Additionally, the effect size of 1.41 greatly exceeded the .3 target, reflecting significant academic gains relative to peers.

To strengthen mathematics outcomes, Girls Prep Bronx II will take the following actions:

- **Targeted Math Intervention:** Daily intervention blocks provide small group support for students performing below grade level, with a focus on fluency, number sense, and application of mathematical reasoning.
- **Saturday Academy (Grades 3–8):** Students identified as needing additional support in mathematics are encouraged to attend Saturday Academy, which offers extended learning time and targeted practice with problem solving and computation.
- **Data-Driven Instruction:** Teachers analyze internal assessment data including unit assessments and quizzes to identify trends and reteach critical skills. These frequent data cycles ensure that instructional adjustments are timely and responsive.
- **Professional Development:** Teachers receive coaching and PD on math discourse, problem-solving strategies, and the use of concrete-representational-abstract (CRA) models to strengthen conceptual understanding.

MATHEMATICS ACTION PLAN

As of school year 2025-26, Excellence Community Schools is the new CMO for Public Prep Academies, and Girls Prep Bronx II is transitioning to using the Excellence Model. Consistent with the mission and the Excellence Model, the school will educate scholars with a lens towards the maintenance of equity, ensuring all children have equitable access to high-quality instruction. The school will provide academic intervention for scholars who did not achieve their academic goals and will implement proven resources and strategies that have historically been successful for students in the Bronx. Staff received two weeks of intensive professional development prior to the start of the 2025-26 school year to support this transition and are provided ongoing professional learning and support throughout the year.

The Excellence Model uses Next Generation math standards and Eureka Squared sequences mathematical progressions into modules. The curriculum aligns well with the school's approach to learning and provides a foundation of knowledge, skills, and competencies upon which to build as

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

students advance in content and grade level. This curricular approach allows students to engage with exciting, intriguing, and animated content that provides enhanced opportunities to explore, expand upon, and broaden the depth of mathematical discourse, real-world connections, reasoning, critical thinking, and problem solving. This includes computational, procedural, and conceptual knowledge that supports and builds success in mathematics with authentic problem solving. The program centers on teaching with a concrete-pictorial-abstract learning progression through real-world, hands-on experiences. It encourages students to use various mental strategies to solve problems and focus on finding solutions. It builds conceptual understanding rather than rote memorization, with an emphasis on critical thinking and problem solving and focuses on deep knowledge building to understand mathematics conceptually.

Based on classroom data, teachers provide scaffolded small groups and individualized targeted instruction as students practice work independently. This way, interventions are provided in real time, particularly for scholars who are not immediately mastering content. The program also allows differentiation with advanced sections and groups created to enrich the math experience for scholars who are accelerated. While scholars are expected to master both content and mathematical processes appropriate for their age and grade, our goal is to support scholars so they can complete Algebra by the end of eighth grade.

GOAL 3: SCIENCE

Students will become proficient in all grade level science expectations.

BACKGROUND

The science curriculum at Girls Prep Bronx II was designed to provide a solid foundation for students in the essential understandings of elementary and middle science as outlined in the New York State standards. The curriculum historically aimed to provide students with a solid foundation in discovery-based science to ensure that they can excel in middle and high school science classes. As with ELA and math, the transition to Excellence Community Schools as the CMO for Public Prep brings changes to the science program for the 2025-26 school year.

ELEMENTARY AND MIDDLE SCIENCE

Science Measure 1 - Absolute

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State science examination.

The school administered the New York State Testing Program science assessment to students in 5th and 8th grade in spring 2025. The table below summarizes the performance of students enrolled for at least two years.

Charter School Performance on 2024-25 State Science Exam

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

By Students Enrolled in At Least Their Second Year

Grade	Students in At Least Their 2 nd Year		
	Number Tested	Number Proficient	Percent Proficient
5	N/A	N/A	N/A
8	N/A	N/A	N/A
All	N/A	N/A	N/A

Girls Prep Bronx II served K-3 in 2023-24, therefore no continuously enrolled students tested in science in 2024-25.

Science Measure 2 - Comparative

Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state science exam will be greater than that of all students in the same tested grades in the school district of comparison.

The school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which the school had tested students in at least their second year and the results for the respective grades in the school district of comparison.

2024-25 State Science Exam

Charter School and District Performance by Grade Level

Grade	Charter School Students in at Least 2 nd Year			All District Students		
	Number Tested	Number Proficient	Percent Proficient	Number Tested	Number Proficient	Percent Proficient
5	N/A	N/A	N/A	3299	632	21.0
8	N/A	N/A	N/A	3336	511	15.0
All	N/A	N/A	N/A	6635	1143	15.0

SUMMARY OF THE ELEMENTARY/MIDDLE SCIENCE GOAL

Both science measures are based on results for continuously enrolled students, and given the school's past grade configuration, data are not available for the 2024-25 school year.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State examination.	N/A
Comparative	Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state exam will be greater than that	N/A

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

	of all students in the same tested grades in the school district of comparison.	
--	---	--

EVALUATION OF THE SCIENCE GOAL

The two measures for science were not applicable for the school in 2024-25.

Performance on a Regents Science Exam Of 8th Grade All Students

Grade	Year	Regents Exam	Number Tested	Percent Passing with a 65
8	2022-23	N/A	N/A	N/A
8	2023-24	N/A	N/A	N/A
8	2024-25	Living Environment	55	38.18%

ACTION PLAN

With the transition to the Excellence Model, the school is now implementing a science curriculum based on the New York State P-12 Science Learning Standards (NYSP-12SLS) and focuses on three dimensions of learning – Science and Engineering Practices, Disciplinary Core Ideas, and Crosscutting Concepts. Under the guidance of the standards, the science program takes an inquiry-based approach to learning. It provides students with opportunities to build connections that link science to technology and societal impacts and provides the skills and knowledge our students need to become scientifically literate citizens of the 21st century. This approach reflects the Excellence Model’s commitment to inspire conscientious, inquisitive, knowledgeable, and lifelong scholars. Students practice solving problems creatively, thinking critically, working cooperatively in teams, using technology effectively, and developing positive science attitudes. Instruction is differentiated for all learning styles and incorporates several methods of instructional delivery and assessment. Teachers were provided professional development at the start of the 2025-26 school year to provide support for the transition and are provided ongoing professional learning and support throughout the year.

GOAL 4: ESSA

ESSA Measure 1

Under the state’s ESSA accountability system, the school is in good standing: the state has not identified the school for comprehensive or targeted improvement.

Because *all* students are expected to meet the state's performance standards, the federal statute stipulates that various sub-populations and demographic categories of students among all tested students must meet the state standard in and of themselves aside from the overall school results. As New York State, like all states, is required to establish a specific system for making these determinations

2024-25 ACCOUNTABILITY PLAN PROGRESS REPORT

for its public schools, charter schools do not have latitude in establishing their own performance levels or criteria of success for meeting the ESSA accountability requirements. Each year, the state issues School Report Cards that indicate a school's status under the state accountability system. More information on assigned accountability designations and context can be found [here](#).

Accountability Status by Year

Year	Status
2022-23	Local Support and Improvement (Good Standing)
2023-24	Local Support and Improvement (Good Standing)
2024-25	Local Support and Improvement (Good Standing)

ADDITIONAL CONTEXT AND EVIDENCE

Girls Prep Bronx II has remained in good standing and has met this goal each year of reporting.
