

Archbishop Molloy High School has partnered with School Pass this school year to manage our student's attendance and as our visitor management system.

School Pass allows parents to update their child's attendance and early dismissals from an app.

Students use School Pass every morning to check in at each entrance to the building. iPads are located at the doors and the students use their ID Card to record that they have entered the school for the day.

With the School Pass app, parents can now notify the school if their child will be absent or if they need to be dismissed early for an appointment. The short video links below will help explain how to install the app using the App Store for iPhones or Play Store for Android users. The video will also show you how to login for the first time.

Video two will demonstrate how to notify the school when your child will be absent and video three shows how to notify the school if you need to have your child dismissed before school ends.

The school has converted to School Pass to help make the attendance of your child an easier process for parents.

Parents will still have the option to call the school to report an absence or to have your child be dismissed early.
