

Parent Bulletin Friday 26th September 2025

Dear Parents and Carers

The fresh but glorious weather this week has given us a lovely environment at school during the day. We aim to keep the field open for as long as possible and around the school site students have been able to enjoy a range of sports at break and lunchtime. We make equipment available so that students can play table tennis, volleyball, badminton, cricket, football and basketball. Please encourage your child to get involved.

As the term has now got fully underway we are into the swing of a range of activities. A group of students are involved again in the William Herschel Music Project where they are creating and rehearsing music with a group of professional musicians. We also held our first open morning of the year on Thursday for parents of children in Year 6 who are considering Slough and Eton as their child's secondary school. We also had our first football fixture of the year with our Year 10 boys winning 4-2 in a cup match against Wexham School. They were runners up last season and have their eyes on the trophy this year!

Year 7 and 12 Meet The Tutor Meetings

This is taking place on Thursday and parents of all students in those years are invited into school to meet with their child's form tutor and discuss their child's progress since the start of term. All appointments are being made via School Cloud and you can find the link here If <https://sloughetoncollege.schoolcloud.co.uk/> you have any problems please do contact the school on reception@slougheton.com and we will help you.

Uniform

We are working hard to ensure all students wear the uniform correctly and help to resolve any problems. Please remember that the jumper students can wear is optional and they must be wearing a blazer in school. If you wish to purchase good quality second hand uniform from the school we have our shop opposite Reception which is open before and after school every day and run by students. We are also always keen for donations of uniform items and anything you have and which you no longer need can be dropped off at Reception.

Online Safety

This week's safety online guidance is about what parents need to know about Generative AI You can access the details online [here](#).

Thanks for all your support this week and have a great weekend.

Yours sincerely

Peter Collins
