

2025

FISCAL OVERSIGHT WORKSHOPS

The Fiscal Crisis and Management Assistance Team (FCMAT) is pleased to offer workshops on understanding effective fiscal oversight in 2025.

Don't miss this powerful training on the essential steps, processes and techniques necessary for the effective fiscal oversight of local educational agencies by county superintendents of schools.

Day One — *full-day training for county office of education staff.*

FCMAT will provide fundamental fiscal oversight training for those who are new county office staff members, missed last year's workshops, and/or want to review the updated training because of legislative changes.

Day Two — *full-day training for county office and district staff.*

FCMAT will cover various fiscal oversight topics, introduce tools, and provide and discuss information to help districts understand why county offices need specific information. The goal is to facilitate communication and understanding between districts and county offices on fiscal oversight provisions and requirements.

These workshops are offered at no cost to attendees. Laptops are required for both trainings.
